HAVELOCK, Kings Co., Sept. 2 .-George Alward, late of Lower Ridge but recently of Havelock, died on Saturday in the ninety-fifth year of his Two weeks ago the death of his wife was recorded in the Sun. Mr. Alward was formerly of Canaan, where he buried two wives, but of later years he has lived at Lower Ridge. He is the last of a large family, and was three times married, surviving his last wife only two weeks. leaves an only child, Mrs. Charles B. Keith of this village, at whose residence he died. He was for many years member of the Baptist church His funeral took place yesterday after-noon and was conducted by the Rev. Dr. Brown, interment at Havelock

cemetery.
Susie Madigan, daughter of John
Madigan of Creek road, died last week of consumption, aged 16 years.

Miles Thorne, son of Richard Thorne of Canaan road, who has been subject to fits for several years, recently be-

came quite violent and was removed to the lunatic asylum last Monday. Samuel Perry accompanied him to St. John. His friends hope he may re-

The Springhill school house is being repaired and refurnished. The bridge on the Elgin and Have lock railway at Eastman, known as the Oxbow bridge, has been thorough-ly repaired and traffic has been re-sumed on the road between Petitco-diac and Eigin.

The Sunday school picnic in connection with the Baptist church of this village will take place on Thursday afternoon on the grounds of Wilfred

A number of boys who have lately become a terror to the village, entered the orchards of Dr. Brown and Samuel McDonald one night last week and after stealing the apples, destroyed a tree in each orchard. C. Alward is having the apples from his orchard prepared for market. A lady from Havelock, who attended the ek lost her pocket book on Wednesday on the Canadian Pacific train. It was found later by the conductor and she received it all right next day.

The superior school of this village resumed work last Monday, with Aaron Perry as principal and Mary Keith and Minnie Price assistants. Miss Price recently returned from the Pan-American exhibition.

Blanche Alward has been compelled to resign her school at the Narrows and is now very ill at her home in

YOUNG'S COVE, Queens Co., Sept. 2.—A large number of sheep have been destroyed by bears during the last month in this and neighboring settlements. There will be one less now to carry on these depredations, as on Saturday evening B. H. Smith was recognized in transping a hear near his successful in trapping a bear near his

Queen fell overboard just as that boat was docking here on Saturday, but was rescued before he had time to

SUSSEX, Sept. 3.—The fire wardens met on Monday, but on account of the absence of G. H. White, one of the members, the meeting was adjourned till this morning at 10 o'clock The Gutta Percha & Rubber Co. of Toronto received an order for 1,000 feet of ho for our town, through their agents W. H. Thorne & Co. of St. John, Fou other firms competed for the order.

H. H. Dryden of this place has received an order for the Muller machine of United States for tapping been authorized to prepare the by-laws for the wards and he will em-ploy L. L. Ailison, barrister, of Sussex, to draw up the code. The reservoir will be completed this week, the wells

ned and the reservoir allowed to Mrs. Chas. Chestnut, wife of the former baggage master here, is not expected to live. She is 81 years old. Robert Pugsley, who has been cierking with the mercantile company here for some time past, has sent in his resignation and goes to Missoula soon to take a similar position with the Missoula Mercantile Co. Burpee Gillespie has also had an offer.

The scandal at the I. C. R. depot last night following a similar occurrence a few weeks ago, should be looked into by the I. C. R. officials.

SUSSEX. Sept. 4.—The case on com-

rence a few weeks ago, should be looked into by the I. C. R. officials.

SUSSEX, Sept. 4.—The case on complaint of David Patriquin against Henry McKnight, for larceny, before Stipendiary Magistrate Morrison, has been withdrawn from court. The parties are brothers-in-law. Ora P. King appeared for the complainant, and Geo. W. Fowler for the accused.

In the case of Dryden versus Lynch, for breaking windows, J. M. McIntyre appeared for complainant and Geo. W. Fowler for accused. The case was postponed till Friday morning by request of Mr. McIntyre, as the complainant's wife is ill.

James Golding and James Duncan of Lower Coverdale, Albert Co., had a horse and wagon stolen from them in Moncton on Tuesday morning by two boys unknown to them. The boys, passed through Petitoodiac at 1.30 p.m. and Penobsquis at 5 p. m. Mr. Duncan came to Sussex this morning to look for the parties, and, accompanied by Constable Wm. McLeod, started to drive to Penobsquis, as he heard the carriage had been changed between Penobsquis and Sussex. Mr. McLeod thought best to enquire at the livery stables here, and he found the horse and carriage at Joseph Wallace's. The rig had been left there last might about and carriage at Joseph Wallace's. The rig had been left there last night about 8 o'clock and had not been called for. The boys made good their escape.

Mrs. Mary Kinnear, who for the past few years has been living with her

daughter, Mrs. Wm. McLeod, has gon

DOUGLAS HARBOR, Queens Sept. 2.—One of the most delightful places to spend one's vacation is at Douglas Harbor, which is situated about five miles from the Jemseg the western side of the Grand Lake. The scenery is superb; the beautiful beaches for fresh water bathing cannot be surpassed in the province, and the harbor is safe for boating, as there are no tides or strong currents. The roads also are excellent for wheeling.

A large number of visitors have been here this season. Among those who left here this morning by steamer May Queen were W. J. McAlary and wife, Miss Helen Frink, Miss Mary Carl, Miss Bird Hacket, Mrs. B. P. Shaw. Mrs. Maria Charlton, Mrs. Thos. Carle, D. Long, the evening ty Rev. G. A. Mrs. Allen Holder and daughter, all of Hartley, D. D. Rev. . T. Phillips pre-St. John; Mrs. Stephen Cameron and

WOODSTOCK, Sept. 2.-Ven. Archdeacon Neales in the course of a sermon recently preached in the parish church. Woodstock, took occasion to make the following reference to the late Df. Ketchum. He spoke from Jeremiah xii., 5, dwelling upon the faithful and long service of the prophet in the ministry. He said: line of thought leads me to speak just a word of one to whom reference could nowhere be more fittingly made than in this place. Our life-long and beloved friend, the late Dr. Ketchum, from his home in this community was called to be a priest and a teacher in the church of God. In obedience to that call he gave himself fully into God's service. For nearly threescore years he performed most faithfully the duties of his office in the church of God. Like the prophet of old, I doubt not he often realized his own unfitness for so holy a calling, and as often had reason to feel discouragement at the apparent little effect of his labors among the souls of men whom he loved. But to the last he shrank not from his duty, and the record of his ministry is a bright and oble one. He ran unweariedly with the One. He contended bravely with the has just crossed the swelling Jor-dan with a full courage and un-

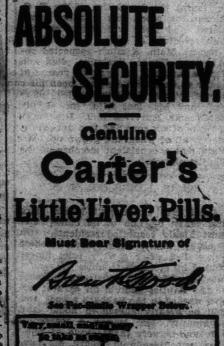

great success in every way. The day turned out fine, and there being no other attraction the attendance was There were all manner nusing games and sports, and the est of music was furnished by the foodstock band assisted by the Houlon band, who kindly gave their ser-

THE PAN-AMERICAN

There is no other condition which cows have to contend with which makes as that of atmospheric temperature. So long as the temperature is about the seventies the cows keep up a good even flow of milk, but just as soon as the thermometer goes up in the eighties, down goes the milk, no matter what the feed is. Green corn, cut, and green millet have taken the place of sliage for the past ten days, and the cows were doing well on this feed until the present hot spell car upon us, which commenced on the 19th inst., and the cows are now suffering from the and the cows are now suffering from the heat as much as they have done at any time since the test commenced, with a consequent shrinkage in milk. There is the greatest variation in the heavy milking breeds; they drop the most when the conditions are unfavorable, and they respond more quickly when the conditions are favorable. The week ending July 23rd was the most trying week of the season until the present, and when the cooler weather came in about the first of August there was a good increase in both milk and butter in most of the breeds, but at the present writing the thermometer stands from 35 degrees to 85 degrees, and the milk has again failten off badly. Up to the present time all the cows have been milked three times daily—5 a. m., 12.30 p. m. and 8 p. m., but there has been much debating as to whether this is the wisest course under such trying conditions with the result that three of the

has been much debating as to whether this is the wisest course under such trying conditions, with the result that three of the American herdsmen broke over the lines yesterday and are now milking only twice per day. The result will be closely watched during the next month, as some claim that more milk and butter will be produced by three milkings than by two milkings, and those interested will do well to watch the result, which will be given from time, to time as the test goes on.

During the cool weather the Holsteins made the greatest gains with the exception of Meg, as she had a week's sickness, which put her back yery much in her milk. The cost of feed, however, still keeps them down to fourth or fifth place on the butter test. The Guernsey, Mary Marshall, has again asserted her supremacy as queen of the barn, and headed the list with \$2.09 profit, while last week she gave a profit of \$2.37. The Jersey, Primrose, which headed the list two weeks ago with \$2.33, stood second last week, \$2.22 profit, and this week with \$1.91.

The Jerseys as a breed stood at the head last week with a lead of \$5 cents but they

22.37 The Jersey, Primrose, which headed the list two weeks ago with \$2.33, stood second last week, \$2.22 profit, and this week with \$1.91.

The Jerseys as a breed stood at the head last week with a lead of 95 cents, but they have lost heavily during the week just ended, Aug. 20th, and the Guernseys have increased their lead by 56 cents, making fhoir total lead at present \$6.66. It may not be generally understood how the Guernseys got such a lead of the Jerseys during the first month, but, in justice to the other breeds, it might be stated that the Guernseys were all in fine working trim at the beginning of the test. Four of them freshened in April (two of them after they arrived on the ground). The Jersey, Primrose, had been milking two months before the test commenced, and Rexina did not calve until the end of the second week after the test commenced, and she was paying for her feed in the meantime, which put her back about \$4.

The Red Polls are making a remarkably good record, and Mayflower holds second place on total profit since May ist. Mary Marshall (Guernsey) standing 1st with \$33.03; Mayflower (Red Poll) 2nd with \$33.79, and Primrose (Jersey), \$33.66. The whole of the Red Polls in the test are owned by Capt. W. T. Hills of Delaware, Ohio, who has made some remarkably good sales as a result of his cowa' record here.

The Canadian cows, as a whole, are making a good record, and are a much finer lot of cows than their competitors, and they will all give a good account of themselves by the time the test is closed.

There are four prizes given in this contest—one for most profit on estimated butter as revealed by the Babcock test, the butter valued at 25 cents per lb.; one prize for notal solids in the milk, valued at 3 cents per lb., and one prize for total solids plus the gain or loss in fiesh of the cows, valued at 3 cents per lb.

The first is creating the greatest interest and is the one on which the profits, so far, have been based and published. The cuurn less is not considered to be at all reliable

very largely, forming about 3 per cent, of the total solids.

In the making of cheese the greater part of the sugar passes off in the whey and comprises about 70 per cent, of the solids in whey, and of which no account would be taken if a cheese test had been used as a basis for a prize, but in this test for total solids a pound of milk sugar figures the same as a pound of casein or a pound of milk fat.

In the competition for t the herds is comple	tely change	d, and a

		44
French-Canadian		44
Polled Jersey	103.79	

When the test commenced there were only a few newspapers in the United States that took any notice of it, but there are now over 200 asking for reports from the Associated Press, thus showing the interest which has

been created all over the country. At the World's Fair in 1893 the test extended over only three months, while this test is expected to cover a period of six months, and it will be a test of endurance.
