☞ We make the following extracts from the *London Morning Chronicle*, in reference to the affairs of the "ROYAL INSURANCE COMPANY" London, and for whom J. J. KAYE, Esquire, is Agent, at Saint John. They certainly show the affairs of the Company to be in a most flourishing condition.

ROYAL INSURANCE COMPANY.

This Company was set on foot ten years ago, and is unquestionably the most successful modern institution for the entertainment of life and fire risks set on foot in these later times—or, rather, since the passing of the Joint-Stock Companies' Registration Act (7 and 8 Victoria.)

In the brief period of ten years—a small space in the life of a new Company—which may be said with truth to court nearly the whole world for customers—the "Royal" has acquired an income of £130,000, which places it second only to the greatest Fire Companies in the land, some of which has been established more than a century!

The "Royal" has high claims upon the support of Liverpool and the Western world across the Atlantic, where we learn, its fame is of the best and most durable character. The new Companies set on foot in accordance with the behests of the Act referred to, are compelled annually to register their accounts. The elder race of kindred institutions do nothing of the kind; they do not place, and possibly do not desire to place, their financial position before the world; so that their colossal wealth, so much prated about, may after all have dwindled away instead of accumulated. We do not say it has; but secrecy, in the conduct of public institutions—and Assurance bodies partake essentially of this character—breeds suspicion and distrust, even where least deserved.—What, then, is certain, with regard to the financial condition of the Companies like the "Royal," is, in truth, a mere matter of conjecture, as to some of the elder provident institutions—more especially those which entertain fire risks. The public have greater faith in institutions that open wide their meeting-doors to the representatives of the press, and which periodically publish ungarbled balance-sheets, than in those whose annual conclaves are held in secret—whose meeting-doors are "hermetically sealed." What indeed must be that man's faith who places his money in a Bank of whose monetary condition and engagements he knows nothing, or with respect to which he never cares to enquire.

The "Royal," commenced business in June, 1845; its fire-rates are moderate and safe; its life premiums, under those of the mass of elder offices; its principles are salient in the highest degree, and all the requirements of the provident community, in regard to life and fire insurance, are catered for, and answered to the full. The paid-up capital at the outset was £150,000. At the close of 1848 an investigation resulted in the discovery that a clear profit had been made over and above all liabilities, and after providing for every reasonable contingent circumstance of £108,941.

Of this, £89,280 was appropriated as a bonus on the paid-up capital, making the actual paid-up capital of the Company £238,140.

The Reporter, the monthly journal devoted to Provident Institutions, furnishes the following comments:—

"The bonus of the 'Royal' may be pronounced to be larger than any yet declared by the mass of the English offices. Here is a new office, which in ten short fleeting years yields a fairly earned and wholesome reversionary bonus of 80 per cent. in its Life branch, and, in regard to fire operation, can make this very enviable boast, that in these ten years it has exceeded the Fire business of all but two of the London Fire offices—viz., the receipt of nearly £150,000 per year in Fire premiums alone—some of which ancient offices have been in existence for a century! Equally successful and singular in both departments."

THE LIQUOR LAW.—The first attempt to convict under this law took place on Tuesday last, on the information of *C. Smiler, Joseph Lordly, and John Fraser*. The party whom they intended to commit was Mr. Robert Stewart, whose liquors were taken from him, and himself held to bail for his appearance. The trial took place before Mr. Justice Lockhart, Mr. Justice Desnard, and Mr. Justice Underhill. The excitement on the public mind was immense during the entire time of the trial (nearly a whole day), the Police Office and the street outside was literally jambed by a multitude, who appeared determined that the accused should not be punished. All difficulty however was allayed, by the lawyers finding the law of the same textures with all our laws, *defective*, and the case was dismissed.

GODEY'S BOOK.—In his publication for January, Mr. Godey has surpassed all his previous efforts and produced a work which should adorn every Lady's cabinet. The plates have been got up in a superb style, and the variety of interesting matter contained in the book, make it altogether the most useful and desirable publication among our assortment. For Sale in this City, by Mr. B. O'Brien, King-street.

THE UNITED STATES NAUTICAL MAGAZINE for January, furnishes a large assortment of science in the art of naval construction, embellished by various practical plates, on that subject. Our shipbuilders should not be without this publication, as independent of the low price at which it is published, it will not fail to impart a fund of useful knowledge to the person who search its contents. Published by Griffith Bates & Co., New York.

FAMILY BIBLE.—We have received from Mr. Bashford parts 14 and 15, of the "Comprehensive Family Bible." They are beautifully embellished with plates of the Holy Land, and we need scarcely say should be on every ones table.

CAUTION TO ROWDIES.—Michael M'Carthy, for striking Captain Scoullar, of the Police, in the execution of his duty last night, was arraigned this morning before George A. Lockhart, Esq., and was rewarded in a fine of £20, or in default of payment ten months in the penitentiary.

MELANCHOLY ACCIDENT.—A very melancholy occurrence took place on the Kennebeccasis, the day before Christmas. It appears that a Mrs. Kierstead, and her son, aged 18, started on the ice to visit some friends, they had not gone far when the ice broke and both were precipitated in the water, and before assistance could reach them they were drowned.

LOSS OF STEAMER PILOT.—We regret to learn that this fine steamer, the property of John Walker, Esq., was lost in a snow storm on the night of Tuesday last, a little below Digby Gut. The passengers and crew got safely ashore. The steamer was partially insured.

FIRE.—The *Morning News* building took fire on Friday evening last, about 9 o'clock, in a very mysterious manner. The firemen were promptly on the spot and soon got it under with loss of stock and deluging it with water.

THE LATE GENERAL MARKHAM.—The remains of this deceased general arrived at the Penitentiary station of the Lancaster and Carlisle Railway by the mail train on Saturday morning, and were there received by the coach horse to Moreland, attended by Captain King, his aide-de-camp. The funeral was strictly private; besides the members of his family, Captain Barns, of Orton Hall, and Captain King only were noticed. An immense concourse of villagers assembled to pay the last token of respect to the deceased general. He is buried by his own request, at the foot of a tree, and it was only a fortnight since he sent word to have it prepared and fenced. It is now generally known that the command of the British forces was offered, and would have been accepted by him, had his health been restored sooner. This he only divulged about two days prior to his death.—[Eng. paper.

To Correspondents.—Mr. E. Dowling is informed that his paper is regularly mailed every Friday evening, directed "Elgin," and why he does not receive it when other subscribers in the same quarter get theirs, is what we cannot explain. The matter will be referred to the proper authority.

"The "Ould Lady" will be attended to.

LET US REASON TOGETHER!

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted to the relief of the WEAK, the NERVOUS, the DELICATE and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the World ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.—ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague,	Fevers of all	Sore Throats,
Asthma,	kinds,	Stone & Gravel
Bilious Complaints,	Gout,	Secondary
Blotch on the Skin,	Headache,	Symptoms,

St. John, October 7, 1855. F. NEILL.

Keating's Cough Lozenges.

A certain remedy for disorders of the *Pulmonary Organs*; in difficulty of Breathing—in redness, fancy of Phlegm—in frequent CONSUMPTION (of which Cough is the most positive indication) they are of unerring efficacy. In ASTHMA, and in WINTER COUGH, they have *never* been known to fail.

Keatings' Cough Lozenges are free from every deleterious ingredient; they may therefore be taken at all times by the most delicate female or the youngest child; while the PUBLIC SPEAKER, and the PROFESSIONAL SINGER will find them invaluable in allaying the hoarseness and irritation, incidental to vocal exertion, and consequent by a powerful auxiliary in the production of sanguinous expectoration.

Prepared and sold in Boxes, and Tins of various sizes, by THOMAS KEATING, Chemist, &c., No. 79, St. Paul's Church Yard, London. Sold Retail by all Druggists and Patent Medicine Vendors in the World.

N. B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraved on the Government Stamp of each box without which none are genuine.

IMPORTANT TESTIMONIAL.

Copy of a letter from the late COLONEL HAWKER, (the well-known Author on "GUNS AND SHOOTING,")

Longparish House, near Whitchurch, Hants, October 21st, 1846.

SIR,—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks, that defied all that had been prescribed for me; and yet I get completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs.

I am, Sir, your humble servant,
P. HAWKER.

To Mr. KEATING, 79 St. Paul's Church Yard.

Agent for St. John—Messrs. CHUBB & Co.
For Fredericton—Mr. GALE, Druggist.
