SUSSEX TO HAVE CENTRAL BUILDING FOR THE G. W. V. A.

Citizens Will be Asked to Contribute \$3,000 to Make the Enterprise a Success.

Special to The Standard.

Sussex, July 10.—The Great War Veterans of Kings county will shortly ask the public to contribute three thousand dollars for quarters for a central building where the interests of all the men in the county may be looked after. A committee from the citizens, the Women's Institutes and the G. W. V. A. will have the matter in hand, and an appeal will be made to the public for the modest amount mentioned above. Only by a permanent secretary can the work of looking after the returned men can the work be satisfactorily done. There are many questions arising from time to time, which require much time to settle, and it is impossible to handle the work satisfactorily, except through a permanent organization. For instance, it is proposed to appoint a resident physician to look after men residing here, who need medical attention. In the past these patients have had to go to St. John. The new order of things was brought about by the G. W. V. A. and Major McKay is expected here shortly to make the necessary arrangements.

The idea of the Veterans is to buy the church, formerly occupied by the Presbyterians, and have it renovated, so that it will meet the requirements of the organization. A meeting will be held shortly to arrange for a systematic course of the county for funds. A membership drive will also be conducted and it is proposed to enroll the great majority of returned men in the G. W. V. A.

Dr. J. U. Burnett has been appointed military medical officer for Kings county. This appointment was made at the request of the G. W. V. A. All discharged men are entitled to free medical treatment for one year, and all men discharged as medically unfit, will receive attention without charge for life, if necessary. The same applies to dental attention. Dr. Reid is the local apothecary.
