MARKET REPORTS

STOCKS, BONDS AND PRODUCE

MARKET REACTED SLIGHTLY FRIDAY

News Concerning Pres. Wilson's Condition Caused Slight Slump in Trade.

(McDougall and Cowans.)

New York, Oct. 17.—The market reacted only slightly in the early afternoon on the announcement of a new condition of President Wilson's condition, and the intimation that an operation was possibly under consideration. A number of specialists reacted to the downward movement, among them the Leather and Shoe Company stocks, which took their turn in going up. In the last hour the list gained strength and the best prices of the day were made in the last few minutes of trading, generally speaking the final prices were from one to several points above the previous close. The late afternoon strength was encouraged by easier conditions in the call money market, a considerable volume of loans being made at 8 per cent, and some money being offered at 6 per cent. Private advices received in the street favored the view that the industrial conference was really making progress toward agreement and the achievement of practical results, although the press reports of its proceedings did not seem to support this view very strongly. Sales 1,331,400. C. P. R. earnings week ending Oct. 14th, increase \$505,000.

E. & C. RANDOLPH.

SPECIALTY POOLS DOMINATED THE STOCK MARKET

Dealings in Stocks of That Description Frequently Overshadowed the Demand for Recognized Leaders.

(McDougall and Cowans.)

New York, Oct. 17.—Trading in stocks today was dominated, to a greater extent than at any previous period, by the uncontrolled operations of pools in specialties, particularly miscellaneous issues of comparatively obscure origin.

Dealings in stocks of that description frequently overshadowed the demand for recognized leaders. Some of the best prices of the day were inclined to react, but came forward in the general rally of the last hour.

For the first time this week, the market evinced a tendency to relax. Call loans opened at yesterday's ruling rate of ten per cent, but dropped to six per cent, when a prominent local bank offered large sums at the latter figure.

Time funds held firm at seven per cent bid, but so far as could be learned, no loans were made at that quotation even for the shorter dates, although commercial paper was freely purchased at 5 1/2 to 5 3/4 per cent.

Included among the strong, but hitherto inactive specialties, were Pullman, National Aniline, California Packing, Brown Shoe, Endicott Johnson, Haskell Barker, Transue and Williams Steel, May Department Store at gains of 5 to 10 points.

Better known industrials, however, and specialties were reported by Pierce, Fennell, General Motors, American Woolen, Hide and Leather, Preferred, Central Leather, Industrial Alcohol and National Lead. Shipplings were active, mainly on the strength of Atlantic Gulf and United Fruit and rails over their occasional prominence to Southern Pacific, which made an extreme gain of almost three points.

Sales amounted to 1,325,000 shares. Liberty bonds were lower on the decline of the 3 1/2 and the domestic list as a whole was irregular, foreign issues holding steady.

Sales, (par value) aggregated \$12,750,000.

Old U. S. bonds were unchanged on call.
