

FRANK SHERWOOD BURIED.

MANY FLORAL EMBLEMS BEAR RECOGNITIONS OF RESPECT.

SUMMER, Feb 20.—The funeral of Frank Sherwood, eldest son of George W. Sherwood, station agent, took place yesterday afternoon and was largely attended. Rev. Mr. Camp officiated at the service and the choir of the Baptist church rendered most feelingly those two beautiful hymns at the Resurrection Morn and How Bright Those Glorious Spirits Shine. The remains were interred at Kirk Hill cemetery and were followed to their last resting place by a large concourse of citizens. The pall bearers were J. A. Habegger, mother of the deceased, in a valued member. The deceased died at Chadron, Nebraska, on the 13th inst., and previous to the remains leaving there an episcopal service was held at his boarding house which was largely attended, business being practically suspended out of respect for the deceased. The remains were accompanied home by J. A. Habegger, brother of the deceased, Chadron, Neb. The deceased was insured for \$5,000 in the New York Life.

The circumstances surrounding the death of this bright young man were of a particularly sad nature. The deceased, who was chief clerk in F. C. & M. Y. Railway superintendent's office at Chadron, Nebraska, died a short time here about a month ago, having traveled all the thousands of miles distance which separated him from his parents, out of love and affection for his young sister who was then lingering at death's door. He was called away and he died in the most sudden and unexpected manner there are in life. Today the loving brother rests peacefully in his tomb beneath the frozen sod and feels not its cruel chill, while the equally loving sister, whose very life is still living, and earnest hope is now entertained for her recovery. It was just four weeks ago yesterday that Frank Sherwood died, and the more health pined on his cheeks sat among the congregation at the Church Avenue Baptist church, and listened with rapt attention to an eloquent discourse on a different kind of hearse, preached by the pastor, Rev. Wellington Camp. Yesterday afternoon at the funeral, the deceased that reverend gentleman again spoke in such an impressive way that many were moved to tears, and the rapidly checked young man of a few weeks ago who had covered the many miles of travel out of devotion to his sister, was now cold in a beautiful casket covered with rich flowers and heard not a word of what was without doubt the most impressive funeral oration ever delivered in Sumner. If sympathy would pour balm upon the wounded hearts of the afflicted parents and relatives of the deceased, the burden would be much lightened, for expressions of genuine sorrow are heard on all sides, and the sympathy of the entire community is extended to them in their sad loss.

Seal Cove Light House.

TO THE EDITOR OF THE TELEGRAPH.

SIR, IN THE TELEGRAPH OF THE 8th inst. I read an article under the non de plume of Ralseyver, dealing with the subject of the Location of a Life Saving Station and a Light House at Seal Cove, Grand Manan. The writer censures Captain Bloomfield Douglas, E. N. R., the Dominion Government official who located the site of both light-house and life boat station near the mouth of Seal Cove according to Ralseyver's article. I note the objections of the writer and think on the whole they are well taken. I had not before seeing the above mentioned article in THE TELEGRAPH, any knowledge that it was the intention of the government at Ottawa to locate and build a light-house in the vicinity of Seal Cove Creek, and in connection with the life saving station there. Regarding the location of a light-house, if it is to conserve the best interests of the travelling public, "of those that go down to the sea in ships" for the whole island as the Grand Harbor Light does, or even for the convenience of the fishermen of Seal Cove Creek, it makes a vast difference as to the proper situation of the light, if only for the advantage of the hardy "rollers of the sea" of Seal Cove and the adjacent islands when running for the mouth of the creek in a thick or dark night to make a shelter or run in a load of fish, a light at the mouth of the creek and erected on a good breakwater would be of inestimable value to them and to hardly any one else.

GOLD AT LAKE BENNETT.

First Find of the Metal in That District.

OTTAWA, Feb 21.—A despatch received by the controller of mounted police, Mr. Fred White, from Inspector Wood at Lake Bennett announces that gold has been discovered in a creek on the east side, flowing into that body of water. The creek referred to is described as situated about five miles from the island in the lake, and a perusal of the most accurate map available indicates the position of this island and also assures the fact that the find must come within the Canadian boundary. This is the first find of the precious metal around Bennett and goes to show how extensive must be the auriferous area. Further particulars will be found on the 22nd inst. in the paper from the Pacific coast. The map of Bennett shows a surrounding country of considerable elevation rising on the east side in a considerable altitude.

TUPPER'S BLACK EYE.

West Huron Gives Holmes a Good Majority.

WEST HURON, Feb 21.—Holmes, the Liberal candidate, was elected today with a majority of upwards of 200. This is a black eye for Sir Charles Tupper, for while Hon. Mr. Foster was fighting in New Brunswick, Sir Charles had decided to carry West Huron.

LOUBRY'S MANIFESTO.

Will Assist in Work of Tolerance and Concord.

PARIS, Feb 21.—The following is the text of President Loubet's message to parliament:— "Summoned to the first magistrature of the country, I need an accomplishment of the great duties devolving upon me, the co-operation of the senate and chamber of deputies. I ask this of you and I am sure it will not be withheld. You may count upon my firm desire to dedicate all my efforts to the defence of the constitution. You have as a pledge thereof, my unshaken devotion to the republic. "The regular transmission of power, accomplished in a few hours after the most sudden death of our beloved and regretted president, Felix Faure, has afforded in the eyes of the whole world fresh proof of the fidelity of France to the republic at a time when some misguided men are seeking to shake the confidence of the country in its institutions. The national assembly plainly signified on Saturday its desire to bring about the pacification of men's minds and re-establishment of the union of all republicans. "Passionately devoted to the principles of the French revolution and the regime of liberty, it will be my constant anxiety to assist parliament in this necessary work of tolerance and concord. During the course of the temporary exile in the country, I have passed, France by her sangroid and dignity and the patriotism of her parliament has grown in the esteem of the world. Why then may we not hope for a similar understanding in internal affairs? Does not this understanding exist in the country? Is there the least doubt of the necessity for paying equal respect to the essential organs of society, the chamber which deliberates freely on the laws, the magistracy which applies them, the government which ensures their execution and the national army which maintains the independence and integrity of the motherland? "That army which the country loves and which is its right in giving, because the whole nation falls in it the same duty of self denial and discipline and knows it will find therein a faithful guardian of its honor and laws. France, sure of herself, will know how to set calmly about the task of solving the problems of the moment, and of assuring the material well being of her citizens and continue her peaceful and fruitful work in the field of thought, science and art, as well as in that of economic labor, agriculture, commerce and industry.

AGONCILLO SAILS.

He is a Passenger on the Steamer Labrador.

HALIFAX, Feb 21.—At the foot of the list of saloon passengers who sailed on the mail steamer Labrador this morning, appears the name of Agoncillo. The express train with trans-Atlantic passengers and mails did not reach Halifax until midnight, and at that late hour little attention was paid to the identity of the passengers. Men and women who walked up the gangway, now it appears probable that the thin looking man, of foreign type features, who is named in the list, is Agoncillo, who came to America as a day or two before he sailed on the Labrador. He was last heard of in New York, where he gave out an interview on Sunday in which he stated that he would be coming to Halifax on the Labrador. He was last heard of in New York, where he gave out an interview on Sunday in which he stated that he would be coming to Halifax on the Labrador. THE EARL OF MINTO

Has Accepted Honorary Colonelcy of Winnipeg Rifles.

OTTAWA, Feb 21.—In the military orders issued yesterday, it is announced that the Earl of Minto has accepted the honorary lieutenant colonelcy of the 70th Winnipeg Battalion of Rifles; Lt Col G T Denison has been appointed honorary lieutenant colonel of the governor general's body guard, and Lt Col G T Denison has been appointed honorary lieutenant colonel of the governor general's body guard, and Lt Col G T Denison has been appointed honorary lieutenant colonel of the governor general's body guard.

THE FIGHT IN CHARLOTTE.

Borery They Followed Mr. Gagnon.

ST. STEPHEN, Feb 20.—The smoke of the political battle is now clearing away and prominent Conservatives now see clearly the mistake they made in running on dominion lines. But it was done at the dictation of Mr. Gagnon, who will now bear the full blame for demoralizing their party. Many say he made a bad break when speaking at the Conservative headquarters Saturday night, he stated that over eight Conservatives voted on Grand Manan had been bought by the Liberal party. These men will remember that speech when next he attempts to run the county for parliament. As W F Todd led the

PORTLAND, ME.

Portland, Me. Feb 21.—No new cases of smallpox have been reported to the board of health today, and the one reported Monday evening, is the only one known to be here. The village district schools, and the St Augustine parochial school were closed today. The high school will probably be closed.

PORTLAND, ME.

PORTLAND, ME, Feb 21.—In the U S district court today was begun the trial of Charles G. Reardon, charged with sending powders through the mails for immoral purposes. A number of witnesses were examined. The case is still on trial.

Prevention of Cruelty to Horses.

Many a poor horse, utterly run down by impoverishment of blood and its accompanying ills, is blamed for laziness and harshly treated. The use of

Dick's Blood Purifier

would strengthen such an one, would fortify him to endure fatigue; enable him to accomplish work without loss of tissue and make him a cheerful, willing worker. It greatly increases the flow and richness of a cow's milk.

HARBOR IMPROVEMENTS.

TORONTO MAKES AN APPEAL FOR EXPENDITURE FOR LAKE TRADE.

OTTAWA, Feb 21.—A deputation from Toronto appeared before Hon. Messrs. Tarte and Melick today and urged the expenditure of \$450,000 upon harbor improvements necessary for the accommodation of large vessels in the lake trade. The grant was urged on the ground that it would promote trade between the maritime provinces and Ontario. It was pointed out that when the St. Lawrence canal is deepened to 14 feet coal, iron, steel and gypsum may be delivered in vessels at Toronto and that return cargoes of flour and other western products, which now pass largely through American channels, will be provided. Geo. H. Bartram, M. P., said that the establishment of a Canadian inland marine depended upon the ability of vessels carrying grain from the head waters of Lake Superior to secure return cargoes of merchandise from Montreal and Toronto. With the deepening of the St. Lawrence canal and the improvement of this harbor these cargoes will be furnished by Montreal and Toronto.
