> New York, Dec. 14-A despatch to the Herald from Vienna says: In well in-formed circles in the city the people are inclined to give credence to a private despatch from London to the effect that the conclusion of peace in South Africa is much nearer than the Boer reports would lead to believe. It is regarded as quite possible that ex-President Kruger will draw proper conclusions from the course of events in South Africa and the experiences he has had in Europe. This would in no way be a humiliation for him. Reports have also been received to the effect that Kruger is twill be embargoed at Marseilles. This action of the government is evidently an outcome of the protest of General Chaffee against looting which called attention to the fact that the military forces were despoiling China of works of art. Spite, Barn Burning and Liquor Involved

Bangor, Me., Dec. 17—Dr. Frank P. Whittaker of Hermon, charged with having set fire to the buildings of Thurston Hunt in that town Saturday night, was brought to Bangor today by Deputy Sheriff Fred Paine. A hearing in his case was held in the municipal court lasting nearly all day. P. H. Gillin appeared for Dr. Whittaker Many witnesses were examined and a great deal of testimony was taken. Mr. Hunt tesified that bad feeling had long existed between Dr. Whittaker and his (Hunt's) family, although no very strong reasons therefore were given. Hunt and another witness testified to having seen Dr. Whittaker come up the lane near Hunt's barn a few minutes before the fire broke out and also to having seen him at the fire in a dazed condition, with the smell of liquor on his breath. The defense offered no testimony, but asked that the respondent be admitted to built in a resonable sum. Judge Vose held Dr. Whittaker for the February grand jury in the sum of \$3,000. Bail was promptly furnished. The buildings burned were the dewelling house, ell and barn of Hunt, who is a storekeeper and postmaster at Hermon.

Memramecook, Dec. 17.—What might have been a very serious fire occurred here on last Friday morning about 5 o'clock, when Mr. J. P. Sherry's beautiful residence was quite badly damaged by fire. If it had not been for the excellent work of the youngmen of the town the fire would soon have got beyond control. To them great credit is due for their hard work in extinguishing the itames. The damage will probably be covered by insurance.

The Memramecok school will close for the holidays on Friday, December 21. The teacher, Miss Doherty, of this place, who has served in that capacity for a number of terms, will resign. This will be regretted by many in town. Miss Doherty has always promoted the educational interests of her scholars as well as possible and iff-is to be hoped that her successor will fulfil the duties of the school as well as Miss Doherty has.

FORTIFYING AMENDMENT.

More on the Senate Changes in Hay-Pauncefote Treaty.

ANOTHER CHANGE

Made Yesterday--The Constantinople Treaty as a Parallel -- In the British House--London Press Says Little Upon the Matter--France Would Not Object.

Washington, Dec. 14.—The senate committee on foreign relations today held a special meeting and decided to reccommend further amendments of the Hay-Panncefote treaty. The committee adopted an amendment suggested by Senator Foraker, which declares that the Hay-Panncefote treaty supervised the Clayton. Pauncefote treaty superceds the Clayton-Bulwer treaty and which also strikes out of the Hay-Pauncefote agreement article three, which permits the submission of the Hay-Pauncefote treaty to other po

ers and invites their acceptance of it.

Chicago, Dec. 14-In regard to the meaning and justification of the so-called Davis amendment to the Hay-Pauncefote treaty, Mr. H. H. Kohlsaat, editor of the Times Herald, today makes public a private letter he received from the late

Senator C. K. Davis. The letter bears date of March 12, 1900, and is in part as follows:
"The amendment has this especial adpossible in the language on the tenth article of treaty of Constantinople. Therefore this amendment, so adjusted to the treaty of Constantinople, puts the British government in the position where it must either accept the principle of the treaty of Constantinople, which Great Britain herself proposed, or flatly say that the lines of that treaty, which are of advantage to Great Britain, shall stand A search for the remains is being made as rapidly as possible, but it is slow work digging over the acre of debris, which is still burning. Principal Palmer estimates the loss at \$200,000, with \$63,000 insurance.

Paris, Dec. 15—The official report of the finances of the exposition shows a loss of 2,000,000 francs. The total of expenditures is 116,500,000 francs. The receipts amounted to 114,500,000 francs. The loss is less than in the case of either of the preceding expositions. She would not have been correct in say

tween Great Britain and the other European governments with the view of eliciting whether they agreed to regard as neutral a canal occupied and fortified by the United States. No useful purpose, Lord Cranborne added, could have served at the present moment by replying to the other paragraphs of the question of Mr. Norman. Those asked if Nicaragua accepted the United States senate's committee view that the relationship of the United States and Nicaragua was analogous to that of Turkey and Egypt as the time of the construction of the Suez A shipment of 100,000 young peach trees from Georgia nurseries, bound for Cape Colony, and Natal, South Africa, will be made next week. > London, Dec. 14.-There is a noticeable absence of comment in the afternoor papers today on the action taken by the United States senate regarding the Nicaragua canal. The St. James Gazette takes the occasion to lecture the "Jingo Senate," which, it is says, "has again roughly rebuffed the president and affronted the generosity of Great Britain." The St. James Gazette further declares that the action of the senter. that the action of the senate in "ordaining that one party shall keep its advantages, but that the other shall not be safeguarded, is imprudent and if it persists in its ignorantly selfish course Great Britain must fall back on her wights under the Clayton Pallyron testing. rights under the Clayton-Bulwer treaty, whereby she is entitled to refuse permission to the United States to build the
