

consummate impudence—as an instance—on more than one occasion one of them went all the way to Perth to try what effect his flattery would have in influencing the County Council in favor of Pembroke. I, however, as a member of that Council, gave him clearly to understand that he was not wanted. It appears to me that under an affected eccentricity of manner he concealed a sinister motive. I understand that some of those smart men have, of late, been making frequent visits to Quebec, no doubt for the purpose of effecting some other wonderful advancement of the interests of the county. Some of the Pembroke men, too, who of olden should have been firm in the cause of equity, have in this county Town matter behaved most unworthily and if the innocent had not to suffer with the guilty I would say "served them right." But to conclude Mr. Editor, I repudiate and unhesitatingly deny any hostile or unworthy feeling towards either Pembroke or any other place in the county, or any man or set of men in the county, but I cannot tamely submit to abuse from such croakers as the "Pembroke Observer," without a reply. I am no place hunter nor do I invite to the great after the manner of the Observer clique, but I thank God I am independent of them and every other clique, and will hold myself in readiness to repel their vile attacks should they again make the attempt.

I am, Sir,
Yours Respectfully,
ROBERT R. SMITH.

Advices from the Indian territory state that the Indians have gone over to the rebels, and raised one thousand men for service. Let it be remembered that the rebels are the Federal forces have landed at the mouth of the Mississippi river and fortified both banks, and relieved the light houses. This establishes the blockade of the Mississippi in efficient style.

MINUTES OF LANARK COUNCIL.
Lanark, 30th Sept. 1861.
Agreeably to adjournment the Council met this day, the Rev. and Councillors Mathie Affleck and Stevenson present.

The Minutes of last session having been read, approved and signed, the following were presented and read.
A communication from the Reeve of the Township of Darling, inviting the Council of Lanark to co-operate in some necessary repair of the highway separating the two townships.

Do. from road commissioners, Messrs. Cummings and McCallum, declining to enter upon their duties upon the terms prescribed by the Council to them, and stating that the stone embankment is certain to give way, and suggesting a wooden bridge across the Ravine, instead of covering the embankment with earth.

Report from John Halpenny, road Commissioner.
Petition from Rev. R. K. Black, and others praying relief from the Poor fund, in favour of Widow Anderson and family, in a destitute condition.

Do. from John McLaughlin, praying the Council to direct the removal of a track or road running through his land and which has no legal existence, to the original allowance for road, as far as may be found practicable; otherwise, to grant compensation for the land so occupied and costs of enforcement.

On the report of John Halpenny, Moved by Mr. Mathie, seconded by Mr. Affleck, that the report be adopted, and an order granted for payment. Carried.

Report of Road Surveyor of a road surveyed by him through parts of the west halves of lots No. 16 and 17 in the 4th con. On motion of Mr. Mathie, seconded by Mr. Stevenson and approved by Mr. Affleck a By-law providing for special school tax, was read a first time.

Agreeably to a former notice, a By-law providing for the sale and conveyance of certain original allowances for road was read a first time.

Mr. Affleck gave notice that he would in the course of the present session of Council introduce a By-law providing for a sum of money equal to the Legislative grant for education and also for county and town rate.

Mr. Stevenson gave notice that he would at this session of Council introduce a By-law providing for a poor rate.

Adjourned for one hour.

The Council having resumed a Petition was presented and read, from Daniel McCurdy and others craving permission to expend one day's statutory labour, of each person in the 2nd division of the 4th line, in advance of 1862, to repair an impassable portion of the road leading from the Village of Lanark to Deerpark bridge.

On the above petition, moved by Mr. Mathie, seconded by Mr. Stevenson that permission be granted. Carried.

On the petition of John McLaughlin, moved by Mr. Mathie, seconded by Mr. Affleck, that as the petitioner is merely lessor of the lot in question, it will be premature to take action in premises, until the petitioner or communicators with the Canada Company—the owners of the land. Carried.

On the proposition of the Reeve of Darling moved by Mr. Mathie, seconded by Mr. Stevenson, that as the road in question is of very partial advantage to the inhabitants of the Township of Lanark, this Council do meet the wishes of the Council of Darling to the extent of fifty per cent of the sum sought for. Carried.

Report from Arch. Rankin, bridge commissioner, stating that he had expended \$8 in the purchase of timber for the bridge. Report adopted and an order granted for payment.

Moved by Mr. Mathie, seconded by Mr. Stevenson, that the By-law providing for the sale of certain allowances for road be now read a second time. Carried. By-law read accordingly.

Moved by Mr. Affleck, seconded by Mr. Mathie that the By-law providing for County and Town rate, and likewise for Education—By-law be now read a first time. Carried. By-law read a first time accordingly.

Moved by Mr. Stevenson, seconded by Mr. Affleck that the By-law providing for levying a special school rate be now read a third time, short and passed. Carried. By-law read a third time, short and passed.

Moved by Mr. Mathie, seconded by Mr. Affleck, that the By-law providing for County and Educational use be now read a second time accordingly.

Moved by Mr. Stevenson, seconded by Mr. Affleck, that the By-law providing for County and Educational use be now read a second time accordingly.

read a third time short and passed. By-law read a third time short and passed.

Moved by Mr. Stevenson, seconded by Mr. Affleck, that the By-law providing for a Township poor rate be now read a third time and passed. Carried. By-law read a third time and passed.

On the petition of Rev. R. K. Black and others, moved by Mr. Mathie, seconded by Mr. Stevenson, that it be ever until next meeting of Council. Carried.

Adjourned till 19th October, to meet at Gilles' School House, third line.

WILLIAM SCOTT,
Town Clerk.

Arrival of the Niagara.
The Great Eastern Anchored at QUEENSTOWN.

The Niagara, from Liverpool on the 21st September, at Queenstown on the 27th, passed open race this morning.

Her date is two days' later than the Bohemian's.

By the Niagara it is inferred, from an article in the *Montreal*, that the going of Garibaldi to America would suit the French policy.

The Great Eastern, after considerable trouble and anxiety in regard to her safety, had anchored at Queenstown.

The London *Times* reiterates the appeal of Mr. Chas. the Secretary of the Treasury as Washington, for a loan.

Among the passengers on board the Niagara is Prince Alfred, who was the guest of the Mayor of Liverpool the day previous to the sailing of the Niagara, in which city th

young Prince was received with great attention by the people.

It was supposed that the repairs on the Great Eastern will be speedily commenced. The night preceding her anchorage she was obliged to put off from the coast, owing to the prevalence of a very heavy Southern gale.

Great praise is accorded to an American named Hamilton, of Boston, Massachusetts, who by the temporary steering gear was arranged, without which the big ship would have become a complete wreck.

The assertions that Garibaldi intends to embark for America, where he will espouse the cause of the government, are to be made and contradicted. The latest telegraphic despatch from Turin declares that he has abandoned all intention of leaving for America for the present.

The iron plated frigate *Warrior* made her first trip to sea on the 19th, proceeding from the Thames to Portsmouth. Her performance was highly favorable.

At a meeting of the members of the Manchester Cotton Association, the Chamber of Commerce, and other leading merchants of that city on the subject of India. He said he thought that to promote the growth of cotton it was specially necessary to advance cotton to growers.

On the occasion of this question, and after alluding to an early prospect of the reduction of import duties on cotton wound up by appealing to his hearers to take with him a view of these matters higher than their commercial aspect.

FRANCE.—A letter from Paris says that several superior and valuable officers of the French artillery have been offered great advantages if they will serve in the Federal army. Some have been offered as high as 6,000 francs for their outfit, and 21,000 francs a year guaranteed for several years to come.

It was at first said that the Government would not give permission to refuse these offers. Permission was demanded, but on the 15th the Minister of War, by order of the Emperor, made it known to applicants that the would not grant any permission to serve in the Federal army.

ITALY.—Notwithstanding the previous denials, the Turin papers of the 29th positively assert that Garibaldi would not go to America; but a Turin dispatch of the 20th says that this was again on that day positively denied.

SPAIN.—It is reported that a Spanish expedition against Mexico was being organized at Havana. 5,000 infantry will disembark early in October at Vera Cruz, thence marching to the city of Mexico. A screw frigate, two steamers, and numerous transports are to be employed.

A decision of Marshall O'Donnell is published in the *Madrid Gazette*, to the Captain-General of Porto Rico. It declares the principle that a slave who has touched the soil of Spain must be emancipated even without the consent of his owner.

GRACE.—A student who fired at the Queen in a public square at Athens but missed his aim, has been arrested.

LIVERPOOL "MARBET"—Cotton closed firm on Saturday. Breadstuffs were quiet. Provisions dull.

Consols 98½ to 93½ money.

LONDON MONEY MARKET.—In the London money market funds were dull and a shade lower on the 25th, owing to some realization. The rates of discount in the open market were still decidedly lower than the reduced bank minimum. The influx of gold of the bank continues.

In all cases where we make advances, either by cash or acceptance, we reserve to our friends the right to refuse to receive or to sell at their discretion power of sale.

Flour market, on the receipt of continued favorable advices from Britain and of a further rise, became quite animated, and considerable sales were made at from 5.50 to 5.60; choice brands being eagerly sought at outside figures. The receipts are still very light. The market is quiet and firm at our quotations. Extras and Fancies have partaken of the rise, but not to an equal extent with Superfine. Bags are again in demand.

Wheat considerable sales of U. C. Spring at 1.10 to 1.12 ex cart; small, 1.15 is asked. Oatmeal receipts small—sell readily at about \$4.00.

Barley quiet at previous rates.

Corn considerable transactions are rates ranging from 52 to 55c.

The gross weight is deducted for tare. Heavy sacks, therefore, always command the highest prices here. Flour barrels should weigh 20 lbs, as that is the uniform rate allowed in Liverpool; poor, ill-made and unseasoned barrels cause heavy loss to all concerned, and can only be sold at a sacrifice. Butter Kags and Tunnets should be the best and cleanest that can be made; they must be kept scrupulously clean; old and soiled packages materially decrease the value of the Butter.

Consignments and orders solicited. Strict personal attention given to every consignment, in order to realize the highest market price. Prompt sales made whenever practicable, and returns made as soon as realized.

AKIN & KIRKPATRICK,
Commission Merchants.

Montreal, Oct. 3rd, 1861.

The New York *World*, an administration organ attributes the slack marketing of the Federal army to the manner in which the money is paid, or rather not paid. It says that there are many regiments, the men of which have served two months and upwards, but have never received any pay, although the rolls are complete; and in consequence they and their families suffer severely from want.

THE GOVERNOR'S BALL.—We learn from Quebec that the Parliament buildings are being turned inside out for the Governor's farewell Ball. The floors are being laid in both Chambers, and the furniture removed. People ask why the Music Hall was not employed, and the only answer is that the Governor would have been required to pay for that.

The Montreal Commercial Advertiser says:—The railway train from Toronto on Saturday morning was detained near Waterloo by the washing away of the track. The very heavy rains of the previous day had produced a flood which undermined and washed away the road from a space of thirty yards. A learned employer of the Company, we learn, on discovering early in the morning the injury by the flood, gave a warning to the coming train, and by so doing a disaster was avoided. The road was put in condition again by the afternoon.
