RAILWAY MAIL
CLERKS MAY GO
OUT TODAY

RAILWAY RUNNING TRADES

OFFICIALS OPPOSE TO

WALKOUT

NOYES, Minn., May 28, (Copy-

right 1919, By J. J. Conklin.)

Leaders and officials of union labor

connected with railway the organiza-

tions are gathering here from all

parts of Canada to be on the ground,

with the object of keeping in the

closest touch with strike conditions

here. A. McAndrew of Moosejaw,

Sask., General Chairman C. H. R.

Maintenance of Way employees

charge from coast to coast of 10,000

employees, is on the way here.

Speaking for publication, he said:

"Our men are holding to their work.

While they have been approached

with the object of securing their

active cooperation in the general

strike, they will not take such action

until our international headquarters

instruct them to do so. The men

are strongly in sympathy with the

objects on which the strike has been

inaugurated. The maintenance of way

men are the only railroad organiza-

tion that has a national agreement,

embodying uniform rates and rules

for all railroad employees, and

which was carried out under the

principle of collective bargaining. We

are hoping that the participation of

this train service organization in the

general strike will be effected on

George Wark, of Toronto, vice-

president of the locomotive firemen

and engineers said: "Our members

fully endorse the attitude of the

union bargaining but it is not the

policy of the organization to engage in

sympathetic strikes. Such will only

be tolerated in event of our member-

ship becoming directly affected on

account of conditions brought about

by strike of other employees."

Another officer said: "We are

entirely in sympathy with the

Dominion law which governs our

action on the public utilities question,

as far as strikes are concerned. Be-

yond that I should not care to speak

just now, as regards the attitude of

the running trades toward the present

sympathy strike." The speaker was

A. S. Kennedy, of the brotherhood

of locomotive engineers, who has

been attending a meeting of the run-

ning trades at their union headquar-

ters. The remark was in answer to a

question regarding the probable ac-

tion of the running trades in relation

to the Winnipeg strike, as well as

their feeling concerning the principle

of public utilities employees partici-

pating in sympathetic strikes.

While the sympathy strike has not

yet come out they are waiting to see

if some loophole is available as a

sufficient excuse to impress the in-

dustrial headquarter at Cleveland.

They desire to have a strike available

if they are out and to be in posi-

tion not to have to lose the benefits

of the order after the strike has

decided Monday night to walk out.

The older members of the order

who have much to lose, have suc-

ceeded so far in holding back the

younger members from drastic ac-

tion. The Winnipeg postoffice was

closed tightly, back and front, all day

yesterday to citizens. It was open all

morning. There is some mystery as

to why business and industry men

could not get mail. Postmaster Mc-

Intyre said he was reorganizing his

staff. Plenty of men had been se-

cured for all positions. Lawrence

Pickup, head of the postal clerks

union, said only five of their mem-

bers were working inside and that

280 are still out.

While the executive officials of the

railway mail clerks association refrain

absolutely from making any official

statement, it was learned authorita-

tively to-day that railway mail men

decided Monday night to walk out.

This association is not affili-

ated with the trades and labor coun-

cil. It is said that a number of

industrial headquarter men already

regretted their steps and were report-

ed in the union ranks again. The

men are firm and the general deam-

or and attitude are in keeping with

the best of our explanations and I

have not the slightest doubt but that

they will remain true to each other

to the end."

SITUATION AT CALGARY

EDMONTON

CALGARY, May 29.—Business was

not noticeably disturbed to-day by the

general strike. Streetcars were op-

erating and lighting plants, theaters and

hotels were conducted as normally.

Volunteers are at work in the post-

office and more will be needed, it

was announced. About 200 of former

governmental employees are on strike.

Conditions at Edmonton were re-

ported as more serious. Streetcars

had stopped, restaurants and hotels

were closed or badly crippled and the

electric lighting system shut down.

Police and firemen were said to be

at work, under orders from the strike

committee.

NO INDICATION OF EARLY

SETTLEMENT

WINNIPEG, (via St. Paul), May

29.—Hon. Gideon Robertson, Minis-

ter of Labor, in an interview last

night said that he could see no indi-

cations of an early settlement of the

general strike which has been in

progress at Winnipeg for nearly two

weeks, although some strikers were

going back to their work. Senator

Robertson said that officers

of the running trades of the rail-

road organizations had a conference

with strike committee men and had

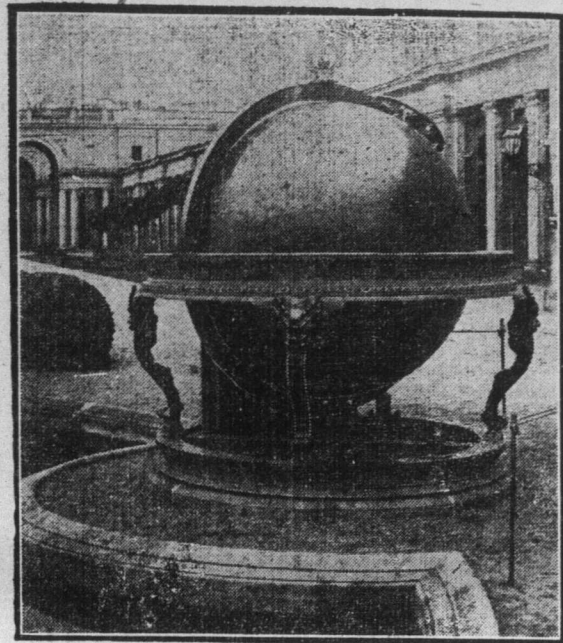

definitely decided to take no part

in this sympathetic strike, "because

of the motives back of it."

Premier Norris has positively de-

clined to have anything to do with

the appointment of a board of con-

ciliation, as suggested by the strike

committee, until the sympathetic

strike is called off.
