

PAQUET GUARANTEED CLOTHES

MADE TO YOUR MEASURE BUT NOT CUSTOM MADE

THIS looks paradoxical, but it's none the less true for all that. What's more we can PROVE it to your entire satisfaction, and stand ready to refund your money if you are not ABSOLUTELY SATISFIED with your Clothes when they arrive.

PAQUET Guaranteed CLOTHES, as their name implies, are GUARANTEED to fit YOU perfectly. All Ready Made Clothes are cut and made up to fit AVERAGE types, and not REAL men. That's why they don't fit YOU. And they can't be MADE to fit, either, without being all ripped up and recut—a very expensive undertaking and, therefore, out of the question.

PAQUET Guaranteed CLOTHES are, cut to fit BEFORE they are made up at all. That's why we can GUARANTEE them to fit PERFECTLY. Our New Style Book tells all about our method of Clothes making. PAQUET Guaranteed CLOTHES are GUARANTEED to be the best value in Canada to-day at from \$10.00 to \$14.25—worth \$13.50 to \$20.00.

THE SUIT ILLUSTRATED is made from absolutely PURE WOOL navy or black serge, best Indigo Dye, thoroughly shrunk and absolutely guaranteed to keep its color. The workmanship is unexcelled in this Country. The pockets are made according to our special process and will neither sag nor get out of shape. The real value is \$13.50. Our Special Price, PREPAID to any part of Canada..... **\$10.**

Sizes 36 to 44 only. Larger sizes 75c. per size extra.

Write for FREE Style Book

illustrating New York's latest models, and containing samples of the very newest materials for the present season. This book also contains our special self-measurement chart, which is so simple and concise that anyone using it is absolutely certain to be fitted PERFECTLY. Write NOW! Don't put it off until another time—a post card will do—you'll get the Style Book by return mail.

sex, but I don't think any one has found a workable one. If there is I would like to buy or learn it.—Yours respectfully, Ed. Brown, Boissevain.

Planting a School Ground.

A correspondent wishes help in decorating his school ground. He should send to Mr. Kern, Supt. of Schools, Winnipeg County, Illinois, and get a copy of his annual report. The following is a suggestion:—

- E. Evergreens—spruce if possible.
- F. Flowers planted by pupils. This might include vegetables in garden near stable.
- S. Shrubbery—wild rose, caragana, dogwood.
- X. Hardy trees—maple, elm, ash, cut leaved birch.

Stock may be obtained at Experimental Farm. It would be well to add

another acre to the school ground, as there is not room for gardening and play.

The Department of Education in Winnipeg publishes pamphlets dealing with school architecture and decoration of grounds. The names of suitable trees and shrubs are given and instructions given as to where they may be obtained. These pamphlets may be had on application.

Blackheads.

I have been terribly troubled with blackheads and pimples for about six years, my age now being twenty. I

have tried remedies on the face, but no medicine inwardly, still to no effect. I am mostly all the time bothered with costiveness, which I have also tried to cure, but cannot keep regular. Could you help me any? Is my blood the cause of them? I feel quite healthy and strong otherwise.—Country Girl.

Your trouble is with your digestion. Eat slowly and masticate thoroughly. Eat all the fruit you can. Drink plenty of water, but not at meal times. Use a mild aperient whenever necessary. Fruit salts in the evening, Seidlitz powder in the morning. Avoid face washes. They do not get at source of trouble.

The Rainbow.

What causes or gives the rainbow its shape?—A. E. Rosewort.

When white light shines through a prism it is broken into seven distinct colors. A raindrop acts as a prism, and all rays entering it are broken up into the rainbow colors. Now, on entering a raindrop the rays are bent out of their course or refracted. Each substance has its own angle of refraction. That refraction of water drops is such that the rays of the sun, instead of falling on the dark clouds directly, are bent out of their course, and split up into the seven colors.

The Telephone.

What causes a telephone wire to hum when it is perfectly calm?—Inquirer, Rosewort.

All humming is due to vibration. Electrical vibrations and vibrations causing light are not appreciable by the ear. It is horizontal or lateral vibration that strikes the ear. Even on a very calm day there is some such vibration in a long wire. It not only vibrates as a whole, but in segments, and the vibration between one set of poles may be transmitted for a great distance. Next time the wire vibrates throw a weight over it and note the effect.

Address Wanted.

Give the address of W. C. A. of Winnipeg. The building is on Elice Avenue, just west of Vaughan Street, and one block north of Portage Avenue.

Introductions.

How should a girl acknowledge an introduction to a young man? Shake hands, smile, then talk as if at home. Make no attempt to be otherwise than you are naturally or by education.

Cure for Pimples.

Can you tell me of a sure cure for pimples. I can clear my face by taking salts, but they are so disagreeable to take? What can I do for sore and tender feet? My feet get so tender I can scarcely wear a dress shoe. The cause is probably the same in both troubles. The cure is in attention to digestion. Eat very slowly and sparingly, and only such things as agree with you. If in a month you are not better consult a physician.

Illinois Versus Missouri.

A Missourian informed a traveler, who had inquired about corn, that "each stalk had nine ears on it and was fifteen feet high." "That's nothing compared to our corn," replied the other quickly. "Up in Illinois, where I came from, we always had nine ears to each stalk, and a peck of shelled corn hanging to each tassel; but we never could raise any field beans with it." "Why?" asked the Missourian. "Because," nodded the other, "the corn grew so fast that it pulled the beans up."

Said a friend to Pat one day—"Did you ever make money backin' horses, Mulligan?" "I made forty quid wance," replied Mulligan. "How did you do it?" "I backed him down a pub cellar, and sued the publican for leaving the flap open!"

Put Your Feet in a Pair at Our Risk! STEEL SHOES Will Surprise and Delight You With Their Lightness, Neatness and Comfort —Their Almost Unbelievable Durability

We want you to slip your feet into a pair of Steel Shoes—to feel and see and know how much lighter, neater, stronger, more comfortable they are than any other work shoes in existence. Hence we are making this special Free Examination Offer, merely asking a deposit of the price, while you are "sizing up" the shoes. If they fail to convince you immediately you can notify us to send for them at our expense and we will refund your money.

Must Sell Themselves

We ask no favors for Steel Shoes. Compare them with the best all-leather work shoes you can find. Give them the most rigid inspection inside and out. Let them tell their own story. It's no sale unless, of your own accord, you decide that you must have them.

Better Than the Best All-Leather Work Shoes

Steel Shoes are the strongest and easiest working shoes made. There's more good wear in one pair of Steel Shoes than in three to six pairs of the best all-leather work shoes. The leather is waterproof. The Steel Soles are wear-proof and rust-resisting. They are lighter than all-leather work shoes. Need no breaking in. Comfortable from the first moment you put them on. Impossible to get out of shape. They keep the feet dry. They retain their flexibility in spite of mud, slush or water. They cure corns and bunions, prevent colds and rheumatism—save doctors' bills and medicines.

Thousands of Farmers Shout Their Praises

The enthusiasm of users knows no bounds. People can't say enough for their comfort, economy, lightness and astonishing durability. The introduction of Steel Shoes in a neighborhood always arouses such interest that an avalanche of orders follows. Here is the way Steel Shoes are made: The uppers are made of a superior quality of leather, as waterproof as leather can be tanned. Wonderfully soft and pliable—never gets stiff! The soles and sides are made out of one piece of special light, thin, springy, rust-resisting Steel. Soles and heels are studded with adjustable Steel Rivets, which prevent the bottoms from wearing out. Rivets easily replaced when partly worn. 50 extra rivets cost only 30 cents and should keep the shoes in good repair for at least two years! No other repairs ever needed! The uppers are tightly joined to the steel by small rivets of rust-resisting metal, so that no water can get between. The soles are lined with soft, springy, comfortable Hair Cushions, which absorb perspiration and odors and add to ease-of-walking.

Our Three Great Factories in Racine, Toronto and Northampton, England, Almost Overwhelmed by the World-Wide Demand

The success of Steel Shoes is almost startling. Within three years we have established Steel Shoe factories in Racine, Wis., Toronto, Canada, and Northampton, England. These great factories, running at full capacity, can scarcely keep up with the demand from all over the world. The public is rapidly learning that Steel Shoes are

Good for the Feet! Good for the Health! Good for the Bank Account!

These shoes are better for the feet, better for the health, better for the pocket-book than heavy work shoes or rubber boots.

You Actually Save \$5 to \$10 a Year

by wearing Steel Shoes. Figure it out for yourself. One pair will outlast 3 to 4 pairs of ordinary work shoes. They save all repair bills and keep your feet in perfect condition.

Free Examination

And Your Money Back Promptly if It Looks Better Than the Shoes! You owe it to yourself to investigate. Get a pair of Steel Shoes for Free Examination by sending the price, which will be returned if you and your own feet are not convinced of their merits.

Why Wait? Send Now!

No risk! No bother! No obligation! Don't hesitate! Act while this offer is open! Simply state size of shoe you wear, enclose the price and get the shoes for Free Examination. For general field work we strongly recommend our 6-inch high Steel Shoes at \$3.50 per pair or the 9-inch at \$5.00 per pair. For all classes of use requiring high-cut shoes our 12 or 16-inch high Steel Shoes are absolutely indispensable. Shoes can be returned at once if not O. K. and the money will be refunded.
