Research

Grants Awarded

Mines and Technical Surveys Minister Jean-Luc Pepin has announced grants amounting to \$150,000 for research in the geological sciences. The grants, awarded by the Geological Survey of Canada, go to twenty Universities.

The grants were initiated in 1951 at the instigation of the National Advisory Committee on Research in the Geological Sciences, to stimulate and support research in Canadian Universities. Applications from university faculty members are reviewed by the National Advisory Committee and the grants awarded by the Geological Survey on the basis of the committee's recommenda-

The Pill No Threat

Members of the Freshman class voted 38-30 Monday night against the proposition debated in the Chemistry Auditorium "that the advent of oral contraceptives will undermine the sexual morality of our college youth".

The Debate, chaired by Prof. J. Zanes, began on a serious note as speaker for the affirmative, Paul Dick, quoted the Canadian Criminal Code and the N. B. Illegitimate Child-

The final UNB grant of \$1,-500 was awarded to Professor L. T. Trembath for his research on sulphide calibration standards.

Editors Resign In Mass Protest

TORONTO (CUP) - Sixteen editors of the Ryersonian, student newspaper at Ryerson Polytechnical Institute, walked out Tuesday (Sept. 20), over what they called a "lack of organization", in the institute's journalism department.

Editor-in-Chief Len Coates, in a statement directed at the paper's professional managing editor, Lloyd Lockhard, and communications department head E. U. Schrader, referred in particular to haphazard scheduling of evening staff and second-year reporters.

The Ryersonian, published in conjunction with the journalism course at Ryerson, is produced five times a week. The paper was suspended for one year from Canadian University Press last December, over a violation of CUP's char-

A CUP investigation committee ruled the paper's professional managing editor had an implicit power of censorship over all copy appearing in The Ryersonian. CUP, at its 28th annual conference last year, passed a motion which said the paper could be rein-. stated if editorial veto powers were given the student editor.

The 16 resignations became effective Tuesday, but editor Coates agreed to remain as an advisor until Friday (Sept. 23).

Andy Devereaux, President of the '66 Soph class, presents Carol McIsaac the new Frosh Queen at the Freshman Ball. Sue Kinear '64 Frosh Queen has just crowned the new Queen.

Pursestrings Tightened

MO-Gill University's student union has introduced a tight new security system this fall.

The new security measures were introduced after it was discovered that enterprising students were stealing thousands of dollars of students' society money.

"Last year this place was wide open," commented building manager John Jones. "Master keys were easily obtained, and a person could get into any room if he put his mind to it." And students apparently

did put their minds to it. Illegal long distance tele-

phone calls totalled \$12,000. Bookstore shinkage amounted to almost \$20,000. Temporary measures taken

to date have uncovered more than \$100 in unauthorized calls from one office alone. Hopefully, things will chan-

ge this year. The only master

key in existence is the one in

'Jones' back pocket. The one set of sub-master keys is passed from porter to porter as they change shifts.

Club presidents must sign an inventory list accepting responsibility for contents of their office before receiving keys.

"Many students see the new rules as a useless inconvenience," said Jones, "but we are only trying to protect the students' interests."
