

Memorandum to Mr. Heeney

Important Radio Broadcasts

— The C.B.C. report this morning that the routine arrangements for providing a report of important radio broadcasts on this continent and in the United Kingdom are not yet complete. However, the Manager of the Exchange Programmes Branch states that there are no programmes of outstanding interest or importance during the coming week, i.e., January 15-21, with the exception of the talk by Mr. Landon on the Lima Conference, reported in my memorandum to you of January 7th, copy attached.

I am following this matter and will report any important programmes of which information comes available.

— I am a little disappointed in the lack of response to your letter to Major Murray of January 7th, copy attached. I think the C.B.C. is a little slow. I have spoken to Major Murray and shall continue to press the matter until a satisfactory routine is established. It has, of course, been a heavy week for all concerned.
