

The Metropolitan

Jubilee Souvenir

In commemoration of the Queen's Diamond Jubilee, and as a type of the progress of the whole empire, we devote the following pages to the progress of Canada, and more particularly to the growth of this Metropolis. To those abroad the subject matter will be undoubtedly a surprise, and those at home will find herein much new material which will give food for thought and quicken their pride of citizenship in this metropolis as part of the greatest Empire the world has ever seen.
