

THE PERFECT VACUUM CLEANER

THE PERFECT VACUUM CLEANER does just as efficient and thorough work as the most expensive Vacuum Cleaner made.

That's a pretty strong statement.

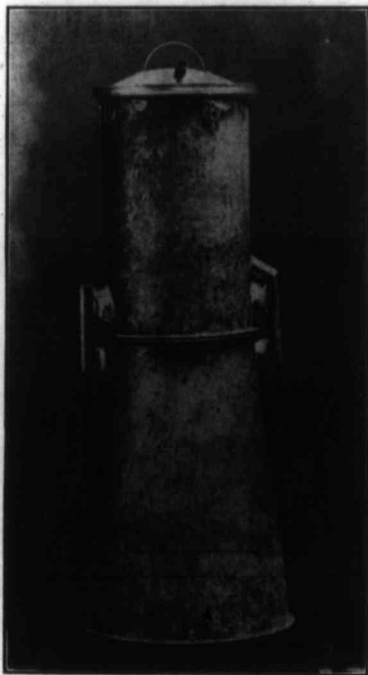

It is made in face of the fact that there are dozens of Vacuum Cleaners of all shapes, styles, classes, and prices.

But there is not one that can do better work than THE PERFECT.

It is a Canadian Vacuum Cleaner.

THE PERFECT Vacuum Cleaner is simplicity itself.

There is nothing about it to get out of order.

It will last for generations of constant, hard, practical use.

It is most easily operated, a small child can operate a hand power machine.

THE PERFECT cleans carpets, rugs, floor coverings of all kinds, upholstered furniture, bedding; inaccessible places, such as corners, cracks, crevices, beneath radiators, registers, behind doors, closets, trunks, chests, linen closets, desks, files; it removes dirt, dust, fuzz, and other like accumulations—all in one operation.

The dirt is sucked or drawn up and retained in a bag in the machine, to be disposed of later in the furnace or elsewhere.
