

Only One Kind of Roof I Know of is Guaranteed for 25 Years.

OSHAWA Galvanized Steel Shingles make a roof that is not only guaranteed, under seal and with \$250,000 back of it—guaranteed to be and to remain a **perfect** roof for twenty-five years: It is the only roof I know of that is sure to be a good roof for a **hundred** years. It's steel, you see, to start with—heavy (28 gauge) sheet steel of high quality. Can you imagine steel wearing out?—on a roof.

STEEL'S only real foe is rust; but rust cannot get at the steel of an Oshawa-shingled roof, because every shingle is heavily **galvanized** on both sides—coated with a tin-and-zinc smelter that perfectly protects the steel against every form of rust.

THAT is why you will never need to paint an Oshawa-shingled roof; it doesn't need painting, because the heavy galvanizing is a far better protection than paint could ever be. Think what you save by putting on a roof that needn't be painted, and yet will be a good roof for a hundred years!

DON'T imagine our guarantee is any mere form of words. It says, in plain English, that if any Oshawa-shingled roof, put on right, leaks, or is at all unsatisfactory within 25 years we will supply and put on a new roof free of all cost to you. Is that fair and square? Did you ever hear of another roof that had such a guarantee back of it?

DON'T get the idea, either, that cost is a big factor in roofing

really **right**. An Oshawa-shingled roof's **first** cost is no more than the cost of an ordinary wood-shingled roof! It's **final** cost is ten times **less**

AND lightning cannot damage a building covered with Oshawa Steel Shingles, because these insulate the building—the bolt may strike the structure, but it can't damage it. Such a roof is far, far, better insurance against lightning than any lightning rod system that ever was.

ANYBODY who can use a hammer and snips (tinner's shears) can put these Oshawa Shingles on right—easily and quickly. They lock underneath, on all four sides, so that every nailhead is completely covered with galvanized steel and the whole surface hasn't a seam nor a crevice.

SUM it all up—a roof that costs one-tenth what cheapest wooden shingles cost; a roof that is absolutely weather-proof, fire-proof, lightning-proof; a roof that is guaranteed to be a perfect roof for 25 years (or a new roof for nothing)—sum it all up—wouldn't

it be wise for you to send to-day for the booklet that tells why **YOU** should roof right? Just send a post-card to-day to our nearest warehouse.

Ask for Roofing Right Booklet No. 9.

G. A. Pedlar.

PEDLAR PRODUCTS include every kind of sheet metal building material—too many items to even mention here. You can have a catalog—estimate—prices—advice—just for the asking. We'd like especially to interest you in our Art Steel Ceilings and Side Walls—they are a revelation to many people. More than 2,000 designs. May we send you pictures of some of them?

"OSHAWA" GALVANIZED STEEL SHINGLES

A new roof for nothing if they leak by 1934

than the cheapest wood-shingled roof! And an Oshawa-shingled roof is more than rain proof, more than snow-proof, more than wind-proof. It is not only an absolute insurance against leaks, but it is an insurance against **fire** and against **lightning**! Is that worth considering?

OF course you know that flying sparks or red hot embers couldn't possibly set fire to a roof covered with one seamless sheet of steel. That one fact alone makes an Oshawa-shingled roof earn money, because such a roof gets you a lessened fire-risk premium on any building.
