MISSOURI NURSERY CO., Louisiana, Mo.
Salesmen wanted; special aids; magnificent outfit free.

STARK NURSERIES. Stark Bros. Nursery
Founded 1835. Oldest in the West. Largest in the World. BEST of everything. Nearly 500 salesmen sell our stock in almost every State and Territory; volume of annual sales now exceeds that of any other Nursery. We sell direct through our own salesmen, without the aid of tree dealers or middlemen, and deliver stock, freight and all charges paid.

NO TREES Last and bear like whole root trees; or like plum, prune and other trees on Maricopa, the best plum stock grown. Idaho and other New & Old Fruits (by mail); ornamentals, root grafts—everything. No larger stock in U.S. No better. No cheaper.

COSSITT'S DISC HARROW

Pronounced by the Farmers to be perfection. All Steel Discs, with the latest improved Scrapers. Don't fail to see our 1891 scrapers; the point we claim on these is, they are not constantly rubbing on the Disc, causing friction, and thereby adding to the draft. To clean Discs, simply touch foot to spring on side of seat, this brings Scrapers in contact with Discs, cleaning them instantly. Our new Hinges are so constructed as to allow the flexibility desired.

THE LEADING SPRING TOOTH HARROW

ALL STEEL FRAME.

The Teeth are best oil-tempered steel; easily adjusted to cut any depth. Our Patent Tooth Holder is made of malleable iron, and will hold the tooth wherever placed. The frame stands high, which prevents clogging. It leaves the soil loose and level. We still manufacture our celebrated Model Buckeye Mower, the Illinois Patent Dump Rake, and New Light Reaper. Agents wanted. Write for circulars.

The "New Model" Rotary Disc Jointed Pulverizing Harrow.

All Steel Discs with Patent Automatic Scrapers.

The only Disc Harrow made with Scrapers that will keep discs clean without any attention from the driver. No Disc Harrow is complete without this great improvement. Receives everywhere highest commendation, because very effective in work, simple in construction, durable in wear, convenient in handling.

The Celebrated Stevens (Patented) All Steel, Arched Frame Spring Tooth Harrow.

Away ahead of all others; all steel frame; no wood to decay and wear out; lightest draught spring tooth harrow made; teeth quickly adjusted—only one nut to loosen; will not clog or bury. On stony land its work is perfection; in sticky ground there is none like it.

Good live responsible agents wanted in every part of Canada. Write for circulars and prices.

PROVAN'S Horse Fork and Sling

IS THE BEST MADE.

SIMPLE, STRONG, DURABLE

Many farmers who had other kinds have taken them down and bought mine after seeing it work. My Machine Handles Sheaves as well as Hay and Peas—It is the Simplest and Best Stacker Manufactured.

It has been in successful competition with the best in the market during the past six seasons. Its superiority to all others places it beyond doubt, as it is positively the only Double-Acting and Self-Reversing Machine on the Continent that has the following advantages:—A loaded fork or sling can pass the stop block. The pulleys can be instantly lowered or elevated to their position. This avoids all climbing or untying of the whiffletrees. The track acts as a strengthening brace, never warps, and is stronger and better adapted for unloading at the gable, as well as the centre, than any other. It is easily moved from one barn to another. The track used for this car is the best for the following reasons:—It is round; the car runs easily, and is not affected by a side pull. Any boy can change it with ease. Pulleys can be instantly raised or lowered at pleasure.

GUARANTEE.

We guarantee every Machine sold by us to do first-class work, and to unload one ton of hay in from three to five minutes, when properly handled and put up, and if it fails to do so, will be taken back and money refunded.

SENDING TO FARMERS ON TRIAL.

It has been for years a part of our business to send our machine on trial to fair-minded responsible farmers living at remote distances, such machines to be put up by them and used until their harvesting be half done, when they are required to decide whether they will keep the apparatus or return it; if the latter, we will pay return freight charges.
