THE WEEKLY Farmer's Advocate

Leads the Agricultural Press.

WORTH TWICE WHAT IT COSTS.

Compton, Que., Jan. 18, 1904.

Gentlemen,—I consider the "Farmer's Advocate" the best farmers' paper published in Canada. It is full of valuable information, worth twice what it costs. Enclosed please find \$1.50, postal note, for another new subscriber. "Maple Cliff Farm." W. G. JOHNSTON.

UNEQUALLED IN GREAT BRITAIN.

Words cannot express the praise your Christmas number deserves. The illustrations are beautiful and well chosen, while the letterpress is practical and highly interesting; in short, we have nothing to touch its all-round merit issued by the agricultural press in this country.

Cheshire, Eng.

G. H. PARSONS.

BEST IN AMERICA.

Enclosed please find \$1.50, in payment for "Farmer's Advocate" for 1904. I take this opportunity to say I am well pleased with the "Farmer's Advocate." I consider it the best agricultural journal printed in America.

Brome Co., P.Q. H. E. WILLIAMS.

MADE HIM SUCCESSFUL.

I am glad the "Farmer's Advocate" is being published weekly. I have taken it for a long time, and to it I owe my success in farming to a very great degree.

Lanark Co., N.B.

APPRECIATED IN NOVA SCOTIA.

Mr. E. B. Elderkin, Amherst, N.S., President of the Maritime Winter Fair, writes, expressing his delight with the publication of the "Farmer's Advocate" as a weekly, and the continued evidences of its excellence and success.

TESTED FOR 38 YEARS.

I am pleased to note the continued and abundant success attending your earnest efforts in behalf of a greater agriculture. Until manhood, my life was spent in close touch with a good Canadian farm, where the "Farmer's Advocate" was regarded as a wise and trusted advisor. My father R. T. Ferguson, who still lives on our home farm, has read your columns since the first issue appeared. He regards your paper as a close personal friend. Personally, I can say that much of the early stimulus which led me to perfect myself in animal husbandry work was received from a close study of your columns. During the last ten years a wide and varied experience in professional and business work has placed me in a position which made possible a comparison of the leading agricultural journals of the country. The "Farmer's Advocate" has stood the test, and to-day no paper has a higher place in my estimation of what a farmers' paper should be. Your issue of January 7th advises me that hereafter the "Advocate" will be a weekly visitor in Canadian farm homes. Accept my hearty congratulations on this onward move, and my best wishes for continued prosperity.

J. J. FERGUSON.
Mgr. Animal Food business, Swift and Company, Chicago.

THE EASY CAR PUSHER

Is Constructed of the Very Best Material.

The bar is steel and tempered at the point, so as not to wear. The "heel" is malleable, and the triangular bit is n ade of the finest tool steel. The heel has lugs extending downward on both ides of the rail so as to hold it firmly in position and prevent it slipping sideways, and the triangular bit or steel cuts into the rail when pressure is applied and prevents a ipping backward. even though the rail is icy, greasy or wet. This bit can be inverted until the three points are dull and then sharpened. When the pressure is released the steel spring lifts the steel bit from the rail, thus saving it from being dulled by sliding over the rail when following the wheel. The pusher weighs but 20 pounds, is easily hardled and can be operated by anybody. You take no chances—we send it on trial. Extra steels, 20c. cach. Length of pusher, 5½ feet. Price \$5 f. o.b. London. C. C. CLARIE, Manufacturer, 343 Maltland St., London, Ont.
