It was late, and getting later. However, that did not stop the sound of muffled voices in the parlor. Meanwhile the gas meter worked steadily.

The pater endured it as long as he could and then resolved on heroic measures.

"Phyllis," he called from the head of the stairs, "has the morning paper come yet?"

"No, sir," replied the funny man on the Daily Bugle, "we are holding the form for an important decision."

And the pater went to bed wondering if they would keep house or live with him.

GOSSIP.

PROLIFIC LAMBING.

On his farm, at Tyddyn Morgan, Abergele, North Wales, Robert Davies, head coachman to Sir Herbert Roberts, M.P. for West Denbighshire, has a ewe that has lambed prolifically during several seasons, and it would be interesting to know whether the record has not been "smashed." Mr. Davies informs a correspondent of the Farmer and Stockbreeder that the numbers dropped were as follows: 1908, three; 1909, four; 1910, seven; 1911, four; 1912, three; total, 21 in five years. Fifteen survived. The previous record is believed to be eighteen in nine years.

BUENA VISTA OXFORD DOWN SHEEP AND YORKSHIRE SWINE.

Indications all point to an extensive and rapid revival of the sheep industry in this country. The far-reaching results, instructive, educational and otherwise, of the report of the investigations of the Commission appointed to make a thorough survey of the sheep industry of two continents, and the energetic and business-like manner in which the present Dominion Minister of Agriculture is taking up the subject, have surely stimulated an interest that for too long has been practically dormant. The greatly increased demand for breeding stock reported to the writer by those engaged in the breeding of pure-bred sheep during the last year, is the surest indication that the efforts of those responsible for the educational campaign on sheep-raising is bearing results. A visit a few days ago by a representative of this paper to the noted Buena Vista flock of Oxford Down sheep, the property of J. Cousins & Sons, of Harriston, Ont., found the flock in the nicest kind of condition. The Buena Vista flock of Oxfords is one of the oldest established in Ontario, and has supplied the foundation for many of our best Canadian, as well as American, breeding and show flocks, and certain it is that no flock has had more attention or care exercised in the selection of flock-heads than has this, as a perusal of the following will show. Just now at the head, and the sire of this spring's crop of lambs, is Imp. Langford Jewell 10th, bred by W. J. & P. Reading, of Langford, Eng. He is a ram of powerful form and great strength of bone. As a lamb and as a yearling he practically swept everything before him at the leading Canadian shows from Toronto to Regina, winning many championships. As a sire he is proving a veritable wonder, his lambs being by far the best lot ever bred on the farm, his clip this year weighing just nineteen pounds, which will give some idea of his size and perfect covering. His predecessor was the noted sweepstakes winner, Imp. Hamtonian 136, and before him was also the sweepstakes winner, Imp. Hamtonian 96, and again before him was the unbeaten Imp. Hampton Hero 4th. This is an array of flock-heads for generations that is a guarantee to intending purchasers of the quality of lambs the Messrs. Cousins are offering and booking orders for just now. An early order will ensure an early selection.

The Yorkshires are typical of the perfection to which the breed has been brought on type lines, the brood sows all belong to the noted and popular Fame tribe, and the present stock boar to the great Cinderella tribe. For sale are youngsters of both sexes, sired by a son of the Messrs. Flatt's noted stock boar, Summer Hill Jerry 20th. Write the firm your wants to Harriston P. O., Ont.

TRADE TOPIC.

Dairymen who are turning Sharples' tubular separators twice every day, appreciate the few parts that these separators have to clean, and the ease with which they are washed, reducing drudgery and saving the wife both time and labor. Look into this matter before buying a separator. Compare it with other makes, both as to skimming qualities and ease of operation, and be guided accordingly. Send a post card to-day to The Sharples Separator Co., West Chester, Pa., and ask for free catalogue, or if there is a Sharples agent in your neighborhood, you can have a machine set up and try it yourself.
