Orders and inquiries are coming in faster than ever before.

Canadian dairymen are coming to realize the advantages of the Silo and appreciate just how much better the **Ideal Green Feed Silo** is than any other make.

Here are some of the points of superiority which make these Silos so popular:

Material: Canadian Spruce especially selected for our own use.

All lumber is saturated with a solution which prevents rot and decay and reduces the tendency of the staves to swell or shrink and adds two or three times to the life of the Silo.

Hooped with heavy round iron hoops every 30 inches apart.

Only malleable iron lugs are used.

All doors on the **Ideal Green Feed Silos** are self-sealing.

Doors are only 6 inches apart, can be removed instantly and are always air tight. The roof is self-supporting; built without rafters.

Dormer window facilitates filling Silo clear to the top. All sizes furnished.
