DISTRICT DENTISTS IN SIMCOE

Convention of Practitioners From Many Parts of Province Here

SOME SIXTY PRESENT Forbidden Literature Circulated in Simcoe—Police at Work

OTHER SIMCOE NEWS

Simcoe, June 20.—(From Our Own Correspondent).—There were about sixty dentists in town yesterday from all parts of the district, including the counties from London to Dunnville and from Waterloo to the lake.

The convention was held to discuss what would be acceptable terms for absorption into Toronto University, and the program as outlined was followed. This was the topic of general discussion; the last number on the program and the conference, which, it was expected, would end at two o'clock, continued till 4.30 with much evidence of a desire for extension of time.

Speakers and Their Topics. Dr. W. E. Willmott of Toronto discussed "Dentistry and the War," setting forth the marked "achievements of the craft in fitting up soldiers with substitutes when nose, or part of the jaw had been shot away, and showing the unbounded possibilities of the profession in the matter of relieving the patient. There was, too, the work of the craft in the army and in the army hospitals, a splendid address.

Dr. Wallace Scocomb of Toronto outlined the work of the college year just closed.

Dr. A. E. Webster, Dean of the College, spoke on "Tendencies of Dental Education in Simcoe."

The meeting was held at the club house of the local Country Club. Whether dentists convened here on account of the geographical situation or the good railway connections, for we have seven roads out of Simcoe, or because Simcoe is the home town of Dr. Wm. McCreary, president of the Board of Directors, or because they looked for a centre whose chief magistrate was a dentist, we know not. At any rate, Mayor Sillier made the boys a civic welcome. President Geo. J. McKie of the Country Club did likewise and Dr. McGuire, chairman for the occasion, delivered a fitting address after Dr. H. H. Abbott of London had replied to the addresses of welcome.

The Royal College of Dental Surgeons of Ontario. Perhaps it is generally known that in Ontario dentistry has reached a position of pre-eminence in the world's institutions of the craft. That the reputation of the Ontario College is world wide, now that the college has had applicants for post-graduate courses from the United States, the Antipodes, Western Europe, Asia and Africa. This is the organization of which our own Dr. McGuire is now president. The advance that has been made in dentistry in Ontario during the past three decades is marvelous. Dentistry has taken charge of what medicine has never seriously attacked and has accomplished so much, that the medical profession has practically abandoned this part of the human anatomy altogether.

It is no wonder, therefore, that the committee of district number five should have discussed the pros and cons of amalgamation with Toronto University. Conscious of a good past record and of present pre-eminence, financially able to stand alone and with a distinction for progressive pressure towards perfection, the Royal College of Dental Surgeons of Ontario consistently deliberates on this big question. It is not so much with the craft a question of "What shall we gain" by amalgamation, as it is a question of "What might we lose."

We might send hereto a list of the names of the men present, but they are not vain. Sometimes, it is whispered, they are compelled to remove sound teeth for vain needles, but they seem to be immune from the germ even at such close quarters.

The other members of the committee with Dr. McGuire, were: Dr. Wm. McCreary, Dr. Taylor, Dr. Thomas, Dr. Heath, Woodstock; Dr. Waddle, Kitchener; Dr. Campbell, Galt.

PUBLIC NOTICE.

I hereby give notice that I will not be responsible for payment of any debts incurred by my wife, Mabel Altelaar, who has left my domicile.

B. Altelaar.
Simcoe, June 20, 1918.

with schedules of the distances from crossing to crossing along those streets of the town where auto drivers are likely to sprint. These have the distance required to travel the distance at 15 miles and 20 miles an hour all tabulated.

A constable can easily, therefore keep tabs on his man without the knowledge of the driver. More than a week ago when Chairman Jackson and the Chief were taking the measurements—they might have got them off the town map—a ratepayer called at this office to know what "divination" the council was up to now to raise the taxes. We told him that the taxes were growing quite well without any assistance.

More Barred Literature.

Last Sunday morning citizens on various streets found distributed to their verandahs or front doors copies of "The Morning Messenger." The date of distribution for the sheet was well chosen. It contained a charge of compact between the Pope and the Kaiser, and local Orangemen were announced for a church parade the same evening. How easy to make believe that the Orangemen were putting it out.

The Orangemen had no part in it. It is a well devised Hun plan to set up creed strife in Canada, though possibly the innocent distributors did not know it. The police already have the names of five and the confessions of some of the six men who made the early Sunday morning trip and the bunch closing, appears to equal almost all the rest of the week. The deputies have been instructed to date the records on the day made, although the instructions call for all to be dated June 22nd. From reports to hand, it takes about three minutes to register the average woman and four minutes for the average man.

Regarding Exemptions.

His Honor Judge Boles, handed out yesterday dispositions on the applications for exemptions heard a week or so ago, as follows:
Turner, William, allowed till Oct. 15th, 1918.
Sullivan, Stanley, disallowed.
Townsend, George, disallowed.
Sizart, Covert Wesley, cancelled from list.
Maddiford, Chris, cancelled from list.

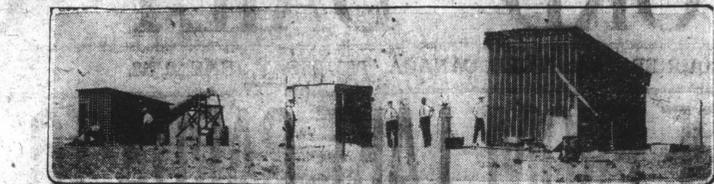

Saville, Roy, allowed till October 15th, 1918.
Shay, Chris, allowed till October 15th, 1918.
Edgeworth, James O., allowed till Sept. 15th, 1918.
Baechler, Fred W., disallowed.
Pickle, Lorne, allowed till Oct. 15th, 1918.
Abbey, Allen C., disallowed.
Smith, John, allowed till Oct. 15th, 1918.
McDonnell, Andrew, Thos., cancelled from list.
Racher, Chas. E., allowed till Sept. 15th, 1918.
Dunbar, Roy C., allowed till Sept. 15th, 1918.
Caley, James Doan, reserved.
Collings, Clayton, disallowed.
York, Gordon Becher, disallowed.
Boyd, Robert, allowed till Oct. 15th, 1918.
Tench, Edwin Walter, allowed till Oct. 15, 1918.
Butcher, Cecil Ward, disallowed.

ANOTHER FIRE IN TOWNSEND

Barns of J. J. Moore, Unionist, Were Destroyed Yesterday Morning

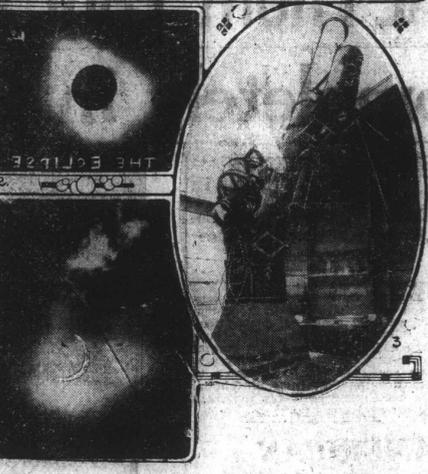

(From our own Correspondent) Simcoe, June 20.—Early yesterday morning news reached town that J. J. Moore, of Ville Nova, in Townsend Township, had lost his barns and outbuildings by fire, which destroyed also the contents, except the live stock, about four o'clock in the morning. Mr. Moore had some insurance in the Norfolk Farmers' Mutual Fire Insurance Co., \$3,500 we believe.

We coupled with this report was the statement that the owner was a supporter of the Union Government, a string of political tendency not very popular in his neighborhood, and that he had recently refused to sign a petition presented him, requesting Hon. W. A. Charlton, M.P. for Norfolk in the Union Government, to resign his seat. Citizens about town are open in their expression of belief—founded, no doubt upon reported threats of intimidation—that the fire of these barns was an act of intimidation or retaliation. In other townships than in Town-

PERFECT VIEW OF THE SUN'S ECLIPSE.

(1) The Eclipse Station at Matheson, Colorado, where Prof. Ghant of Toronto went to obtain a good view of the sun's eclipse on June 8. His shelter is the one in the centre. (2) Shows the moon directly in front of the sun, producing the total eclipse. The bright rays are known as the Corona and are seen shooting out behind the moon. (3) The eight-inch telescope of Drake University erected at Matheson for observation purposes. (4) View of the sun a few minutes after total eclipse. The clouds were dense just before and after totality, but cleared away at the critical time.

SUGAR STATISTICS.

By Courier Leased Wire
Montreal, June 19.—A Havana despatch says:
The season on the whole has been very favorable for grinding and the total output of sugar to date is 2,728,000 tons. Of this amount about 1,282,000 tons have been exported, about 1,444,000 tons stored at the different ports on the island ready for shipment. About 700,000 tons are stored at the different mills. It is expected the total output of Cuba for the season will reach 3,500,000 tons.

MAY GOOD MONTH FOR FISHING TRADE

By Courier Leased Wire
Ottawa, Ont., June 20.—The total value in first hands of sea fish landed in Canada during the month of May was \$2,328,626, as compared with \$2,161,571 for the same month last year, according to the monthly statement issued from the Department of the Naval Service. This statement says that fishing was carried on under favorable conditions this year, but in the more easterly parts of Nova Scotia, ice which was slow in leaving the coast, interfered with operations.

The catch of cod and haddock this year was 20,073 hundredweights, which is more than 100,000 hundredweight less than in May 1917, when it totalled 191,234 hundredweight.

The quantity of lake and pollock was 18,300 hundredweights less last month than in May 1917. The landings of herring and mackerel were slightly better this year than last, and the sardine catch was much greater, the quantity being 37,966 barrels, against 6,165 barrels. The total pack of lobsters up to the end of last month was 52,886 cases, while 43,479 hundredweights were shipped in shell to market. During the corresponding period in 1917 the pack was 23,831 cases, and the shipment 57,418 hundredweights.

FISH-12c per lb. - FISH

One Ton Fresh Caught Government Haddock for Friday and Saturday

To Bake Haddock
Wash, Scale and Wipe; prepare a dressing with 1 ounce chopped suet, 2 ounces bread crumbs, 1 teaspoon herbs or parsley; season with salt and pepper, and add 2 tablespoons of milk or half an egg. Stuff fish and sew up. Brush over with beaten egg and sprinkle with bread and fat. Bake in brisk oven until done, basting frequently. Pour over melted dripping and serve hot.

12c LB. IF DELIVERED 2c EXTRA
Delicious Nutritious Tasty Wholesome
The Fish are firm and flaky—No finer fish could be had if you paid \$1.00 per pound. Order Haddock tomorrow. Fresh Supplies Every Day.

To Boil Haddock
Wash, Scale and Wipe; put 2 ounces salt into 2 gallons water, and when dissolved place fish in water. Bring water to a boil, quickly remove scum, then simmer gently for half hour, until the eyes of the fish start and flesh leaves bones easily. Take up as soon as sufficiently cooked or it will be hard and tasteless. Haddock may be fried in the usual way for fish.
