HAMILTON, CAN.

MEANS MUCH.

I'm sick of the roar of the cities, And of faces cold and strange; I know where there's warmth of welcome,

welcome,
And my yearning fancies range
Back to the dear old homestead,
With an aching sense of pain,
But there'il be joy in the coming,
When I go home again.

When I go home again! There's mu

That never may die away,
And it seems the hands of angels,
On a mystic harp at play,
Have touched with a yearning sadness On a beautiful, broken strain,

which is my fond heart wording-When I go home again.

Outside of my darkening window Is the great world's clash and

And slowly the autumn shadows
Come drifting, drifting in.
Sobbing, the night wind marmurs
To the splash of the autumn rain;
But I dream of the glorious greetwhen I go home again.

HOW TO HAVE PRETTY TEETH. §

In our country we consider that a woman has pretty teeth if they are small, white, regular and well placed. Their dazzling enamel makes them resemble little pearls, and in fact there is a metaphor so constantly in use that it has become banal—"two rows of pearls over which close lips of coral."

The house.

"According to the ordinary written, a woman's whole married life should be spent in practicing experiments to keep her husband's love from growing cold, while he, apparently, may pursue any course he pleases, civil or uncivil, tyrannical or gentle, and be sure of retaining hers. fact there is a metaphor so constantly in use that it has become banal——"two rows of pearls over which close lips of coral."

Teeth are important factors and there is never good health without them. The first condition of well-digested food is its thorough masticantion. Food insufficiently chewed is painful to digest, and in most cases determined by dyspepsia has no other origin than

So much for general health, but for the cleanuness and niseness of the teeth it is first of all necessary to have perfect purity of breath. Rinse the mouth every morning with

warm water and an antiseptic wash. The teeth should then be brushed with a small brush which can reach every corner of the mouth.

One should always brush from the sum to the small of the teeth down. gum to the end of the teeth, downward for the upper jaw and upward for the lower; never lengthwise, for

for the lower; never lengthwise, for that bares the gum.

Each morning and evening pass through every interstice a piece of dental floss in order to prevent any food remaining.

Rinse the mouth as often as posship after each repast.

At regular intervals, and at least once a year go to a dentist and undergo a complete cleaning of the law. If a woman follows these directions she is sure of keeping her teeth were so skimpy that there was no beautiful and healthy for a long room for a pocket; now they are

The Discontented Wife. From whatever cause domestic discontent springs it makes the home full of idieness, ennui and vagrant imaginations; or of flerce extravagance, and passionate love of amusement. And as a wife holds the happiness of many in her hands, discontent with her destiny is peculiarly wicked. If it is resented, she gets what the deserves; if it is quietly endured, her shame is the greater. For nothing does so much honor to a wife as her patience; and nothing does her so little honor as the patience of her husband. And however great his patience may be, she will not escape nersonal injury, since we will not escape nersonal injury, since her destiny is peculiarly a wife as her patience; and nothing texture—and in price. You can really does her so little honor as the patience of her husband. And however great his patience may be, she will not escape personal injury, since none are to be hell innocent who do harm even to their own soul and body. Besides, it is the inflexible order of things that voluntary faults are followed by inevitable pain.—

Am ills E. Barr.

Amelia E. Barr.

His statience at an End.

An old housewife in the country was bemoaning her poverty to an unsympathetic husband.

"Things ain't as they used ter be," she complained. "Why, I ain't got anything like I iused ter hev. I ain't got quitts enough ter go 'round the beds; there's two of the best chairs broken, an' I ain't got enter be that it is best not to tell it.

Neat little hand bags can be made at home. If there is a gold clasp in the family it can be attached to a little filken bag made in any shape desired. The work of fastening on the clasp should be done carefully to give a neat appearance. The inside can be in a contrasting color. wouldn't hev a cap ter be buried

shape desired. The work of fastening on the class should be done carefully to give a neat appearance. The inside can be in a contrasting color. A bag of violet satin to match or next with a talkned contrasting color. The old man had stood the whining slong as he could.

"Blast it all, then," he fiercely faculated, "why * cldn't yer die when yer did hev a cap?"

"Contrast with a tallored suit is very pretty. Let the outside be studdied with steel nail heads or with silvered ones or nail heads of gold. The fining should be a gorgeous orange satin and the initial is worked into the best pretty. as long as he could.

"Blast it all, then," he fiercely populated, "why fiden't yer die when yer did hev a cap?"

AT PARIS.

A Canadian Product Which Wins Much Fame at the 'Great Exposition of 1900. Woman's Rule.

The witness was just getting to the thrilling part of the story when the judge interrupted.

"There are extraneous matters," she said, "that are destracting the attention of the court and preventing her from giving the evidence proper consideration. We will take a recess of fifteen minutes in order that the court may retire and find out whether her back hair is really coming down."—Chicago Post.

STOCK FOR THE WEST

British Columbia a New Market for

Ottawa Report .- On Saturday, Nov. 3rd, was shipped from Ottawa the first lot of stockers ever sent to British Columbia. The sh.pment consisted of some four hundred head of calles and yearings, of excellent

quality.
Mr. Hawden, the Secretary of the "I do wish some one would write a few rules for men," said a young married woman recently. "I'm aw-fully tired of reading in magazines and newspapers that I must meet my husband when he comes from his office "pleasantly and cheerfully." British Columbia Dairymen's and Live Stock Breeders' Association, who went past to look after this shipment, was well pleased with the stock. He says that so long as stockers of similar quality can be secured in the east at a reasonable price, this trade will increase year. my husband when he comes from his office "pleasantly and cheerfully." That the house must be like a new pin, I must be prettily gowned, the dimer must be daintily cooked and served, and that he mustn't be worried with a recital of the troubles of the day, no matter if delirium supervenes for me.

"These precepts are all right theoretically, and under ordinary circumstances are practical. Every woman follows them instinctively who wishes to retain her husband's admiration. But why aren't there a few laws of by year. On the one hand, the dairy-men of Eastern Canada are making more money in growing more pork than beef, and in consequence, if they cannot see a way of disposing of their caves before the first win-

ter, they kill them at birth. It is estimated that some forty thousand (40,000) calves are so killed every year in Ontario alone. On the other hand, on the ranges, the uncertainty But why aren't there a few laws of this sort laid down for men to folof cows breeding yearly, and the frequent small proportions of calves to the number of cows kept, will ex-ist as long as the present range con-Why isn't there some one to tell "Why isn't there some one to ten them to look cheerful when they come in, and to forbear to grumble if din-ner is a trifle late for any good rea-son, to be a little sympathetic and effectionate, and recomber that ditions continue, and if the western stockmen can see their way to purchase at reasonable prices young stock, such as has been sent from Ontario, it is safe to say they will affectionate, and remember that theirs are not the only troubles in

onsider carefully the two courses, viz., first, breeding their young stock; second, purchasing the same. The stockers just shipped will, without doubt, if given good treatment and feed, make some of the best beef that has ever been killed in British Columbia. They have been bred in most instances from very hers.
"I sedulously keep all such articles away from John, for he is a very good husband, and I'm afraid such literature would put ideas into his head and spoil him.
"Now, poor, unenlightened soul, he has an idea that my side of the partnership has its own worker and he large grade Shorthorn cows and slred by pure bred Shorthorn bulls. They are well ribbed, broad backed cat-tle, being better let down in the

flank and hams than most of the British Columbia cattle. In addition to the above mentioned nas an idea that my side of the partnership has its own worries, and he
tries to help me straighten them
out; but who knows how he would
change if he ever discovered that
he is really made of china, and has
to be handled with care to keep him
from being broken?"—New York
Journal. shipment, a further lot of 1,000 stockers is now ordered and will be shipped as soon as they can be collected, provided that they can be secured at reasonable prices. Part of a car of pure bred stock has been ordered, and should any of the western breeders require stock, they can ern breeders require stock, they can secure it by writing to G. H. Hadwen, who will make all such purchases while he is in the East. Address care of F. W Hodson, Live Stock Commissioner, Ottawa, Ont. He expects to tend the Provincial Winter Fair which will be held at Guelph from the 10th for the 14th of De-JEWELLED BAG ter Fair which will be held at Guelph from the 19th to the 14th of December, under the auspices of the Ontario Department of Agriculture, Not back in the 1830 days was the hand bag of more prominence in woman's dress than now. Then, in that budding Victorian era, dress skirts were so skimpy that there was no room for a pocket; now they are

room for a pocket; now they are above. scant again and the tiebacks of winter absolutely forbid the excre-All the trade in Live Stock which has been established between the Eastern provinces and British Colsoence of a pocket anywhere.

To reach a pocket in the back breadth is such an iungraceful act that women hesitate to perform it in public; to carry a pocket in the side is not always possible and leaver pretty ag it gives her a longer umbia should be credited to the efforts of the Provincial Associations of Ontario and British Columbia, and the Dominion Department of Agriculnever pretty, as it gives her a lop-sided look. The pocket in the patti-cont is absurd and the little jacket pocket is useless. So to the hand bag she is driven. ture, and also to the reduction of freight rates on the Canadian Paciic Railway, without which such shipments would have been impossible. As it is now the freight on pure bred stock is about \$200 less per car than it was a few years ago.

If you have green corn left from a preceding meal, you may make it into griddle-cakes or fritters or corn ovsters, or you may mix it corn cysters, or you may mix it with eggs and turn it into an omelet. For the griddicakes and fritters the process of making is the same, except that more flour is needed for one than for the other. needed for one than for the other. Cut the corn as it is on the cob with a sharp knife, then press out the pulp. To one cupful of the pulp add one well-beaten eggs, a little salt and half a cupful of cream. Add flour to make a thin batter and sift with one-half teaspoonful of baking powder. This will make delicious cakes. For the corn omelet, cut the corn from four cobs, add four well-beaten eggs, a little salt and pepper, a good lump of butter and one-half cupful of sweet milk. Bake in a hot oven 20 minutes.

Money in Tomatoes.

It is stated on good authority that the Bank of Humboldt, Tenn., paid \$150,000 in each in payment for the tomato crop of that section. The country around Humboldt is not more than ordinarily fertild, but the people seem to have discovered that endeavoring to raise cotton on up-lands is not profitable, and they have made the equally valuable dis-covery that other things can be raised with much less trouble and raised with much less trouble and which will bring in much greater returns. There are other things to be raised besides tomatoes, and the people throughout this section of the country should give some attention to diversifying the various crops, to the end that they may reap a rich reward for their labor instead of eking out a mere existence. — Memphis Commercial-Appeal.

Much Fame at the /Great Exposition of 1900.

Though Not Entered as an Exhibit Dodd's Kidney Pills Continued their Victories Among the Visitors to the Gay, Capitat — Returned Canadian Commissioner Telis a Personal Ex-

Toronto, Dec. 2.—(Special).—Mr. J. G. Jardine, one of Canada's Commissioners to the Paris Exposition has

stoners to the Paris Exposition has returned to his home at 305 Crawford street, this city, and is full of interesting stories of his experience during his stay in France.

He was impressed with the superiority of thangs Canadian when seen along side the products of the world. Everything from Canada was "genther, good," and while in some cases other exhibits might be more "showy," none were more worthy.

Mr. Jardine returns, if possible, a other exhibits might be more "showy," none we've more worthy.

Mr. Jardine returns, if possible, a more entuuslastic Canadian and this is in part at least due to the fact that while in Paris he was very much benefited by the use of that great Canadian tonic, Dodd's Kidney Pills. His work was very trying and made great demands on his health and strength, but he says: "During my stay in Paris I found

"During my stay in Paris I found Dodd's Kidney Pills invaluable, relieving Backache instantly and toning up my system generally."

Even in medical lines Canadians abroad have no reason to be ashamed of their country for no remedy in the world has ever been so quickly recognized and given a foremost place among known curatives as Dodd's Kidney Pills wherever introduced.

troduced. The experience of Mr. Jardine with Dodd's Kidney Pills in Paris, the home of some of the greatest medi-

cal scientists, is significant.

He was not alone in his enjoyment of the benefits of this great tonic, for many other of his acquaintances were using the same medicine, among them the Secretary to the Canadian Commission, Mr. Aug. Dupuls, who is an enthusiastic believer in Dodd's Kidney Pills.

OLDEST MAN AND WOMAN.

Former is a Russian, Aged 136; the Latter an American, Aged 117.

There is in New York a society whose members have such a surfeit of useless time that they devote a great deal of time to unique study of vital statistics. According to these people the oldest man alive to-day is Izal Rodofsty, of Moscow. This Russian is 136 years old and his case is reported by Dr. Joseph Jernoccky, an eminent Russian, physician. He has good eyesight, but poor hearing, was never known to suffer an illness and has used liquor all his life. His father died at the age of 120.

The most aged woman of to-day, as far as these investigators can discover, is Mrs. Nancy Hollifield, an inmate of the Battle Creek, Mich., statistium; who has seen 117 years. vital statistics. According to these

sanitarium; who has seen 117 years Her case is reported by Dr. Wood, a physician of that institution. She physician of that historical sim-has always lived a temperate, sim-ple life, doing housework principally since she reached maturity.

There are much more remarkable cases than these on record, but the claims of but a relatively few centenarians can be corroborated. Ismail Hudjo, of Khuti, Albania, is reported to have died last month at the age of 160, his faculties being unimpaired, and his teeth intact until the last. Whether this was a boma fide case, however, has not as yet been determined by the committee.

REVOLVING DINING TABLE. ISSUE NO. 50, 1901.

Commissioner Procter's Story of a Supper in Kentucky.

Civil Service Commissioner Procter telling a new story. "When I was State Geolog'st for Kentucky," he says, "and was travelling in the untains of the eastern part of the State with a party of prospectors from New York, we stopped at a wayside mountain house evening. It was not a specially invitfamily, yellow dog and il.icit whiskey have a lively mix-up, but was the

have a lively mix-up, but was the only place in sight and we had to take it. My men were looking for a big investment, and I wanted to make them comfortable over the uncomfortably rough country, so I halled the house owner and exacted an invitation to alight. The family and the house were types pure and simple, and all the cocentricities developed later.

"When invited to supper, we, observed that in the midule of the kitchen floor sat a large triple-decked circular affair, on the different decks of which the food was arranged. That part of it was all right, and the only fault that I had to find with the thing on the outset was that the standard in the middle of the table prevented my seeing my visa-vis. This objection, however, sank into nothingnesss when my host exclaimed, 'Have 'taters, Mr. Procter' and gave the table a whish that sent it prevolving on its axis at a terrible gave the table a whisk that sent it gave the table a whish that sent it revolving on its axis at a terrible rate, and made the much-at-home gentleman next to me, who was calmly reaching for the generous dish of gravy on the second deck, thrust the dish vigorously into other passing dishes, and at the same time sent the gravy shooting about in all directions, much to the detriment of the cloth and some of our coats. "This did not end the matter. Each

"This did not end the matter. Each one of these men, charmed with the novelty of the life-sustaining merry-go-round, reached out for a few of the viands, sending one dish on top of the other and making a general salad of the entire meal. The children, who had stood at our elbows with wide-open mouths at the start of the meal, now shot off into the on the mean, now shot off into the four corners, consternation written on their faces, while our host reached out and, grasping an edge of the revolving second deck, pretty much as you would a buzz saw, exclaimed:
"'Whose whose you see greatement. as you would a buzz saw, exclaimed:
"'Whoa, whoa. You see, gentlemen,
this is a new table, and this is the
first time I tried to set her going,
and I reckon I give her too much of
a twist on the start. Easy (as he cautiously set the thing to slowly revolve again). The idea, gentlemen,
is to bide yo thre, be shoo ye aim,
and yo can't miss the fust shot."
"Before the meal was over we had
gotten used to the eccentric thing,
and lived on the fat of the mountain
farm."—New York Sun. farm."--New York Sun.
