S. KERR & SON,

Oddfellows' Hall.

"AT HOME."

I was in Dr. Musgrave's yesterday, said Mrs. Donaldson, an while waitin in the hall for a minute or two, I noticed a kerd wi the minister's wife's name ont lyin on a tray, an at the bottom ot was printed 'At Home 1st and 3rd Tuesdays.' What's the meanin o that, Ava?

Well, I'll just tell ye what it means, said the widow, for I happen tae know. It means that she waits in on thae days for a pack o clashin, clatterin weemen like herself that come tae drink tae an gossip about the affairs o the hale countryside; an on the days that they're no wi her she goes tae thin an I can tell ye some folk's ears might be warm.

An that's what's ca'd an 'At Home,' said Mrs. Donaldson.

That's it, the widow replied, an o a the silly time-killers that was ever invinted I think its about the worst.

Sure, didn't I attend yir o thin at the manse by mistake, continued the widow, an it was an experience I'll never be likely tae forget.

I had a wee bit o business wi the minister, an afore I knowed I was usert intae the drawin-room amang about a dozen o them.

There was Mrs. Hamilton an her dochter, an the Miss Musgraves, the Doyl's, a Miss Carmichael frae Inverleith, an a whole lot mair includin the minister's wife o the Second Congregation that she's barely on speakin terms wi.

Fortunately, I had my silk skirt on and my guid bonnet, but a the same I wasna prepared for meetin such quality.

Naeboddy shook hans wi me or offert me a seat; hoover I made my way intae a corner an sat down on what luckt like a milkin-stool, painted, an a larg straight back tae it—an article which I'm sure wasna meant to be sat on, Ava.

I wasna introduced tae ony o the strangers, but I learnt afterwards that its no the fashion.

Her ladyship was busy makin the tay in a corner, an the servant lass carried it roon, as weel as a plate wi slices o breid an butter that you could see day-light through, an bits o cake.

No yin o the ithers had the guid manners tae tak aff their gloves, which made it very awkward for me, for on account o my rheumatics I wear knitted wool gloves a the year round. I didna daur tak them aff, an no a haet could, I dae wi them on, for while I was tannellin an tryin tae get a haet o the wee bit cup handle the hauf o the tay got jebbled intae the saucer.

The slice o breid fell in pieces in my lap, for I couldna bring myselt tae rowl it up like a lettuce as the ithers were daein, havin always been taught that its the worst o manners tae double up yer piece, an I was t at much put about that I could neither eat nor drink, so I slipped out my handkerchie, gathered up the brid int, an stuffed it in my pocket; an what was left o the tay I emptied intae a flower-pot that was sittin on the grun, an dae ye know, they wur a that busy gossipin intae ithers lugs that no yin o them saw me.

Was the minister there himself enquired Mrs. Donaldson.

He cam in afore it was over, said the widow, an was very gracious, complimentin the folks a roon.

I hardly expected to see you, Mrs. McGowan, he said tae me.

No, says I, I'm sure ye did not. I'm here much against my will, but I want o ween wi ye about them wee weans o Weeiee Paig's.

What's the minister there himself enquired Mrs. Donaldson.

hat I think should be got on tae the orphan fund. So he went out along wi me tae the study, an glad was I tae get awa.

I think they wur a' a wee thoct restrained by my presence, for nae sooner hed I shot the door alur, me than I heard their voices risin an their tongues goin like han bells.

An hoo lang dis an At Home last? asked Mrs. Donaldson.

Tae the veesitors got hungry for their proper tay, said the widow, an then they mak for hame an its only the Almighty Himself that can see the joy that's in the hearts o baith hostess an guests as they kiss each ither good-bye.

HOW THE OGILVIE FLOUR MILLS HELPED MANITOBA

The province of Manitoba has become famous in recent years through the fact that it produces the finest wheat grown on the North American continent, but its fame would not have been so great were it not for the wonderful mills of the Ogilvie Company which have converted the wheat into flour such as the world had never seen. Ogilvie flours have not only captured the home market but they have beaten all competitors in the foreign field.

Did Biggs have any luck hunting lions in Africa?

Yes. Great luck.

How?

Didn't meet any lions.

Stranger—What does the leopard mean by thrashing his paws around on the floor of his cage?

Keeper (from Boston)—He evidently fancies he is shuffling dominoes. Don't you observe his luminous ecstasies over the kaleidoscopic mutability of the spots?

Crawford—Why not take the bull by the horns and swear off everything at New Year's?

Crabshaw—Because it would be the death of me.

Crawford—How so?

Crabshaw—I would then be too good to live.

Madge—So she found marriage a failure?

Marjorie—Yes; and, like most failures, she made a good thing out of it. The court allowed her ten thousand dollars a year alimony.

Two brothers went to the same school. They were absent about a fortnight, and then one of them returned alone.

Where is your brother Thomas? asked the master.

Please, sir, he's laid up with a sprained arm. We were trying to see which could lean out of the window farthest, and Tommy won.

I suppose you have heard it intimated that you made a thousand dollars last year in various quiet ways.

Yes, said Senator Sorghum.

Aren't you going to try to stop the story?

No. Of course it will cause unpleasant gossip, but it will help my financial credit.

Lady Customer—Little boy, does your mother do up shirt waists by hand?

Boy—Yep.

Lady—And what price does she charge?

Boy—I dunno. I guss it's just the same as she pays for havin' the steam laundry do up hers.

I don't think its quite proper for a young woman to go out alone in an automobile, as she's doing.

Oh, that is a little different, you know. When a young woman is out with a ten thousand dollar automobile she doesn't need a chaperon.

I suppose you heard about Skorcher's accident with his automobile yesterday.

No. What was it?

He took a hundred mile spin and didn't hit a single person.

Few things are necessary for the wants of this life, but it takes an infinite number to satisfy the demands of opinion.

Result of New York Expert's Analyses of Canadian-Made Soaps.

Dr. Deimel Linen-Mech Co. writes: "We sent samples of the leading soaps made in Canada to an expert in New York, and had them thoroughly analyzed. As a result of this analysis, we find your 'Sunlight Soap' to thoroughly cleanse without danger to the clothes, and we are therefore pleased to recommend wearers of the Dr. Deimel 'Underwear' to use Sunlight Soap for washing."

GOVERNOR SNOWBALL TELLS OF FORESTRY IN NEW BRUNSWICK.

Annual Meeting of Canadian Association Held at Ottawa

Ottawa, March 5.—The friends and protectors of the forests are in the capital to-day. This morning the fourth annual meeting of the Canadian Forestry Association opened in the council chamber at the city hall.

The president, William Little of Montreal, was in the chair. The proceedings consisted of the reading of the president's address and the reading of papers on the forests of New Brunswick and the conditions of lumbering and forestry in western Nova Scotia.

Lieutenant Governor Snowball, in the paper on Forestry in New Brunswick said that there was practically nothing being done in that province in regard to forestry beyond the work of a few wood rangers, who looked after the forest fires, for a couple of months during the summer. At present there is very little pulp wood shipped as it is all manufactured in the province.

The export value of spruce and pine deals is estimated at about \$10,000,000 per annum. He estimated that about 100,000 cords of wood are cut in the province.

Professor Jeffrey, of Harvard University, lectured tonight in the Normal School on Forest Trees and Their Uses. Hon. Mr. Sifton presided and Lord Minto was present. It was learned at the militia department to-day that the government would insist on the full penalty for the offences which are charged against Martineau when his case is called tomorrow.

As to restitution it is impossible for him to do that in full. The government may recover about \$23,000 out of about \$75,000, and that is about the best that can be done, so it is said. It is supposed that the balance was lost in stocks.
