In Kansas City almost ninety five per cent, of the swine received for sale are black; in Chicago about ninety per cent. are of that color, and in Cincinnati, according to L. N. Benham, an authority on swine matters, a white hog is almost a curiosity, so seldom does one appear there. The last issue of the Kansas City Indicator has an article on this subject, in which it states that at the Kansas State fair of 1881, there was one white hog, 18 Jersey Reds, 23 Essex, 350 Poland Chinas, and 368 Berkshires. At the Iowa State fair, of the same year, there were 253 dark hogs, and 110 of the whites. At the Minneapolis fair, 75 per cent. of the swine exhibited were of the dark breeds.

Have the bone well broken; wash carefully to remove bits of bone; cover with cold water; watch when the boiling begins and take off the scum that rises. Stew five or six hours till the 'muscles are dissolved, break the meat small with a fork—far better than chopping—put it in a bread pan, boil down the gravy till in cooling it will turn to a stiff jelly. Where this is done, gelatine is quite superfluous. Add salt, and, if liked, other seasoning, and pour it hot upon the meat; stir together and set aside over night, when it will cut into handsome mottled slices for breakfast or supper.
