Reckless Extravagance

THE AGRICULTURAL WASTE.
 In another part of this issue will be found the way some \$6,170 of the Fund for Agricultural development was distributed among Messrs. Seymour, Downey and Devereaux. This scandal was exposed in the House of Assembly by the Leader of the Opposition, Sir Robert Bond, on Wednesday last, when he showed that the Marquis' Agricultural Policy was working out in the direction of destroying the sound foundations laid in 1908 and of providing jobs for members of the House who were neither scientific nor practical agriculturists.

An itemized statement of amounts paid to these three members of the House of Assembly was furnished by the Minister of Agriculture in answer to a question propounded by Mr. Clapp, the member for the District of St. Barbe's.

LOOKING AFTER THE MUMMY.
 Another scandal was unearthed in connection with the Museum. It will be remembered that one of the charges made against the late Government was that a Museum had been built to house a mummy. Now it appears the Government have made three new appointments in connection with the Museum. The curator has been given a Secretary and two assistants to help him.

CHILDREN AFFECTED

By Mother's Food and Drink.
 Many babies have been launched into life with constitutions weakened by disease taken in with their mothers' milk. Mothers cannot be too careful as to the food they use while nursing their babes.

The experience of a Kansas City mother is a case in point:
 "I was a great coffee drinker from a child, and thought I could not do without it. But I found at last it was doing me harm. For years I had been troubled with dizziness, spots before my eyes and pain in my heart, to which was added, two years later, a chronic sour stomach.

"The baby was born 7 months ago, and almost from the beginning, it, too, suffered from sour stomach. She was taking it from me!

"In my distress I consulted a friend of more experience and she told me to quit coffee, that coffee did me no good. I have since weaned my child and it really dried up the milk."

"So I quit coffee and tried tea and at last cocoa. But they did not agree with me. Then I turned to Postum with the happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of my milk.

"My husband then quit coffee and used Postum and quickly got well of the dyspepsia with which he had been troubled. I no longer suffer from the dizziness, blind spots, pain in my heart or sour stomach.

"Now we all drink Postum from my husband to my seven months' old baby. It has proved to be the best hot drink we have ever used. We would not give up Postum for the best coffee we ever drank." Name given by Postum Co., Battle Creek, Mich.

assistance to look after what the Morris party themselves called the Mummy.

THE TIMBER GRABS.
 On Thursday last in the House of Assembly, in discussing the Bill to amend the Crown Lands Act, Sir Robert Bond said in reference to the action of the Administration:
 "Since the present Government came into power they have approved applications for immense areas of public-so-called timber lands. Since January 1, 1910, they have approved applications for

Fifty Million Acres, or seventy-eight thousand one hundred and twenty-five square miles of timber areas. The fees that were payable upon that vast area under the Act of 1903 amounted to Three hundred and twelve thousand five hundred dollars, but I observe from the statements tabled by the Department of Agriculture that only Fifty-nine thousand two hundred and sixty-four have been paid by the applicants leaving a balance due to the Crown of Two hundred and sixty-three thousand two hundred and thirty-six dollars.

Unless this Bill becomes law Fifty million acres of land now held by speculators and land grabbers must revert to the Crown, because of non-compliance with the law under which the applications were approved. Let this Bill become law and those Fifty million acres may remain locked up in the hands of the speculators and land grabbers for the next three years."

He also declared:
 "The object of this measure is so apparent that I am amazed it was ever brought forward. It is an Act purely and simply in the interest of the speculators and timber grabbers who hold in their possession to-day the whole of the timber areas of Newfoundland and of the Labrador as well."

Further, he says:
 "I can perceive nothing but injustice and inequity running through this Bill. If it becomes law it will work an injustice upon the people of this country, by locking up our public lands in the hands of speculators; by depriving this country of the revenues that should flow from those lands; by fostering and aiding monopolistic combinations which have proved the curse of every land where they have held sway."

The greatest indictment of all, and one to which we direct the attention of the Premier, the members of the Executive Council, the members of the Legislature, His Excellency the Governor and the electorate at large is the following:
 "If it becomes law it will be inequitable, because it will become such by the vote of those members of this House who have a personal interest in the timber areas held under license, and therefore a personal interest in this legislation.

No serious attempt was made in the House of Assembly to meet this challenge. We shall wait to see what the Premier and his colleagues do next week. Yesterday we asked for a Royal Commission to take evidence on oath, as to those interested in the grants of Crown Lands and in the companies who have taken them over. Such an evasion as appears in the Daily News will not satisfy us.

ANOTHER TRIO DO WELL.
 We turn now to another matter, somewhat akin to the feeling of the Agricultural trio, Messrs. Seymour, Devereaux and Downey. It may not be known that there is another trio who have been thriving as well as the new Brussels sprout. The members of this trio have been doing well out of duties assigned to them in connection with the purchasing of the rights of way for the Bonavista Branch railway. The members of this favoured trio are the Hon. C. H. Emerson, M.H.A. and member of the Executive Council; Mr. Goodison, M.H.A., and Mr. Jordan Milley, who was in the Morris team for Twillingate District. In returns furnished to the House of Assembly in reply to questions we find the following entries:

Seals Reported.

Messages to the Marine and Fisheries Department to-day from Tilt Cove say that old seals were seen in the water there. The bay is clear of ice. Nipper's Harbor reports a few schools of old harps seen this week and that 20 or 30 were killed. Experienced sealers, the message states, think the young seals are on the inside of the bay. Ice is in on the shore at La Selve and Fogo.

Nerves Were Exhausted

Wants others to know of her remarkable cure by use of DR. CHASE'S NERVE FOOD.
 Mrs. Martin's condition as described in her letter below gives some idea of the extraordinary reconstructive power of Dr. Chase's Nerve Food. Such cures as this have placed Dr. Chase's Nerve Food where it stands today as the most popular and most effective nerve restorative that money will buy.
 Mrs. Edwin Martin, Ayer's Cliff, Que., writes:—"Before I began using Dr. A. W. Chase's Nerve Food I was in a terrible condition. Dizzy spells came over me and I would fall to the floor in a faint. I could not even sweep the floor without fainting and my nervous system seemed to be entirely exhausted.
 "The use of Dr. A. W. Chase's Nerve Food has built up my system wonderfully so that I can do my housework and washing without any trouble, and I want others to know about it." Insist on getting the genuine Dr. A. W. Chase's Nerve Food, 50 cts. a box, 3 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

 WASHINGTON, Mo.
 That the army now being on the Mexican border has the prospects of an immediate conclusion of the Southern Boundary confirmed at any time as within the next 48 hours the forward may take place.

From San Antonio the train penetrate Mexico at El Paso Pass and La Roca. The train will be landed at Tampico and as the first object of the military expedition will be the crushing of the Chihuahua province. The military expedition is organized as a nucleus for the Mexico city, should such be necessary.

The military campaign is a situation of Foreign Governments which have demanded protection of the United States of the millions invested in Mexico. The United States has also the sanction of Diaz and his Government.

The resolution is a great strength in Mexico and a every government will be established in Lower California. Lower commands Magdalena Bay, the United States would like naval station, being a point of fortification of the Panama Canal's desire to secure Magdalena also furnishes a motive.

WHAT EVERY WOMAN SHOULD KNOW
 DODD'S KIDNEY PILLS THE CURE TO ALL ACHES & PAINS.

Mrs. Vaillancourt adds her voice to the great mass of people who praise Dodd's Kidney Pills as the best friend.

Laford, Alberta, March 10, 1911.—(Call)—That the women of my age are finding in Dodd's Kidney Pills sure relief from those aches and pains more evident every day, and Mrs. Vaillancourt's pills gives her expert opinion on the mass of proof that is before me.

"For three years I suffered with Kidney Disease," Mrs. Vaillancourt states. "I had pain every minute. I only used six boxes of Dodd's Kidney Pills and I am completely cured of all my aches and pains. I am now in perfect health to-day."

Woman's health depends on her kidneys. If they are not in perfect health the impurities are not straining her blood and she cannot be well. She feels it in every part of her body and the result is that she is worn and full of aches and pains. What every woman should know, that there is sure relief and health for her if she uses Dodd's Kidney Pills.
