son offered by Germany to take the place of the phrase containing the word illegal, which was incorporated in the draft of the Lusitania agreement, is now under consideration. It also became known that Germany expresses the hope that it may have an opportunity to co-operate with the States in some action looking toward the freedom of the seas, before the end of the war. This statement is taken in high diplomatic quarters to imply that the Berlin Government sees no occasion to await a cessation of hostilities before settling that issue, as had been previously stated. Germany says in the communication that killing citizens of the States was without intent, and that this method of conducting warfare in the North Sea has been changed out of regard for long standing friendships between the United States and Germany, because American lives were lost.

INCREASING WATCHFULNESS

NEW YORK, Feb. 7. The mystery as to why special police guards were placed on the East River bridges yesterday when the cruiser Washington was steaming up the river, deepened today, when Police Commissioner Woods admitted that the police had orders to watch other vessels. The Commissioner was pressed to explain his remark, but refused to say anything further, except that by 'other' he meant smaller vessels. Another development peculiar to the activities of the New York police, the last couple of days, was the action at Harlem, in stopping citizens and asking them if they would volunteer as emergency patrolmen in case of necessity. Citizens Woods explained this as probably due to the ideas of preparedness now prevalent throughout the country. He admitted that several weeks ago a census was taken in one of the Brooklyn precincts to find out how many citizens would volunteer as emergency patrolmen in the event

Pneumonia Finds Its Victims Weakened By Colds and Grip

This Letter Tells How to Gain Strength After Colds by Using Dr. Chase's Nerve Food—Pneumonia is Prevented. Epidemics of colds and grip are almost invariably followed by much loss of life from pneumonia. When the body is worn down by colds and the lungs weakened from coughing, pneumonia finds an easy victim. Careful inquiry into many thousands of cases of pneumonia shows that this disease usually attacks the person who is tired and worn out, and who is therefore lacking in resisting power. In this letter is described a case in which the patient was in the greatest danger of contracting pneumonia or some similar disease, but fortunately the aid of Dr. Chase's Nerve Food was soon restored to him and strength.

of regular officers being called out of the district on special duty.

FEAR RAID ON KIEL

COPENHAGEN, Feb. 7. The Kiel authorities have published a warning concerning the action to be taken by the population of that German port in case of an aerial raid. Steam siren warning, it says, will give notice of a raid with a series of short shrieks, lasting for two minutes. Similar notice will be given when the raid is over. The inhabitants of the city are urged not to expose themselves as did the Parisians during the recent Zeppelin raid on the French capital.

GETTING BUSY.

WASHINGTON, Feb. 7. The House to-day authorized an immediate expenditure of \$500,000 to equip the Island navy yard, to begin building dreadnoughts or battle cruisers, the first to be constructed in the Pacific coast government yard. It also authorized expenditure of \$100,000 to enlarge the facilities of the New York yard. The Senate has not yet acted.

DEFEAT OF CHINESE REBELS.

PEKING, Feb. 7. The Government to-day announced that its troops had recaptured Ping Shan, northeast of Siam Fu, the far southern part of Sue Chua province, and that a general attack on the rebels at Sium Fu is imminent. The rebels, defeated at Ping Shan, were driven back upon Sium Fu, the announcement stated.

Winter Fishing.

Take "Cascarets" If Headachy, Bilious And Constipated

Best for liver and bowels, bad breath, bad colds, sour stomach. Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Cascarets immediately cleanse the stomach, remove the sour, indigested food and foul gases, take the excessive bile from the liver and carry out all the constipated waste matter and poisons in the bowels. A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your drugist means your head clear, stomach sweet and your liver and bowels regular for months.
