Concert and Lecture.

ADDRESS BY R.W.G.M. PICCOTT.

At Victoria Hall last night Provincial Grand Master, L.O.A., R.W. Bro. Piccott delivered an inspiring lecture before a large and representative audience. The Chair was taken by W.M. Bro. T. Noseworthy, Royal Oak Lodge. Previous to the lecture an interesting musical programme was rendered. This consisted of selections by the C.L.B. Band, a solo by Mr. A. Lawrence, piano solo by Mr. Walker, Cornet solo by Mr. Driscoll, and a recitation by Mrs. Osborne. Each item was well rendered and several encores were demanded. Grand Master Piccott found his subject in the Orange Constitution. "Thou shalt teach men ordinances and laws," and for over an hour he held his audience in closest attention as he spoke to them of Loyalty to God, to King, and to Brotherhood. In his concluding remarks he appealed to those who were not members of the Order to join the ranks as good Orangemen made the best kind of citizens. P.W. Mistress Bastow followed with a brief address, and on motion of P.M.G.W. Gushue, seconded by Bro. R. J. Ivany, a hearty vote of thanks was tendered the lecturer. The singing of the National Anthem brought a very pleasant evening to a close.

Manslaughter Case.

MAGISTERIAL ENQUIRY TO-MORROW.

The preliminary enquiry into the charge of manslaughter preferred against Nelson Duley opens in the Central District Court at 2.30 p.m. to-morrow. The investigation will be conducted by Judge Morris. There are not many witnesses to be examined but it is probable that a lot of technical evidence will be required. W. J. Higgins, K.C., appears for Duley, who was formally charged by Mr. McCarthy, S.M., last night, and is now out on \$20,000 bail. The statement of George Neville, who died as the result of injuries received when a sloop on which he was sitting, had a collision with Duley's car, was taken at the General Hospital by Supt. O'Neill and Magistrate McCarthy, shortly before he died.

The Mystery Man.

Those that had the pleasure of witnessing the exhibitions given by the Mystery Man yesterday in the rooms of the G.W.V.A. were very much amazed at the various stunts that the young man performed, such as pulling the string through the nose, swallowing the coins, sticking needles in the chest, face and ear, and getting clear out of the ropes. Such gentlemen as Judge Morris, Inspector General Hutchings, Drs. Modell, O'Reilly, Paterson, Burden, Messrs. B. B. Stafford, Thistle, J. Snow and Capt. J. Whiffy and newspaper men all claim he is the best that they have ever seen and a wonder. All very interesting.—oct19,11

TO-NIGHT! TO-NIGHT!

Tickets: Ladies', \$1.00; Gent's, \$1.30; Double, \$1.60 (including Supper).
On sale at Hutton's and Grey & Goodland's.—oct19,11

The "Egypt" Judgment.

A sensation was caused by the findings of the Board of Trade Inquiry into the loss of the P. & O. liner Egypt. The Court holds that the heavy sacrifice of life was due to the failure of the master and chief officer to take proper measures to make the crew efficient or to maintain discipline. The master's certificate is suspended for six months, and the chief officer is severely censured. The Company is also held responsible for failure to adopt measures calculated to ensure compliance to want of proper leadership. Even the panic among the Lascars is attributed to want of proper leadership. The judgment is unquestionably drastic; but in view of the evidence and of the serious loss of life the general opinion is that it was the only one which the Court could give. That, however, does not seem to be the unqualified view of nautical men. What seems certain is that if the collision could not have been averted by those in charge of the Egypt, at least its consequences might

BON MARCHE.

have been minimized. Passengers by the great liners are entitled to look for discipline and leadership in such a crisis. The great shipping companies have properly been keen to escape all Government interference in their affairs. If one of the recommendations of the Court is acted on they will have to submit to conditions which may relieve them of some responsibility but must sometimes be a source of irritation. The recommendation says "that the same protection as to the safety of life which is afforded to emigrant ships by means of Board of Trade supervision and inspection should be extended to all foreign-going passenger ships."—United Empire.

Shipping.

S.S. Manoa left Charlottetown at 4 p.m. yesterday, and is due here to-morrow noon.
S.S. Rosalind is due at New York to-day.
Schooner Little Stephanie sailed this morning with a cargo fish for St. John's.
Schooner General Jacobs has sailed from Lunenburg for St. John's with 4-52 qts. fish, shipped by S. Harris, Ltd.
S.S. Canadian Sapper bringing a cargo of flour from Montreal arrived in port at 1 p.m. to-day.
S.S. Sachem, which sailed from Liverpool on the 12th inst., is due in port at 6 a.m. to-morrow.

Positively None Better.

Say It With "GEMS"

Mr. Bellew Replies.

Editor Evening Telegram.

Dear Sir.—I have just read a very personal letter, relating to myself in your issue of to-day's date, signed by Mr. "Michael J. James, Newfoundland Deputy Crown Land Surveyor and Timber Inspector."

I propose once and for all setting this matter by getting the Aerial Survey Company to make a complete photographic survey of the area and I will place the finished survey for public exhibition in St. John's. Further, I am prepared to charter one of the Company's seaplanes, and fly up to the location with Mr. James and any third party of repute, and personally show them that Mr. James' report is a pure fabrication as to the description of the timber and the depth of the water.

I will not take up any more of your valuable space, but will close by saying that I am prepared to show anyone, genuinely interested, my complete file, including the report purporting to come from Mr. James, and which makes very interesting reading. I also have reports from other experts condemning the whole proposition. Should the promised second instalment to Mr. James' interesting letter be published, I shall be glad if you will kindly reserve me space to reply. Yours very truly,

HENRY C. BELLEW.

Balsam Place, Oct. 18th, 1922.

Local Constable Fined.

BOUGHT BOOZE WHERE IT WAS NOT.

The local constable of Torbay suspected that two women of that place, whom he met on the road, had booze in the parcels they carried under their arms. A true sleuth, he immediately proceeded to investigate, recking not the need for scraps of paper such as search warrants. The booze was not, and the women objected to the constable's proceedings, and took action against him. This morning the Magistrate mulcted him to the tune of \$5 and costs.

Modern Office Buildings.

GOING UP IN LONDON.

LONDON.—Nearing completion on the crest of Tower Hill, its own tower rivaling in height the dome of St. Paul's, is the most impressive, the most palatial, the best lighted and probably the most conveniently arranged group of business buildings ever erected in London. It is the new palace of the Port of London Authority, the future home of the administration and staff that control all the docks, the wharves, and the commercial life of the Thames. The buildings cost \$10,000,000, and are acclaimed by architects as one of the structural treasures of London. In the English Renaissance style, and rich in sculptural relief, it is a building of five stories. Each of the four sides faces directly a cardinal point of the compass. There is a frontal portico supported by corinthian columns carried up through three stories. Surrounding the portico is a substantial pyramidal tower in the front niche of which is a great figure of Father Thames, and at the sides are emblematical figures of Commerce and Navigation. Perhaps the most striking internal feature is a central rotunda 110 feet in diameter, with a glass dome.

Abdulla Cigarettes owe all their qualities to the matchless purity of their tobacco. No adulterant is ever used, it is their supreme quality alone which produces the wonderful aroma and fragrance. The utmost in Smoking's happiness lies within reach of all. Newfoundland Cigarette smokers, since BISHOPS Men's Furnishing Dept. are agents for this entirely British Cigarette. Price 35c. package and up.

Londoners Revel in South African Fruit.

LONDON.—As a result of huge shipments of fruit to London from Europe and South Africa, the English markets to-day are flooded and to the joy of the consumer, the fruit is being sold at prices considerably lower than pre-war. Also they are less by half of what they were a few days ago. Although there has been a good market the surplus is still enormous, and large wastage is feared unless the foreign shipments are curtailed. The harvest of fruit in England is estimated to be the largest in a decade, and the quality is excellent.

Lisbon Aroused Over Political Murders.

LISBON.—Two recent political assassinations in the streets of Lisbon have aroused the people of this turbulent city. The authorities are accused of failing to afford protection to individuals, and the newspapers are calling upon the government to do something, else Lisbon will become more and more isolated from the provinces where already the city is regarded as a dangerous center of disorder. The latest crimes took place within three days of each other, and in the heart of the city. Neither victim is expected to live. One was a leading civil revolutionist known under the nickname of "Avante." He is accused of having denounced some of his former comrades who advocated very extreme measures. He was crossing the street at night, near the docks, when an automobile suddenly stopped near him. Two men jumped out, one stabbed him with a dagger, and then both fled in the car. The other victim is Sergio Principe, Lisbon merchant, who is accused of forsaking his old ideals in favor of the working classes, and who is said to be to-day the secretary of the Patronal Association, an organization strongly opposed to the Syndicates and the Unions. Principe also was stabbed while walking on the street in front of his store, and his assailant escaped. Both men had received letters of warning, written in blood, and signed "The Red Legion."

Grand Dance at the Ropewalk Recreation Club, Friday night, October 20th.—oct19,11

School Conditions in Russia.

SHOW LITTLE IMPROVEMENT.

MOSCOW.—Russian children have started a new school year with little prospect of better conditions than they endured during the revolution. In the Siberian district the indebtedness of the government to the teachers for salaries has reached the sum of over \$5,000,000,000 rubles, says a recent report to the district Soviet. This is a mere fraction of the total amount due to instructors in salaries. In some districts teachers have not been paid for many months, and the officials have even ceased to keep account of the arrears. The lot of Russian school teachers has been a hard one. In the villages they have been somewhat better cared for than in the cities because the peasants have taxed themselves to contribute to the necessary expenses; have themselves cut wood for the school fuel, and have repaired many school houses. In the cities the schools have been left to governmental care. As a result of these conditions many teachers are turning to other means of earning a living. The plan of the Communists for a free and unified school system is having hard sledding. Decree after decree has been passed forbidding the collection of fees from parents for their children's education, but local school authorities from time to time make "assessments" upon parents for the various expenses involved in maintaining the schools.

"THREE WEEKS"—Three weeks from to-night the Newfoundland Highlanders Dance will take place in the Cadet Hall. Limited number of tickets. Admission by tickets only which can be procured from members of the Brigade. Purchase yours early and avoid disappointment. oct19,11

Smart sports hats are being made of the new jewelled ribbons. Also, a new pleated straw ribbon is used for making small cloche shapes, the trimming being a cluster of knotted fur tails.

Extract from the Montreal Daily Star:—

WELSH HARD COAL HOTTER THAN U.S.

Less Ash and Much Better Heat, Says Ottawa.

GREAT DIFFERENCE

Six Tons of Welsh Give Same Heat as Seven Tons U.S. Coal.

OTTAWA, Sept. 16.—That the Welsh Anthracite delivered already in Ottawa has a much lower ash content and a much higher heating value than American anthracite received in this country for the past few years, that it is a true anthracite but breaks easier on handling and produces more fines than Pennsylvania anthracite coal, are the summarized results of an analysis of samples of Welsh coal submitted to John McLeish, director of the mines branch of the Dominion Government for testing. The report of the analysis is signed by R. E. Gilmore, chief engineering chemist, and B. F. Haanel, B.Sc., chief of the division of fuels and fuel testing.

An equal quantity of the lump and "fines," or dust, as some Ottawans who have received a delivery of the Welsh anthracite are disposed to call it, were submitted to the director of mines for testing. From the analysis given and from conversation with an official of the testing branch, it is claimed that the fines have excellent heating properties and should be extremely serviceable for the purpose of banking furnaces.

From further tests made it is seen that compared with Pennsylvania anthracite such as Ottawans have been used burning the Welsh anthracite has practically 10 per cent. less ash and about 10 per cent. more fixed carbon. The British thermal unit is the amount of heat required to raise the temperature of a pound of water one degree. Under this test it is found that the calorific value of the Welsh anthracite is given as 14,880 as compared with 13,490 for Pennsylvania anthracite "as received," or 15,200 for Welsh as compared with 13,000 for Pennsylvania when dried at 105 degrees Centigrade.

According to these tests therefore the Welsh anthracite has from 17 to 19 per cent. more heat producing properties than that from Pennsylvania, so that six tons of Welsh anthracite should produce as much heat as seven of the Pennsylvania coal.
