000 common stock of the Canadian Transports Limited, and also to pay an annual subsidy of £100,000 yearly for ten years. The new company, besides building ten new ships, would take over ten merchant marine vesseis for £400,000 payable in shares in the new company. According to McLeod's scheme, the steamers would run regularly from the Pacific Coast ports of Vancouver and Prince Rupert to the United Kingdom and Continent of Europe, and when necessary would call at United States ports. HURON VALLEY FLOODED. DETROIT, Mich., April 14.

Scores of families in the valley of the Huron River, between Flat Rock and Lake Erie, were driven from their homes early to-day when a dam at the lower power plant of the Ford Motor Company, at Flat Rock, burst, and released millions of gallons of water into the valley. No lives have been lost so far as could be learned although many houses built below the level of the dam were inucdated.

MACMILLAN HAS BIG PRO-GRAMME.

WASHINGTON, D.C., April 14. Under the final programme approved to-day, the MacMillan Arctic expedition will undertake exploration of several millions of square miles of territory, believed to have been hitherto unknown to civilization. In addition to this vast territory between Alaska and the North Pole, the expedition with navy planes, will cover the central portions of Ellsmere Island, Cape, the entire interior of Baffin Isand and the northern Labrador, Commander Donald B. MacMillan announced a base would be established at Etah, about 700 miles from the Pole, an immense field selected for exploraa start from Wiscaset, Maine, about

PAY-BOOKS OF CLAY. Numerous objects were found during removal of the upper strata at the convent site to reach another big range of buildings 6ft. or 8ft. belowlittle copper watch-days buried beneath the floors to protect the house, fragments of sculpture and inscriptions, vases of bronze and clay and terra-cotta figurines. The most interesting discovery was a hoard of clay tablets preserving records of the business affairs of the temple over a space of two or three years about 2200 B.C. Mr. Woolley says:

There are inventories of the lands attached to the Nannar Temple, lists of the rent and tithes paid by the farmers on those lands, little clay receipts for every pound of butter or pint of oil, or head of sheep, that was brought in to the great storehouse, and monthly and yearly summaries of all those receipts; lists of the payments into the language.
