TO CAPTURE VICTORIA PARK A Mimic Battle on Wheels Suggested

Exhibition.

The wheelmen of the city are enthusiastic over a novel oxhibition which they talk of giving in about two weeks' time. The idea was suggested by Mr. A. A. Vernon, a British ex-military man and a cyclist. The plan entails the siege and defense of Victoria Park in this manner:

The army on wheels will compist of about Exhibition. The army on wheels will consist of about 90 men, 60 of whom will be detailed to attack and 30 to defend the citadel or park.

attack and 30 to defend the citade or park. The besieging party will encompass it round about, and will be distinguished by colors worn on the wheels. It will be their duty to try to break through the ranks of the defenders and reach the center of a chosen protein the work. This the defense will spot in the park. This the defense will endeavor to prevent them from doing, and will strive to secure the colors on the op-posing wheels. When a rider loses his

prisoner.
This mimic battle on wheels ought to prove very exciting, and may be witnessed by crowds on the outside of the park. The hoys propose to start training at once. The exercise will be invaluable.

THE SHERMAN SILVER BILL. Surmises as to the Probable Action of

Congress.
Washington, D. C., Aug. 26.—The pre vailing impression as to the probable action of the two Houses is that the vote on the Wilson Repeal Bill will be taken on Monday in the Houses, and that the silver purchase clause of the Sherman law as far as that body is concerned will be wiped out of existence.

The bill will then go to Senate where it will be pigeon-holed. The Senate will go

The bill will then go to Senate where it will be pigeon-holed. The Senate will go right along talking silver as it has been doing for several days past. It will do this for two weeks or longer before a decision is reached. The bill which will be passed will be the Voohees Bill, not the Wilson Bill.

Then the Voorhees Bill will go over to the House, there it will doubtless be acted upon with little delay. The silver men may insist on some talk, but if there is a prospect of a contest the closure will be specifily applied and the bill will be passed, and will then be ready for the President's signature.

The Voorhees Bill only differs from the Wilson Bill in making a declaration in favor of bimetalism.
