ODAYS MARKET

LOCAL MARKET.

LOCAL MARKET London, Monday, March 12. The roads are in a muddy state, and in many places there is no snow, while in other spots there is too much snow, therefore, there will not be any great improvement for a few days. Considering the state of the roads there was quite a large attendance of farmers, and the buyers were out in force and

were in a buying mood, consequently the market was a brisk one. Grain-Oats sold quite readily at \$1 55 and \$1 58 per cwt. Wheat, 92c

per bushel. Hay and Straw-About a dozen loads of hay was offered and the demand was brisk, and those who had the hay were compelled to pay from 50c to \$1 per ton over yesterday's Sales were made at \$16 50 and \$17 per ton. No straw was of-

a scarce commodity and prices were firm at 30c to 32c for pound rolls. Crocks sold at 30c. Eggs were cheaper at 23c and 24c per dozen whole-

Vegetables and Roots - Potatoes were exceedingly scarce at 95c to \$1 per bag wholesale, and it will not be a surprise if prices do not go higher. Rhubarb was scarce at \$1 per dozen. Lettuce, radishes and green onions, Amer. Locomotive .. 36% 40c dozen.

There was no change in prices of poultry, the supply was light. Dressed Hogs -- Nearly 100 carcasses offered, Sales were made in nearly every instance at \$7 per cwt. Veal was 50c per cwt lower, and sold at \$7 50 and \$8 50 per cwt. There Col. Fuel & Iron.... 18 was no other change in butchers' meat.

Apples were dull and prices were

BARS DEATH PENALTY

Ohio Senate Passes Bill Providing for Life Imprisonmen Only.

Columbus, Ohio, March 11. - The Senate today, by a vote of 22 to 9. passed the bill by Senator Schmidt, of Cuyahoga county, abolishing capital punishment. The bill contains simply providing that all persons convicted of murder in the first degree shall be sentenced to imprisonment for life.

A similar bill passed the Senate two years ago, but was defeated in the House. That bill made an exception of prisoners killing guards or officers, the death penalty being reserved for that crime alone.

KILLED BY FALLING TREE.

Tillsonburg, March 11. - William Holmes, of Toronto, while working in the woods near here was killed by a falling tree.

CENTRALIA.

Centralia, March 11 .- An exceptionally fine concert was given in the Methodist Church last night, when a choir of 40 volces furnished a number of grand choruses. Mr. Nelson Hicks, the choirmaster, who is an able and efficient leader, has had his choir in training for several months, and the results justified fully scalded, but their injuries are not his course and speak volumes of praise for his ability and service. The Imperial Quartet, of London, also rendered much named Brown, of Sarnia. appreciated service, being encored every time they appeared on the programme. Many are the regrets expressed at the accident. An inquest will be held tomorfailure of one of our business men. It row. is hoped that arrangements will be made with his creditors by which he may be able to continue the business.

PRODUCER GAS AT HALF.

(Continued From Page One.)

successfully, with water produced

A Proposition,

"I would like to furnish you with definite proposition for your street lighting and civic lighting. That is power. I can furnish you with lights malicious attack." for your streets for \$30 a year and probably less.

"I might give you many proposition to sell power.

"You are promised power for lighting at 5 cents a Kilowatt hour. I am prepared to build a plant of any horsepower, over 250 horsepower, and sive you power at the switchboard, TOSSES BABY OUT WINDOW including cost, sinking fund, depreciation, and everything else, at 1 cent a Kilowatt hour."

Comparative Figures. Mr. Reid then went into a compar

ative estimate of the cost of Niagara power and producer gas. If the city contracts for 5,000 horse power, it becomes liable for 75 per cent of this, or 3,750 horsepower. At \$23 per horsepower this would

mount to \$86,250. The operating expenses of power would be at least \$15,000. There would also be the interest

plant at 41/2 per cent, amounting to The plant would depreciate. Estimate that at \$11,750.

In addition there would be losses 641/4 by storms, etc., amounting to 11/2 per kets away, found that the core was 33% 72% 71½ 72 | cent, or \$3,500 per annum. This would total \$131,000 for 3,750 82% horsepower, or \$35 per horsepower, all harmed. 421/2 on a 24-hour basis, and with every bit of power sold. 181/4

Cost to Consumer. The consumer must figure on a 25 24% the motor. He must buy 125 horse-30% power to get the 100 horsepower he 13% needs.

That would increase the cost 25 per cent, or make it \$43 75 a horsepower 128½ to the consumer. Mr. Read then figured the cost of 1217/3 5,000 horsepower. At \$23 per horse-1241/2 1253/4 power, it would cost \$115,000.

The same incidental expenses add-34% ed to it, as in the former case, would bring the total expenditure up to 981/2 \$159,750, or \$32 per horsepower. The highest load factor of this will 1171/8 not exceed 60 per cent. Adding 40

27% per cent to this would bring the price 881/4 to \$45 per horsepower. The consumer again has to figure 17% on a 25 per cent loss, and that would 73 make power cost him \$56 per horse-

"Now, that is what the consumer 49/2 for the peak load, and you will have to pay for it whether you use it or not. All the consumers figure on a ten-hour basis, and there will be few

the consumer must pay for the extra for two days, refused to give the meas- elections disastrous to Government, and

Half the Cost.

"Now, I will guaratnee to furnish the city of London power for half the cost of Niagara power. I figured it out to cost you \$45 per horsepower. and I stand prepared to give the power at half that cost.

"We can put in a plant that will supply users of power such as is contemplated by the hydro-electric commission, and it will be much more easily operated and maintained. would be constructed in units, and as the peak load of power was reduced these units would be cut off, saving Sir Henry Campbell-Bannerman, the operating expenses and such."

Burn Garbage.

"In our plants we can consume your garbage, and develop power from that. If you have not a garbage system now, you soon will have to install one and that will cost you considerable money to maintain.

"The garbage is consumed in our gas engines in many large cities. And, of course, this will cheapen the cost of power. My figures are based on the best coal at \$7 a ton, and not on the cheaper fuels."

"What would a plant cost for street Stevely.

Civic Plant.

"I think a plant sufficient for your needs could be installed for \$50,000, and power could be generated for \$20 to \$22 per horsepower on a 50 per cent load factor. A plant of 750 horsepower capacity would be sufficient." Mr. Reid asked for the opportunity restrictions or qualifications, him will probably come up at the council, and a communication from next meeting of the council.

He further declared that the lamp per annum, and burn anthracite pea coal at \$6 a ton.

KIPLING ON CANADA

London, March 11.-Rudyard Kipling opens a series of articles in the Morning Post as a result of his re- matter, but the belief is expressed cent trip to Canada. "Our Elder that the negotiations may be pro-Sister," having intimated that he tracted. went to the Dominion to escape the a few weeks, he points out that Can- agree to the demands of Japan in concepted by Japan, and she has been able ada has to deal in the lump with to sustain her claim of justification in most problems which affect other of Japan that a closer watch will be making the seizure on the ground that parts of the empire separately, but kept upon exportation of arms. the Tatsu Maru discharged her cargo it is tacitly conceded that she takes the lead in the imperial game. Having seen the goal more than a de-

Kipling outlines the conversation between himself and Canadians in sounds a little mad, remembers the mother country throughout is con-

sidered as a lady in violent hysterics." ALFONSO WAS IN PERIL

Where Spanish King Embarked.

London, March 12 .- A dispatch to

At 4 o'clock in the morning a loud explosion was heard all over the town. Everybody believed it was a gun on one of the warships, and therefore little importance was attached to it. An inquiry showed, however, that a bomb had been placed under a pavilion erected at the landing stage where young man, was doing well in business, King Alfonso was to embark in his launch to visit the Austrian squadron. The bomb was loaded with a powerful explosive and pieces of iron. Had a crowd of people been on the spot when it exploded undoubtedly many lives would have been lost. The correspondent indulges in much pathos in telling the story, and ingenjously intimates that the only damage done was to a drain pipe in which

the bomb was concealed.

NOT SO ANXIOUS

Against China Is Subsiding.

Tokio, March 12. - The demand of poison in the Warnock viscera," was the press and the public of Japan for the announcement of Prof. W. H. aggressive action against China in connection with the Tatsu affair is subsiding. The Asahi, one of the jury, empaneled at the instigation of most influential newspapers, urges the the Attorney-General to determine the Government to consider seriously the cause of the death of the late Ottawa moral side of the case and not to press horseman, returned an open verdict China to extremes. It thinks that tonight, that the cause of death was Japan should exercise greater vigilheart disease, brought on by oxer-exance concerning the export of arms Dr. Horton and Dr. W. E. destined for the use of insurgents Harding, who made the post-mortem, against a friendly Government. This presented a signed statement to this view is gaining ground, and it is un-London, March 11.—The health of The premier has practically isolated effect, and were the only witnesses derstood that the minister of war, Saito, minister of marine, are opposed to aggressive tactics. The British minister, Sir Claude Macdonald, held a lengthy conference with Foreign Minister Hayashi yesterday. The sentiment gathered from the foreign office supports the suggestion that Great Britain is urging an amicable settlement, and dwelling upon the moral obligation of Japan towards

CUBAN STRIKE ENDS

Cigar Factory Hands and Employed Settle Their Strike.

Havana, March 12.-The strike in four cigar factories, which was begun in January in consequence of protests made by the Cigarmakers' Union against the reduction in the number of operatives employed has been settled and hundreds of workmen are now applying for and receiving employment. Two other factories are expected to resume today. In consequence of the reports of widespread distress among the field laborers in Bomb Was Placed Under Pavilion the western part of Pinar del Rio, who are without employment at the end of the tobacco harvest, Governor Magoon has ordered the extension of roadbuilding for the purpose of afthe Telegraph from Barcelona gives fording relief. From the sugar disthe following version of the bomb in- tricts throughout the island come general complaints of the scarcity of laborers, as a consequence of which it is predicted thousands of acres of cane will remain uncut, resulting in a great reduction in the sugar crop.

JURY DISAGREED.

Montreal. March 11. - The trial of an Italian named Fatzari, on a charge of the attempted murder of one of his compatriots, was concluded in the court of King's bench this morning with a disagreement of the jury. Only one of the jurymen held out for not guilty on the ground that the evidence of the man whom the prisoner attempted to murder was unsupported by other evidence than his own

Women sometimes can eventually tame brutes of men, but they get badly bitten while they do it.
