TORONTO, Feb. 25.—Union Stockyards

—The run here today totalled 135 cars, with, with 2,09s head of cattle, 147 calves, 177 sheep and lambs 1222 hogs are 187.

Trading on the market was active, and cattle prices good and steady, although no higher than last week's closing quotations. The only live stock that went up was hogs, which mounted to \$9 25, fed and watered, and \$8 90 f. o. b. The cattle trade was fairly active, especially, as is usual, for choice butchers, one small lot of which reached \$6 90, this being the highest price reported. Medium butchers' cattle were fairly well received, in spite of the large run of over 2,000 head. The average price paid for cattle of good to choice quality ranged between \$6 and \$6 50. Choice fat butchers' cows were steady to firm from \$4 25 to \$5 25. Because of the light run (177), sheep and lambs continued very strong at last week's closing figures. There was no noticeable change in prices for calves, which held firm at \$9 25 as the top quotation. The commission men had intended paying \$9 for fed and watered hogs, but prices, due probably to the rather.

Montreal Suffragettes Considering March in Emulation of American Sisters.

Montreal, Feb. 25.—Some of the ladies of the Local Woman's Suffrage Association are talking of a suffrage tramp from Montreal to Ottawa to present a petition in favor of the equal franchise to the Right Hon. R. L. Borden, according to reports in circulation here today.

The women believe the march of the Inited States army of suffragists from New York to Washington has been quite a success. Although papers have featured in their headlines the fact that the army was at times slightly footsore, and rather weary, they believe with advertising men "that very knock is a boost," and see only he advantages derived from the free

dvertisement given the cause. The march from Montreal to Ottawa would be a little less than a week's tramp, and although the roads would not be too good in the spring, when the march could take place, the weather would be pleasant and the marchers could be equipped with heavy boots and canes to help them on their way. On the road they could distribute pamphlets and give lectures.
