RAIN KEPT MANY Relief for Catarrh Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

How the Remedy for Catarrh Was Discovered.

THIS terrible disease has raged unchecked for and throat are treated by an effective local remedy applied years simply because symptoms have been treated while the vicious germs that cause

the trouble have been left to circulate in the blood, and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly, he could not prevent the trouble

beginning all over again. On test cases, he could direct influence completely remove all signs ubon the muof Catarrh from nose and of the body and cures the disease by removing the cause. throat, but in a few weeks they were back.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat, the real cause of the disease was overlooked and in a short time the Catarrh would return stronger than ever. Mr. Gauss has gone way ahead of the ordinary methods of treatment and has provided a

Kills the Germs in the Blood and immediately gives re-

'He perfected the New Combined Treatment, since admitted to be the logical, sure, scientific method.

Reese Jones, of Scranton, Penn., says that after trying many other treatments, he used this new method and—"My nose is now entirely clear and free and I am not bothered by the disease any more. The New Combined Treatment is worth its weight in gold."

Temporary relief from catarrh may be obtained in other ways but the New Combined Treatment must inevitably be

lief to the nose and throat.

ways, but the New Combined Treatment must inevitably be accepted for permanent results.

Sarah J. Cape, Mount Pelia, Tenn., says, "I suffered the pains and distress of catarrh for thirteen years and needless to state, tried nearly every method. But by your new method I was completely cured and you cannot imagine the joy that has come over me."

Trial Treatment FREE

This new method is so important to the welfare of humanity, so vital to every person suffering from any form of catarrh, that the opportunity to actually test it and prove its results, will be gladly extended without one cent of cost.

A large trial treatment, with complete, minute

directions, will be sent free to any catarrh-sufferer. Send no money, take no risks, make no promises. Simply clip, sign and mail the coupon and the test package of the New Combined Treatment will be sent fully prepaid, together with the columble book on Catarrh.

Parkhill, Sept. 26. - Between three

and four thousand people visited the

Parkhill Agricultural Society's fall ex-

hibition today. The attendance un-

doubtedly would have been greater,

but throughout the morning rain fell

much easier than was anticipated.

standpoint the fair was a success. Per-

might be provided, but the present ar-

bition was the ten-mile road race open

to athletes from every part of the

country. From the crack of the start-

er's pistol it was a spectacular event,

rangements proved satisfactory. Some Fine Racing.
The principal feature of the exhi-

It was Campbell's first attempt at ten miles, two miles being his standby, and taking this into consideration s showing was more than creditable.

Dellow's time was 1 hour and 10 sec-The track was a trifle heavy, or the

ace would have been run well within

Speeding Events. On the race card was a farmer's trot or pace, and a potato race on

horseback. An open trot or pace was scheduled, but no entries were forthcoming.

amusement. It was the old trick of the The Farmer's Race.

The farmers' trot or pace resulted

First heat-1 W. Eagleson. Decker, 3 F. Rheder. Time 1:201/4. Second heat - 1 W. Eagleson, 2 J. Decker, 3 F. Rheder. Time 1:2034. Third heat-J. Decker turned the ables and captured first honors. Eagleson came second and F. Rheder third. Time 1:18.

In the fourth heat, J. Decker's fast ittle black again crossed the scratch little ahead of its adversary. Time-1:171% In the final heat a dispute arose over the start, and W. Eagleson forfeited to Mr. Decker. While the entries in the races were small, the competition was

It was regretted that entries could not be found for the open trot, which is always an exceedingly interesting number on a racing program. Excellent Exhibits.

As usual, the quality of the exhibits was unexcelled. There have been larger entries in the several classes, but never ave the judges placed the awards or

etter exhibits.

Horses, particularly, were a fine lot solve a fine lot so of Dashwood. Second on the list were the roadsters. That the country around Parkhill produces some excellent horse flesh was ably demonstrated in this well-filled and xcellent class.

Agricultural horses were a close third, North Pole.

ome massive beasts being shown in fin Splendid Cattle.

The showing of cattle was not as large as formerly, but the quality was unsurpassed. In Durhams, Messrs. R. and S. Nicholson, of Silvan, the large exhi-pitors and breeders, were well repre-sented by a winning string. Herefords ere enthusiastically represented by ome fine specimens, bred and owned by ohn Hall. Holsteins were a good showing, although rather few in number. J. R. Johnson, of Silvan, was the largest exhibitor of this variety. exhibitor of this variety.

There was no showing of Jerseys this year, which was rather surprising as there is some fine stock on the nearby farms. Grade cattle were popular as ever. Messrs. J. McLeod and A. Ross showed the majority of this kind, and carried off their share of the laurels.

Sheep were a small entry. R. and S. Nicholson swept the decks in almost all classes, with a large entry. Swine also were seen in small numbers, but were very good specimens. There were some was well known, especially for his success at fall fairs in the root and veggetable line. It was an Oddfellows' furneral, Mrs. McCracken and a large family of adults survive. Mr. McCracken was in his 73rd year. He had been till for the past year with acute indigestion.

The funeral of Mrs. Lachlan McNeil, of the 14th concession of Grey Township, was held to Cranbrook Ceme-

exhibtor and prize-winner Lots of Poultry. The poultry exhibit was good, but the cooping facilities were inadequate, the coxes being placed in the open, and exposed to the weather. There were There Brahmas, Cochins, Langshans, Rocks, white and barred, Wyandottes, and Rhode Island Reds. In the English classes Dorkings and some fine Orpingons were conspicuous. Leghorns also made a good showing, and Minorcas were by no means in the background.

Turkeys and ducks were a fair Turkeys howing.

The lion's share of the prizes in poultry was won by Messrs. A. E. Doan, W. C. Wilson, R. Harvey and C. L. Foster.

The Ladies' Work.

melons, onions, potatoes and pumpkins were the most abundant showing, and together made a very creditable exhibi-The fruit exhibit, consisting of apples The fruit exhibit, consisting of apples, pears, plums and grapes was average in size, but prominent in quality. The leading exhibitors in fruits were: Messrs. John Hall, George Dignan, J. F. Elliott and James Hall, who annexed the lion's share of the prizes.

Special mention should be made of the deliver class including cheese and butter

Special mention should be made of the dairy class, including cheese and butter. The prizes in this class went without exception to Mrs. Wm, Hill, Nor must the excellent showing of ladies' work be overlooked. There were the finest embroidered tea cloths, centrepleces, scarfs, doilies and cushions that have been seen for some time, while the crochet handbags, collections of Battenburg work, netting centre-pieces and Only About 4,000 People Came burg work, netting centre-pieces and Bulgarian embroidery were unexcelled. Other work was babies' dresses, Hardan-ger blouses, fancy pillow cases, and cot-ton lace crochet work were exceptionally A TEN-MILE ROAD RACE good. To Mrs. John McLaughlin, Mrs. W. W. Falt, Mrs. (Rev.) A. Graham, Mrs. S.

Talt, Mrs. (Rev.) A. Graham, Mrs. S. Pride and Mrs. James Phelan won the majority of the prizes.

Arts Department. In the arts department there was a great variety of really meritorious work by local artists. Landscape and marine scenes, animal, flower and fruit pictures, and some fine portrait work, besides scenes done in water colors, made up the exhibit. Sepia, crayon and panel draw-ings were exhibited by pupils of public and high schools. The entire exhibit was oticeably attractive for the appropriate ness of the individual works, and for the realisticness of the portrayals of scenes canvas and paper

TOO MANY FARMERS ARE USING INFERIOR SEED

Tests by Agricultural Experts Show That Low-Priced Seed Is Purchased.

Ottawa, Sept. 26.—For the first time | House a real test of the purity of seed used by Canadian farmers is being carried Furnishings on by the pure seed branch of the Dominion department of agriculture. During this season agents of the department selected several thousand samples of all kinds of seed from all parts of the Dominion.

Already over 2,000 tests have been made, and the results show that as a rule very inferior seed is used by the Canadian farmers.

It has been found that only about 20 per cent of the farmers are willing to pay the price for good seed, and also the difficulty of securing good seed prevents improvement.

It is claimed that the use of Western Canada oats for seed in the east this year has greatly added to the noxious

Grading in Winnipeg does not call for the complete elimination of noxious weeds, and when in addition No. 1 feed oats were also used for seed, weeds were scattered throughout the east. Five tests of some of the seed used show that the noxious weeds-wild oats and flax-ranged

There are now being sent to each provincial government samples of purse seed of 25 grasses and 75 samples of noxious weeds. These will be placed in the secondary schools for instruction purposes. This department is also encouraging the production of Canadian vegetable seeds. Hitherto all these seeds have been imported.

By encouraging home production by grants about 50 seed growers are now producing native field and root crop seed. To get the best resulthe seed must be climatized, and in a few years this work is expected to result in improvement in field and root crops, and an extension of the area in which the more tender vegetables can be grown.
