Kelvinator Saves Money These Three Ways

Hundreds of Landon homes can well afford to install Kelvinater, the electric refrigeration, because of three main economies.

In the first place, it fits right into the refrieerator you now have. That is saving No.

Secondly, Kelvinator refrigeration is far more efficient. Its dry, even cold keeps food better and longer. That is saving No. 2.

Furthermore, Kelvinator eliminates the ice bill. That is saving No. 3.

It is obvious that Kelvinator is a paying. and a saving investment.

A talk with any Kelvinator ewner, or investigation at our showrooms, will quickly convince you of that. Descriptive literature gladly sent on request.

TF YOU do not keep clean internally L your looks and health are undermined together. A clogged intestine breeds poisons that reach every part of the body. These poisons ruin the complexion and undermine health. Constipation brings on such ailments as headaches, bilious attacks and insomnia, each of which saps your health and vitality.

Avoid Laxatives—say Doctors

Laxatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition.

Medical science has found at last in lubrication a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage through and out of the body. Nujol is not a medicine or laxative and cannot gripe. Like pure water, it is harmless.

Take Nujol regularly and adopt this habit of internal cleanliness. For sale by all druggists.

S Your Shadow IN THE WAY?

HOME half lighted is like a home half warm-poor economy at the high cost of comfort. Particularly when light costs so little.

MAZDA

LAMPS

Shadows, for example, are needless annoyances. White or frosted Edison Mazda Lamps, in portable floor or table lamps, overcome this condition, and greatly increase the cheerfulness of your rooms.

To obtain the best results, choose lamps with wide shades that throw the light upward as well as downward. In ceiling fixtures of pendent or shower type, put 50-watt white or frosted Marda Lamps or lamps if the fixture is a translucent bowl.

> Near you is an Edison Mazda Lamp store, recognizable by the yellow and blue cartons. There you can obtain real information about good lighting.
