

The perfect sound-reproduction
which established the supremacy of the Edison Phonograph lies in the point of contact between the Phonograph and the Record—the sapphire reproducing point. This is the point that conveys the sound from the Record to the audience. And right here is the secret, the perfect lifelike tone of the Edison instead of a metallic, nasal tone.

Edison Phonographs

PATRIOTISM AND CIGARETTES

It is a startling story that comes from Ottawa in the form of a report on recruiting for Canada's naval service. Of the young men in Nova Scotia and British Columbia—fine lustrous fellows in appearance—who wished to join the naval service seventy-five per cent. failed to pass medical inspection. In most cases rejection was due to cigarette heart or moving picture eye. The cigarette heart is something with which medical men and all interested in the athletic training of the youth of the country are familiar. Nicotine poisoning, and especially the variety of nicotine poisoning following the use of cigarettes, is steadily on the increase. In every factory, store and office one may see lads with the tell-tale yellow stains on the first two fingers of the right hand. Not for them are Marathon triumphs, the fierce joy of a Rugby championship game or a place in the Henley eight. The stains on the fingers are but the outward signs of the havoc wrought by the cigarette habit, havoc so great that it has

ago it was suggested in the House of Commons that a bill to prohibit the use of cigarettes was almost as necessary as one to forbid the smoking of opium. Canada's naval force may be small at first, but it must have men of the best available quality. The cutting out of rations of grog and the weeding out of the youth with the cigarette heart and the moving picture eye afford evidence that the personnel of the service is to be maintained on the highest possible standard. But what about the seventy-five per cent. of the youth who come back to civil life? Are we to go on producing the cigarette heart indefinitely? Is the moving picture eye to take a permanent place among the diseases of the modern world? It may be all right to make war impossible by raising a race unfit for hardships and exacting tasks, but peace also has its duties and its dangers. Every good Canadian should set himself against the growing use of cigarettes by the youth of the country.—Toronto Globe.

experience assisted on Round in losing to Ad W. The day right in New Y. The son was in bad shape, but when the western fighter made good strong men. However, the champion, and in Hogan got gay and happy.

MILITIA TO BE REORGANIZED

The Maritime Provinces Districts to be United Under One Command.

Ottawa, Ont., April 20.—It is announced in the militia orders today that in order to reorganize the militia on a divisional basis the four commands in Eastern Canada will be reconstituted so as to form six divisional areas, providing six infantry divisions and four cavalry brigades. The change affecting the maritime provinces is that by which the sixth divisional area replaces military districts numbers 8, 9 and 12 comprising the provinces of New Brunswick, Nova Scotia and Prince Edward Island with headquarters at Halifax. To each divisional area will be appointed an officer to command the infantry division to be organized in that area and in addition to command and administer such other units as may be quartered in the division area.

THE DUTIES OF TEACHERS AND PARENTS

(From the Lawrence Sun.)
Teachers have too limited knowledge of the home life of the child; parents, too limited knowledge of the school life. Many parents feel that they are doing their whole duty towards their children and the school by occasionally visiting the school in which their child is a pupil. This is well, but it fails to accomplish the desired end, that of placing the teacher, the pupil and the parent in a harmonious relationship. It is much better for the parents to call upon the teacher for the express purpose of getting acquainted with her and to help the teacher to get acquainted with her child.

I. O. O. F. ANNIVERSARY

The membership of the Independent Order of Oddfellows throughout the world celebrated the ninetieth anniversary of their order last week. It was on April 23, 1821, that the order was founded in Baltimore by Thomas Wilkey and five associates. The total membership now exceeds 1,500,000 besides the women's auxiliary. Last year the fraternal paid relief benefits amounting to more than \$5,000,000.

LOST HIS UMBRELLA

A man left his umbrella in the stand in a hotel recently, with a card attached, bearing the inscription, "This umbrella belongs to a man who can deal a blow of 250 pounds weight. I shall be back in 10 minutes." On returning he found in its place a card inscribed thus, "This card was left here by a man who can run 12 miles an hour. I shall not be back."

Salvia Hair Tonic An Ideal Hair Dressing

SALVIA HAIR TONIC is compounded on the most scientific principles, and nothing on the market to day can compare with it. It accomplishes so much more than the ordinary tonics and does it so quickly that users are astonished. SALVIA kills the dandruff germs and eradicates dandruff, stops falling hair, itching of the scalp and splitting hairs in two weeks or we will refund your money. SALVIA gives a fascinating lustre to women's hair and makes it beautiful; it is the daintiest and most refreshing hair dressing that science has produced, and has not a particle of grease or stickiness in it. SALVIA costs 50c at your druggist. The White Drug Co., Special Agents.

EX-CHIEF LAWSON GOES TO SPRINGHILL

Ex-Chief Policeman Lawson, of Chatham went to Springhill N. S. last week to accept a position as a provincial policeman there.

Concrete Sidewalks are Safe, Slightly and Everlasting

LUMBER used in damp places and on wet ground—as, for instance, in walks—has a very short life. It requires almost constant repairing and, in a few years, needs replacing.

Concrete, on the other hand, improves with age, and the very dampness which destroys lumber calls out the best qualities of the cement by making it harder and harder—until neither time nor traffic can affect it.

The best of wooden walks keep getting out of repair, and are a continual menace to life and limb. They are also a frequent source of expensive doctor bills and lost time. Then again, they are likely to eat up the original cost

in repairs before they are replaced. Concrete walks are slightly everlasting and safe. They cost less to build and need no repairing nor painting.

Write for our free book, "What the Farmer Can Do With Concrete."

It tells in plain, simple language, how you can save money on farm construction by using cement for Barns, Dairies, Foundations, Fence Posts, Troughs, Feeding Floors, Hitching Posts, Stalls, Silos, Stairs, and so forth. The Book is well illustrated with photographs, plans and diagrams. Fill out the coupon or send a postal card.

TO ORGANIZE ST. GEORGE'S SOCIETY (Union Advocate)

Rev. W. J. Bate has received word that Mr. J. C. Anderson, now of Fredericton, will arrive in New castle in a few days to take steps with Miranichi people in the formation of a St. George's Society. Rev. Mr. Bate who is enthusiastic in the matter, notified the Archdeacon and a large representation is expected from Chatham and other places, when the time comes. Those desirous of joining the St. Georges society will kindly send their names to Rev. W. J. Bate, while Chatham persons may forward their names to Archdeacon Neale or Mr. Snowball.

The objects of the Society are: 1—To encourage and strengthen the spirit of patriotism amongst all of English birth or descent, irrespective of creed or party, and to maintain that spirit of fraternal union and sentiment of race, which should animate all of kindred blood, helping to preserve those distinctive characteristics, traditions and customs which have contributed to make the English pre-eminent the world over.

2—To maintain the recognition and celebration of St. George's Day—the old English Festival Day of St. George—and the anniversary of the birth and death of Shakespeare, April 23rd.

3—To further British Interests by every possible means, and to render assistance in furtherance of all English and Patriotic movements.

4—To promote social intercourse among its members, and to extend aid to Englishmen and Welshmen or their descendants, or their widows and orphans.

800 MEN OUT OF WORK BY FIRE

The large blacksmith and forge shops and the machine shop, and grey iron foundry of the Canadian Car & Foundry Company's Works Amherst, were burned on Thursday. The loss exceeded \$150,000 and threw 800 men out of work.

FRENCH FORT COVE BRIDGE REPAIRED
