Mr. Tarte Fires the First Gun

AND CENSURES THE GOVERNMENT

Sir John Thompson's Vigorous Reply.

The Premier Denied That Any Vindictive Remedial Legislation Was Contemplated. Denied That Anyone Had Been Deputed to Make Terms With Archbishop Tache. That If the Government Attempted to Pass Remedial Laws Before the Legal Questions Were Settled It Would Only Lead to Confusion.

OTTAWA, March 6.—At five minutes to four the order of the day was reached. Mr. D'Alton McCarthy and Mr. Tarte each had his eye fixed on Mr. Speaker, who was calmly contemplating the electrician in the ceiling, and the moment the assistant clerk called "No. 21 House again in Committee of Supply," both the members for L'Islet and the member for North Simcoe started to rise.

The member for L'Islet was the most active and sprang to his feet with the agility of a cat and called the "Mr. Speaker" before the somewhat heavier and slower member from North Simcoe had quite got into an erect position. He sank back and smiled as calmly as possible, while Mr. Tarte flung the floor and began rattling away in French on the Manitoba school question, keeping up his speech until 10 minutes to 6, when he started to repeat his speech in English; but Mr. Speaker thought he was only repeating the same speech and called "No. 21 House again in Committee of Supply," both the members for L'Islet and the member for North Simcoe started to rise.

Who is to blame? After receding Mr. Tarte continued his speech, varying the performance by speaking in English. He commenced by saying that we were faced with a great political crisis, and asked who was to blame for it. Judging from The Toronto Mail, Winnipeg Standard and other newspapers, it was made to appear that the Catholic minority was to blame. He declared that the Manitoba school question had not been fulfilled and he blamed the people of Ontario for it. He quoted from the Confederation debates past speeches by Sir George Carter and Sir George Brown, and contended that the Catholics of Quebec were not narrow and bigoted, but were simply a people who were invited to come down to the Province of Quebec and join in her history.

He invited the member for North Simcoe (McCarthy) to come down to the Province of Quebec and join in her history. He invited the member for North Simcoe (McCarthy) to come down to the Province of Quebec and join in her history. He invited the member for North Simcoe (McCarthy) to come down to the Province of Quebec and join in her history. RIOT IN PALERMO.

The Military Were Attacked With Stones and Knives—Two Volleys Were Fired into the Mob.

PALERMO, March 6.—Troops were ordered to move at Palermo yesterday to preserve peace during an election in progress there. The people of the town regarded the arrival of the troops with a great deal of hostility, and the streets were filled with stones and knives.

After three volleys had been fired into the mob, the troops were ordered to disperse. The rioters fled in all directions, and the streets were filled with the bodies of the dead and the wounded.

SOMETHING OF A HURRICANE.

A TOWN IN THE DARK CONTINENT.

Several Yachts Stripped and Sent to the Bottom—Many Lives Lost—The Streets Swept Clean of People and Vehicles in a Minute—The British Consulate Wrecked.

PARIS, March 6.—News of a hurricane on the east coast of Madagascar, on Feb. 22, had been received today. The wind came and struck the vessels near the mouth of the bay. The Alamo, a French ship, was stripped almost instantly of masts and rigging and a few minutes later went to the bottom with all on board.

A SENATOR STAGGERS HAMILTON.

Takes a Drive With Three Horses Ahead in Russian Gold-Mounted Harness.

HAMILTON, March 6.—Senator Sanford returned to Hamilton on Saturday for a brief holiday from his duties at Ottawa, for which he was expected to return on Friday evening. To-day he was seen on the streets driving in a fashion not usual in this city, but which is the custom in Russia, where the Senator is believed to have spent some time.

Four years ago, while on his visit to that country, he was much taken with the manner in which the Russian drive with three horses abreast, and he purchased a set of gold-mounted harness and trappings such as they use, and brought them back with him to Canada. Ever since the outfit has remained unused and almost forgotten in his stable, but this morning he had it taken out and placed on three of his finest carriage horses to make a trial of it.

As is the custom in Russia, the center horse was the tallest of the three, the others being equally matched as to size. Together with associates, he was driving the animals before well, and their driver found little difficulty in managing them. Many eyes were turned to the result of his experiment, and it is probable he will repeat it frequently.
