LIKE AN ELECTRIC

Press an electric button and you form a contact with a live wire that rings the bell. When your sharp roots down upon a sensitive nerve and you get a shock of pain, instead of trimming your corns which merely makes them grow, step into any drug store and ask for a quart of an ounce of freezeze. This will cost very little but is sufficient to remove every hard or soft corn callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, soon the corn shrivels up so that it rights out, root and all, without pain. This drug freezeze, is harmless, never inflames or even irritates the surrounding skin.

He is indeed lost who is lost in shame.
