**SAYS RESOURCES BARELY SCRATCHED.**

Colonel Hatch, of Ottawa, Stresses Need of Greater Development.

Ottawa.—The need of developing to the fullest possible extent the natural resources of Canada was emphasized by Col. Arthur L. Hatch, of Hamilton, president of the Canadian Manufacturers' Association, at the Merchants and Manufacturers' Day luncheon of the Ottawa Fair. Col. Hatch pointed out that Canada stood third amongst the countries of the world in great resources.

It possesses half of the forest area of the British Empire. Canada contained 90 per cent. of the cobalt of the world, 80 per cent. of the asbestos, 85 per cent. of the nickel, four per cent. of the gold of the world so far discovered and four per cent. of the copper of the world so far discovered. The mines produced in 1923 \$214,000,000 worth of metals and the surface was scarcely scratched, and there was an increase this year of 20 per cent. over last year. Canada stood second in the world in coal deposits. Its waterpower was estimated at 18,000,000 horsepower and \$700,000,000 were invested in its development. Canada had splendid transportation necessary for efficient manufacturing. It had 39,773 single miles of steam railways and 1725 miles of electric railways. It operated 5,000 steam and sailing vessels.

Two-thirds of the capital invested in Canadian industries was Canadian capital, showing that Canadians had faith in their own country. Col. Hatch said. Canada had 440,000,000 acres of land fit for cultivation, and only 34,000,000 acres were being cultivated.

**J. C. EDWARDS DEAD.**

Ottawa.—John Cameron Edwards, founder of the vast lumber industries and brother of the late Senator W. C. Edwards, died in the hospital here Thursday after a long illness. Mr. Edwards retired many years ago from active participation in the great industries.

**SWINE CLUBS MAKING A HIT IN NOVA SCOTIA.**

Editor Monitor, Dear Sir:—

Some time ago I sent you some information regarding the organization of a Boy's and Girl's Swine Club at Lawrenceton and I understand that this appeared in your paper at a later date. Since that time this club which has been the first of its kind in Western Nova Scotia, has been making good progress and the young pigs which each member started off with in the spring are developing into excellent Bacon Hogs.

The members, which consists of seventeen, sons and daughters of farmers in the vicinity of Lawrenceton, have been taking great interest in club work and are looking forward with anticipation to the Club Fair which will be held in the Demonstration Building, Lawrenceton, October 16th. The prizes for pairs of Bacon Hogs are as follows:

10 to 15 entries—  
1st—\$10.00; 2nd—\$9.00; 3rd—\$8.00;  
4th—\$7.00; 5th—\$6.00; 6th—\$5.00;  
7th—\$4.00; 8th—\$3.00; 9th—\$2.00;  
10th—\$1.00; and one dollar for each succeeding entry of merit up to 15th prize.

At the same time liberal prizes are given for judging and it is surprising how many of the members have taken to judging of these live hogs. The Club meets each Thursday afternoon at 4 p.m. and instruction is given in judging by some member of the Dominion Live Stock branch. The best judges will be picked to represent the Lawrenceton Boy's and Girl's Swine Club as a team to compete against teams from other clubs in Nova Scotia and New Brunswick.

Arrangements are now being made to have the winning team from Inter-Provincial Contest sent to the Royal Fair at Toronto in November. A meeting of Swine Club members and their parents was held at 8 p.m. Thursday the 18th in the Demonstration Building at Lawrenceton.

For your information I might say that we have ten Boy's and Girl's Swine Clubs in Nova Scotia and during the next month some two hundred and fifty pairs of Bacon Hogs will be shown by these members. In places where the membership is of sufficient size the hogs are sold alive and shipped in car lots. This putting the Swine Industry on a more permanent basis.

**WILL ADVERTISE NOVA SCOTIA APPLES.**

Gerald Da Costa, of London, Impressed With Possibilities For Orchardling.

Gerald DaCosta, head of one of the largest apple importing houses at Great Britain, with headquarters at Great Britain, London, paid his first visit to Nova Scotia Thursday. Mr. Da Costa came to this Province at the request of Premier Armstrong, who met him on his recent visit to London. He made a complete tour of the Annapolis and Cornwallis Valleys and expressed himself as much impressed with the possibilities for apple orcharding in these sections of Nova Scotia. So much impressed was he with the quality of Nova Scotia apples that he proposes, it possible, to have a kiosk erected at Wembley for the sole purpose of advertising Nova Scotia apples. Mr. DaCosta believes in intensive advertising and his firm is among the foremost in using every possible means of presenting their wares before the public of Great Britain. While handling enormous quantities of apples hitherto, Nova Scotia

**NEW LAMP BURNS 94% AIR**

Beats Electric or Gas.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money, make \$250 to \$500 per month. 23-13t.

**CANADA'S LOAN OF \$200,000,000**

Spirited Competition in New York For The New Financing.

New York.—Negotiations between the Canadian Government and New York bankers for placing a portion of a Dominion loan in this market were reported underway today. To meet requirements of \$200,000,000 for maturing victory bonds and treasury bills, it was indicated that Canada would follow the advice of the New York bankers by floating a long term of internal loan of \$100,000,000 and selling an equal amount of short term securities in this market.

Spirited competition for the Canadian financing was said to have developed between two banking groups, one headed by J. P. Morgan and company and the other by the Chase Securities Corporation. The Morgan firm was understood to have advised the Dominion's representative on the general set-up of the loan, recommending certain provisions to ensure the stability of its exchange.

The \$100,000,000 Canadian loan sold here in 1922 was underwritten by a banking syndicate headed by J. P. Morgan and Company when the Dominion Government issued its \$50,000,000 refunding bond issue last year, however the sale was handled through Dillon Read and Company.

**OBITUARY.**

**Edgar J. Sabine.**

Mrs. J. Sabine, of Port Lorne, N. S., received the sad news on Sept. 5th, that her oldest son, Edgar J. Sabine, of Bridgetown, had been drowned on Sept. 3rd, in the Port Medway River, Queens County, N. S., by a overturning canoe. Mrs. Sabine left same day by auto for Bridgetown, where she remained with her son, H. R. Sabine, to wait the arrival of the body, which was recovered on the following day, Sept. 6th, from the river, a short distance from where the accident took place. Mrs. Archie Neaves, a sister of the deceased left on Sunday for the same home to attend the funeral.

The funeral took place on Monday afternoon from the residence of his brother, H. R. Sabine, interment being at Centrelea, and services were conducted by Rev. P. R. Hayden, in which he spoke eloquently from 27 chap. Proverbs, subject, "Ye know not what the day or hour bringeth forth." A number of the Baptist choir rendered the following favorite hymns: "What a Friend we Have in Jesus," "Safe in the Arms of Jesus," "Shall we Gather at the River," "Sleep on Beloved, Sleep and Take thy Rest." The deceased was 48 years of age and leaves to mourn the deep loss, a mother, Mrs. Jane Sabine of Port Lorne, two sisters, of Port Lorne, Mrs. Archie Neaves and Mrs. Joshua Sabine, also one brother, Harvey R. Sabine, of the Electric Light, Heat and Power Co.

**ST. CROIX COVE.**

Herbert Milbury has returned home from a pleasant visit with his brother Mr. Leonard Milbury in Halifax.

Mr. Leonard Banks, Inglisville, spent the week-end at the home of Mr. and Mrs. D. M. Hall.

Miss Lillian Dixon and Mrs. Lizzie Messenger, Port Lorne, were recent visitors at the home of Mr. and Mrs. Joseph Hall.

Mr. and Mrs. Israel Banks, Port Lorne, visited Mr. and Mrs. Chester Hall recently.

Mrs. Leonard Milbury, Halifax, is a guest at the home of Mr. and Mrs. Angus Milbury, Mrs. James Handspiker, Mt. Pleasant, Digby Co., was also a recent visitor at the same home.

Mrs. Joseph Hall attended the Teachers Institute held at Bridgetown, on Monday. She was accompanied by Mrs. Lizzie Messenger, Port Lorne.

Miss Ethel Stevenson attended the Institute at Middleton on Friday and spent the week-end at the home of her parents, Mr. and Mrs. Oscar Stevenson, Mt. Hanley.

Mr. and Mrs. Charles Dunn and Mrs. Samantha Goucher, Hampton, were visitors at the home of Mr. Wm. C. Hall the 11th.

Capt. S. Beardsley, Port Lorne, is spending the week at the home of his son, Mr. Silas Beardsley.

will be a comparatively new field for his firm.

Mr. DaCosta thought that the transportation facilities might be improved for the handling of apples from this Province. He suggested that the producer and the transportation companies get closer together and co-operate more thoroughly. He cited the need of this in the shipment of Gravensteins for the English market. In order to secure the highest price these apples should be placed before the consumer in the shortest possible time after being picked. Therefore, Mr. DaCosta advised that the producers of Gravensteins in the Valley should co-operate with the transportation companies in these apples would be picked only a reasonable time before they were to be shipped to Halifax and aboard the ship ready for sailing. This in order to avoid any delay in Halifax. Mr. Da Costa left Halifax yesterday via New York for London.—Chronicle.

**PROMINENT BOTANIST VISITING HOME TOWN.**

Middleton.—R. R. Gates, Ph. D., F.L.S., one of Nova Scotia's most distinguished sons is visiting his parents, Mr. and Mrs. A. B. Gates, of this town. For the past three years Dr. Gates has been head of the Department of Botany at the University of London. Out side of his university work, Dr. Gates leads a very busy life, and during the past few years he has been closely associated with the advanced biological and botanical work and movements of England, and in connection therewith holds several important positions. He is on the Council of Botanical Gardens in Regent Park, London, is an editor of the British Journal of Experimental Biology, and Secretary of the society. Incidentally during the summer months of the past two years he made extensive travel through Norway and Italy, visiting the lakes and studying vegetation in these countries.

Among Dr. Gates' publications are three books, many articles for magazines and over eighty papers of scientific nature. His last book, Heredity and Eugenics, published by MacMillan & Co. last year, is the result of many years of careful study, experiment, and investigation, and is recognized as the highest authority in the subjects under discussion.

The occasion of Dr. Gates' visit to this country at this time was the annual meeting of the British Association for the advancement of Science, which meets somewhere in the British Empire each year. This year it met in Toronto and was attended by about five hundred delegates. Among the matters discussed were various Canadian problems of industrial, economic, and forestry nature. Dr. Gates was on the program, opening a discussion on Species and Chromosomes.

At the close of the association, Dr. Gates was the guest for four days, of the Government of Ontario, inspecting forest areas, relatives to combating diseases of forest trees, many of which are being destroyed by fungus growths. He then visited Wood's Hole, and St. Andrews, inspecting the Biological Laboratories at the Marine-stations at these places.

He expects to sail on the 20th of this month to resume his teaching and studies at the University of London.

**INTERFERENCE WITH OFFICER BRINGS FINE**

Mahone Bay.—On July 24th, 1924, Wm. F. Joudrey, Inspector under the N. S. Temperance Act for the Municipality for Lunenburg, on search found a quantity of "home brew" in the house of Lysander Meisner at Sentry, near Lunenburg. The Inspector, in trying to get a sample for analysis was interfered with by Meisner, and it was only on the third attempt, and after Constable Wawner, who was assisting the Inspector, forcibly restrained Meisner that he succeeded. On his return to Mahone Bay Inspector Joudrey laid an information against Meisner for interference with an officer while in discharge of his duty. Meisner evaded arrest until last week. He was fined \$50 and costs \$17.55 and in default of payment forthwith two months in jail.

A ship a day is the wreck toll for the past year of ships of all nations. Pineapple juice gives a delightful flavor to cornstarch pudding.

**Relieves Dyspepsia**

M.D. advises: "Persons who suffer from severe indigestion and constipation should take after each meal and at bedtime, fifteen to thirty drops of the Extract of Roots known to the Drug Trade as 'Mother Seigel's Curative Syrup.' Get the Genuine."

**FROM MIDDLETON, N. S., TO PORT ARTHUR, ONT., BY HORSE AND WAGON.**

Editors MAKE EXCHANGE.

Measrs Murdoch Matheson and Roy Croft, left Middleton Saturday, each driving a horse and wagon on a journey of about 1600 miles, to Port Arthur, Ont., which they expect to cover in about eight weeks.

Mr. Matheson, who owned a farm near Middleton, sold all his belongings except two horses and two single wagons, and purchased a farm at Port Arthur, Ont., and chose to use this way of transportation in reaching his new farm. He is a returned soldier, and his companion, Mr. Croft, has been working on his farm in Middleton. They expect to cover between

25 and 35 miles each day until they reach their destination.

Editor Percy Black, of the Middleton Outlook, paid us a fraternal visit yesterday, via his Lizzie Ford. We exchanged ideas while we smoked Benson Hedges fragrant Havanas—Percy's treat. Percy brought us two large pumpkins and six or seven Hubbard squash, of his own raising (perfect beauties), and we returned the compliment by presenting him with a six-year-old Plymouth Rock hen with a brood of two-weeks-old chicks.—Berwick Register.

Minnard's Liniment for Sprains and Bruises.

**How to buy a Fountain Pen**

The pen you buy is to act as your constant companion—it is to serve you every day. Soon you will be dependent upon it in all your writing. And there is but one way to make the purchase. Select it as you would any other life companion.

Does it carry an ample supply of ink and the proper nib for your particular style? Is it well-balanced and of correct weight? Is it easy to fill? Does the ink flow freely and evenly? Is the pen efficient in every way? Is it made in Canada? Does it carry the name and reputation of a worthy, long established maker?

Aim to get the best possible service and value for your money—ask all the questions—make all the comparisons and tests—and the pen you will buy will be a Waterman's.

Waterman's Ideal has been the world's leading pen for over 40 years. It leads to-day! Selection and Service at the best Shops.
