

JOAN TABLE WARE.

We get these Spoons and Forks to match, from one of the very largest manufacturers in the world. Over five million dozen spoons of this kind is their record, and their whole output of table ware is simply enormous. They understand their business and make a good article, and sell at smaller profits than many other manufacturers. They do not profess to make a cheap spoon, but a good spoon and one worth the price. We are convinced that these spoons will disappoint no one. They are very highly spoken of by both the wholesale and retail trade as well as by the manufacturers. The Joan table ware is made, the manufacturers tell us, of the Highest Grade Nickel Silver, and is heavily plated with FINE Silver. It has been the aim of the manufacturers to make them equal in design and workmanship to any similar articles in Sterling Silver, and they certainly have succeeded in turning out a very fine article. Many received Joan premiums last year and were greatly pleased with them.
