

ago, she will remain in the school for two years as a teacher, or as an evangelistic worker, during which time she will receive her board and fifty cents a month, her parents paying her other expenses.

Hayama O Hisa San, who was partly supported for four years by the Niagara Falls Auxiliary, left last month, to be married very soon. She graduated three years ago, since which time she has done most efficient work in the school, and also in outside evangelistic work. Her consistent Christian life has been a power for good amongst her associates. She is and will be much missed. In her place we have been fortunate in securing a young girl, a graduate of a mission school in Yokohama, and one who appears to have a beautiful spirit. She will do some teaching in the school, and also assist in evangelistic work.

The Sunday Schools have been carried on as usual; the weekly prayer-meeting, conducted by the girls, has been helpful, and the weekly testimonies in the class-meeting show a continued desire for a higher life.

Last Sunday's class-meeting—the first one of the new term—was particularly good. In answer to a request made at that meeting, the evening was set apart for a special prayer-meeting to ask God's blessing on our school.

Since Itō San left, our most advanced daily Bible lesson has been taught by Mr. Tayama, our pastor. He is a thoroughly good man, "rooted and grounded in the faith," and we believe a true friend to the school.

The new term began April 10th, since which seven new pupils have entered. The greatest desire of our hearts is that no girl who enters our school-home may leave it until she knows Christ as her personal Saviour.

(Signed) M. J. CUNNINGHAM.

Shizuoka—Evangelistic Work.

We have succeeded in commencing a Workers' meeting, and to-day, in addition to our workers, we invited the committee of women in charge of the Church Women's Meeting. In this way we hope to get our women interested in ways and means for helping those around them.
