THE LARGEST SAW MANUFACTURERS IN CANADA.

WIRE ROPE. B. GREENING & Co. Hamilton, Canada.

ROUND and flat hoisting ropes of best brands of Bessemer and cast steel. Charcoal iron transmitting power ropes and pulleys.

BURNELL'S FOUR-POINTED GALVANIZED STEEL BARB WIRE FENCING

There are now before the public a number of 4-pointed barbs, which to the casual observer, are similar in appearance to the Burnell barb which we are making. A close examination of them will show the difference and the inferiority.

The Grand Trunk Railway Company of Canada give preference over all others, and have contracted with us for one hundred tons of fencing for immediate delivery. We claim superiority for our Barb Wire over all others for the following reasons—

- 1st.—We use only the best quality of Galvanized Steel Wire.
- 2nd.—The two strands of No. 12 Wire are twisted together just enough to allow for the contraction and expansion of the metal, caused by heat and cold, and not so as to injure the structure of the steel.
- 3rd.—The barbs on our Wire are four-pointed, and always presenting a barb laterally or at a right angle, which is a great advantage over the Two-barb Wire, as it is unable to get against the fence to break it or push it down.
- 4th.—The barbs are fastened to the Wire at intervals of 7 inches, in a manner entirely different from any other, so that they are securely locked around and between both wires, so that they cannot slip or move toward each other, and they also prevent the untwisting of the cable should either wire get broken.
- 5th.—The machinery by which the barbs are put on is perfect, so that the barbs are not injured or weakened in the process, as is the case with other Four-pointed Wire.

Manufactured by the CANADA WIRE COMPANY Montreal. J. H. IVES, Manager

THE TUPPER GRATE BAR. Thoroughly tested and approved. One set will save several of any other kind, and save a large percentage of fuel. For steamboats, stationary boilers, etc. H. R. IVES & CO. Fire and Marine Manufacturers, Queen St. West.
