Cutaneous diseases, and a certain remedy for them.—How many thousands of human beings are rendered the most unsightly, nay, almost hideous to behold, from the effects of some very disagreeable and sickly looking eruptions on the face or hands; they are shunned by friends, and avoided by acquaintances; for this reason, many have suffered much and expended a large sum in endeavouring to obtain a cure of this malignant form of disease, but without success. Holloway's Ointment, however, if used with Holloway's Pills, will cure every description of sores and ulcers even of twenty years standing, and will restore the patient to health after relief has been departed of, leaving the sufferer without a blemish.

WORMS AND FITS!! It very frequently happens that Convulsions in Children are owing solely to the presence of worms. Happily for the little sufferers, these parasitical animals can easily and speedily be expelled by a few doses of HOLLOWAY'S TASTELESS PILLING, which an infant will hesitate to swallow. It is a Purgative containing the active principles of Vegetables only, and unlike Mercurial Medicine or Turpentine, is perfectly safe in its operation. Hundreds of Children have died of this distressing malady, but a certain cure is now at the disposal of all. In Bottles at One Shilling sterling, by the principal Dispensary, and Wholesale in Halifax by G. MORTON & CO., at the Medical Warehouse.

A NOVELTY IN MEDICINE.—Mr. Gerry the well known Operative Chemist and Apothecary, has succeeded in making his Patent Tablets the most certain and agreeable remedy for consumption and Lung Disease ever known. Instead of waiting their energies in the stomach, the active principles of the Tablets go direct to the diseased organs, and an incurable case, never fails. A more efficacious and certain remedy we do not know. Price one shilling sterling at the Medical Warehouse of G. MORTON & CO.

A GREAT FAMILY MEDICINE: It is of the utmost importance that Households, especially such as are at a distance from Medical Advice, should keep by them a medicine that will control and cure the various ailments common to domestic life. Such a Remedy is GERRY'S GEMMINE PILLS, which are a certain cure for all disorders of the Stomach and Liver, and those disturbances of the bowels that are produced by improper food, or changes of weather or climate. In the diseases of Children they are very efficacious and perfectly safe. A bottle of these Pills may save many a Physician's fee, for taken in time they prevent dangerous and fatal complaints. In Bottles, 1s. sterling each. Sold wholesale, in Halifax, at the Medical Warehouse of G. MORTON & CO.

THE RIGHT MAN COME AT LAST! OR THE PROGRESS OF MEDICINE.

It was with no ordinary pride and satisfaction that we lately had the honor of an introduction to one of the most eminent men of the age, Professor THOMAS HOLLOWAY, a gentleman who has done more for the advancement of medical science than any other that can be named, not excluding such renowned "savans" as ABERNETHY, RUSSE, CLARK, or MAJENDIE. The Professor has recently travelled in the United States, having visited this country for the purpose of establishing a depot for the sale of his medicines in New York. It is true that our public have long been familiar with his great reputation, but partly owing to the heavy duty imposed upon imported medicines, and partly to the unwillingness of physicians and druggists to advance the interests of a professional brother, whose superior knowledge and skill threatened to cast their own pretensions into the shade, the sale (although great) in America of his wonderful remedies has not yet equalled the enormous demand which exists throughout the whole of Europe, Australia, and East Indies, and most other parts of the civilized world. It was for this reason that the Professor, a few months ago, determined to make New York the location of a great American depot for the preparation and sale of his medicines, rivalling in extent and usefulness his celebrated establishment in London, which, as all travellers know, is one of the "institutions" of that city. We have reason to congratulate ourselves, and especially our sick and afflicted fellow citizens, upon his felicitous resolutions.

For proceeding step by step, on strictly scientific principles, the Professor, at the early part of his career, attained to a discovery, which placed him above all competition in the triumphs of the healing art. He noticed how much of the boasted medical knowledge of the present day was empirical, and how little was really known of the laws of human physiology. Continuing his investigations, a happy thought struck him, like an inspiration, and he located the seat of every disease,—no matter what its nature and diagnosis,—in the blood. The blood has vitality;—the blood is alive; it is indeed in the language of Scripture, "the life of man." If that stream of existence is impure, how can the human being be otherwise than feeble, exhausted, emaciated and afflicted by various forms of disease? To purify the blood, and keep it pure, is virtually, to banish sickness from the earth. Here, then, is hope for the sufferer. The poor invalid, despairing of recovery, may go forth into the world a renovated and strong man. Professor HOLLOWAY'S treatment eradicates all our ailments; whether they are of the stomach, liver, kidneys, lungs, heart or skin, he refers their origin to the blood, and restores the apparently diseased organ to pristine and perfect health. Knowing this, as we do, from the experience of our friends, as well as from our own, we discharge but a Samaritan duty to the public, by a cordial recommendation of HOLLOWAY'S PILLS and OINTMENT—the former for internal derangements of the system; the latter for external application to wounds and sores, which have resisted every other so-called remedy.—N. Y. Atlas.
