

LISTERINE

The word Listerine assures to the Medical Profession a non-poisonous antiseptic of well-proven efficacy; uniform and definite in preparation, and having a wide field of usefulness.

On account of its absolute safety, Listerine is well adapted to internal use and to the treatment of Catarrhal Conditions of the mucous surfaces.

LAMBERT'S LITHIATED HYDRANGEA!

RENAL LITERATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys, through the earlier reports of Drs. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once justified the therapeutic claims of LAMBERT'S LITHIATED HYDRANGEA when first announced to the medical profession, whilst subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney Alterative and Antilithic agent in the treatment of

Urinary Calculus, Gout, Rheumatism, Cystitis,
Diabetes, Hematuria, Bright's Disease,
Albuminuria, and Vesical Irritations Generally.

LAMBERT PHARMACAL CO., St. Louis.

SCOTT'S EMULSION

OF COD-LIVER OIL AND HYPOPHOSPHITES
OF LIME AND SODA AND GLYCERINE

Nature makes Glycerine in the human economy in the process of the digestion of fat; makes it for a purpose, and uses it up in the system, thus showing the need of it.

Why does Nature make Glycerine? Chemistry shows it assists absorption and digestion, and prevents fermentation.

HERE'S A HINT FOR US.

We add Glycerine to SCOTT'S EMULSION for the same purpose, and thus prevent flatulence and eructations, and also bring up the food value to 62 per cent., the highest ever attained in any stable Emulsion. It also keeps the oil from becoming rancid and the Emulsion from separating, while it heals and soothes irritated and inflamed mucous membranes, and helps to cure obstinate coughs.

Physicians can give SCOTT'S EMULSION made with Glycerine in Bright's Disease, Rheumatic, Gouty and Diabetic conditions with great benefit, where an Emulsion containing sugar would not be admissible; while in Consumption, Bronchitis, Faulty Nutrition and Dyspepsia it is more easily assimilated and rapid in action.

The combination of Cod-Liver Oil for fat and muscle, Hypophosphites for brain, bone and nerve, and Glycerine to assist digestion and prevent fermentation, follows Nature closely, and is so pleasant that the youngest child or most delicate invalid can take it with certain benefit.

SCOTT & BOWNE, Chemists, Toronto.
