

# HALIFAX MEDICAL COLLEGE,

## HALIFAX, Nova Scotia.

### FORTIETH SESSION, 1908-1909

The Fortieth Session opens on Tuesday, September 1st, 1908, and continues for the eight months following.

The College building is admirably suited for the purpose of medical teaching, and is in close proximity to the Victoria General Hospital, the City Alms House and Dalhousie College.

The recent enlargement and improvements at the Victoria General Hospital have increased the clinical facilities, which are now unsurpassed. Every student has ample opportunities for practical work.

The course has been carefully graded, so that the student's time is not wasted.

For further information and annual announcement, apply to—

65 Morris St., Halifax.

## A VALUABLE THERAPEUTIC AGENT.

By C. P. ROBBINS, M. D., Louisville, Ky.

Assistant to the Chair of Obstetrics and Gynecology and Chief of Clinic, Hospital College of Medicine.

One of the principal subjective symptoms of any disease, or disturbance of nature, is pain, and what the patients most often apply to us for, is the relief of this annoying and troublesome feature. If we can arrest this promptly, they are much more liable to trust to us for the remedies which will effect a permanent cure. The everlasting resort to morphine is overcome in a great measure by

the employment of reliable coal tar products. In cases of intermittent fever it is best to prescribe doses of one or two antilamnia tablets when the first chill comes on. I also find them most valuable in controlling headaches of a neuralgic origin. Rarely more than two tablets are necessary; the pain is promptly dissipated and the patient can go about as usual. The tablets of antilamnia & codeine, I consider the best and most useful in controlling severe pain. I have used them after surgical operations as a substitute for morphine, and find them eminently satisfactory. In controlling the severer forms of neuralgia they rank next to morphine itself.—*Medical Progress.*

# Glyco- Thymoline

IS INDICATED FOR

## CATARRHAL CONDITIONS

Nasal, Throat, Intestinal,  
Stomach, Rectal, and  
Utero-Vaginal.

SAMPLES ON APPLICATION.
