**The Lewis Magnetic Corset.**

It is mechanically constructed upon scientific principles, symmetrical in shape and unique in design.

Each section of the corset is so formed as to maintain the vertical lines of the body, and readily conforms to the figure of the wearer.

It is stayed with strips of highly tempered spring ribbon steel, which is superior to any other boning material owing to its flexibility, smoothness and durability.

Each steel (or stay) is nickel-plated, highly polished and guaranteed not to corrode, metal tipped to prevent the ends from cutting through the fabrics.

The steels (or stays) are incased in separate pockets and can be removed or replaced at pleasure, and are so distributed as to afford the necessary support to the spine, chest and abdomen, while at the same time so pliable that they yield readily to every movement of the body, thus assuring constant comfort to the wearer.

Ladies who, after giving them a fair trial, should not feel perfectly satisfied, can return them to the merchant from whom they were purchased and have their money refunded.

See that the name "Lewis Magnetic Corset" is stamped on each pair, without which none are genuine.
