WISCONSIN QUADRUPLETS.

MILWAUKEE, Wis., April 23 -On Saturday of last week the wife of a Scandinavian, who works a little farm near Chetek, Barrow lounty, Wisconsin, presented her astonished nust and with four healthy, blue eyed, flaxen haired boy babies, weighing 25 pounds. Mrs. Grendahl, the mother, as well as her liege

ford, are Norwegians and were married sixteen years ago. Mrs. Grendahl's family, presix children. Hitherto the farmer and his spouse have

wi hard work to make a living, but in all robability they now have atruck something which were the occasion of the postical offence which were the occasion of the postical offence for which their chief, Louis Riel, has been exequal to a gold mine. The house is fairly besieged hourly with crowds of visitors who are anxious to gaze on the jair features of the quadruplets. A subscription is about to be started by the benevolent of Chotck and other places for the purpose of aiding the family. Photographic artists have made charming pictures of the children, and there is also a rumor that an admission fee will be charged. The county was secoured for wet nurses. Two were obtained, and they will be assisted by the mother, who is in fine condition. The mother wishes to name the children after the four Evangelists, Matthow, Mark, Luke and John, in the order as the appered. They father, who is an old soldier, says they must be called Lincoln, Grant, Garfield and Hancock. In the meantime they are distinguished from mach other by different colored ribbons. They have now lived six days, and are as likely to survive as the usual run of infants.

JACK FROST CONQUERED.

Although during the cold season "Jack Fred" gets in his work livery, yet Hagyard's Vollow Oil beats him every time, curing chilblains, frost bites, and all their painful effects. It cures cures or up, sore throat, rheumatism, and most painful affections.

THE LOST RESTORED. Ira McNeill, of Poplar Hill, Ont., states that his brother aged 12, was afflicted with a terrible cold, from the effects of which he tost his voice. Hagyard's Pectonal Balsam cured the cold and restored his voice in the most perfect manner. He says it cannot be exceeded as a remedy for coughs and colds.

GOOD LUCK FOR AN ENGINEER.

UUDANA, Ill. -- I had a severe fall upon my right kidney. Cansed a great deal of sore-ness, but thought I could wear it out. Was running express engine, 212 miles with four trips a week. The strain and jarring came near killing me. Cannot describe my suffering. Physicians pronounced it caterry of the bladder. After using thirty sottles of Warner's sale cure, I am now a well man.—A. When he set out from Sofia for Constantinople, the Bulgarians gave him a passport, upon which the words, "A pasteboard nose" were written under the head "Particular Marks." Tre Turk immediately complained bitterly to Prince Alexander of the rudeness of his em. playes. The Prince apologized with a smile, and made the diplomatist a present ola uff box for consolation.

A WHIG ESTIMATE. LORD SELBORNE CRITICISES GLADSTONE'S IRESH

MEASURE. LONDON, April 23.-Lord Selborne, a Liberal, in a letter to the Times, attacks certain features of Giadstone's Home Rule bill, and pronounces the messure hopelessly faulty from the fact that not one of the restrictions provided, except from the powers of the proposed Irish Legislature, any matter relating to the lives, liberties and properties of the Queen's Irish subjects. Magistrates, judges and properties of the Queen's Irish subjects. police in Ireland, says Lord Selborne, will be servants of the Dublin government. Referring to the fact that Gladstone's measure excludes from the powers of Irish legislature all matters relating to the army and navy, Lord Selborne says: "There is still no reason why a volunteer Irish army cannot be raised without

passing the bill." Lord Selborne also strongly attacks the land purchase bill. He asks upon attacks the land purchase bill. He saks upon the ground that £50,000,000 will be required to buy out the Irish landlords, how sharers in the first £50,000,000 provided are to be selected, and what position those landlords who may happen to be excluded from the first sales will thereafter occupy? First, with respect to the collection of their rents, and second, with regard to the prospects of being bought out at all. Does Mr. pects of being bought out at all. Does Mr. Gladstone, asks the writer, expect that these landlords will have their rents paid in the meantime? What security is there that any future government after Gladstone's will pass an act to add £100,000,000 to the National debt in or-

der to do justice to the remaining landlords of Ireland, when in the meantime the government of Ireland has passed into the hands of the Nationalists, and a great experiment which has already cost £50,000,000 has perhaps proven a failure? If the question is one of public honor, justice and good faith, provision ought to be made now to discharge the whole obligation, otherwise, it is a cruel mockery towards the landlords.

NOTES FROM QUEBEC.

THE RIEL QUESTION TO BE DISCUSSED AFTER

EASTER. Quenec, April 20.—The Riel question is not after all to be brought before the House by the leader of the Opposition. Hon. Dr. Garneau, the member for Quebec East, is first in with a resolution. He has given notice for Wednesday of the following :-

Be it resolved, that the representatives of the people in this Legislature, without pretending to interfere in questions outside their jurisdiction, think it their duty to avail of the opportu nity afforded by the present session of the House to express publicly and solemnly their sentiments of regret and pain at the deplorable execution of Louis Riel, an execution carried out after the jury recommending the prisoner to mercy, and in spite of all the humane reasons which pointed in favor of a commutation of the sentence."

MORE RIEL RESOLUTIONS.

Just before the house adjourned this morning, Mr. Turcotte, the member for Three Rivers, handed in a notice of motion on the R el question. It is stronger than Mr. Garneau's motion, and is virtually a repetition of the Champ de Mars resolutions, and, in the English version, presented by the mover, reads as follows:—

Whereas the half-breeds, both French and English, for a long time past had grievances

Whereas civilized nations have practically abardoned capital punishment for political

Considering especially the fact that Riel had been recommended to the elemency of the court by six jurymen, belonging to a race and creed different from his and to whom the state had entrusted his trial, it became the duty of the Government to use cemency towards him, Considering that three respites having been granted and the execution postponed three times the duty became all the more imperative, Considering also the fact that Riel and sur-

rendered at the request of General Middleton, Considering that it is evident that the Government has made of the execution a simple subject of election calculations, that it has cooliy computed how many seats would be wor by hanging Riel, and how many would be lost by a policy of c'emency rejustice, that finally in view of giving effect to its calculation it has sacrified him to the hatred of functies, thus allowing them to stir up against one another the different races who in this country live together under the protection of the English flug, Resolved, that in thus executing Louis Riel on the 16th day of November, 1885, the Government of Sir John A. Macdonald has committed an act of inhumanity and of cruelty unworthy of a civilized nation, and deserve-the concennation of all the friends of right and justice without distinction of race or re-

ligion.
