

MINERAL WOOL STEAM PIPE AND BOILER COVERING
(Lambkin's Patent)

MINERAL WOOL

The Great Non-Conductor.

Architects and Builders, Make your building perfect by dead-ening the floors and lining the sides and roofs with MINERAL WOOL. Keeps out the cold in winter and the heat in summer, and makes them sound, fire, frost and vermin proof.

For sale in any quantity by

GAST & ATCHISON,

30 Adelaide Street West,

TORONTO.

Please mention the "CANADIAN ARCHITECT AND BUILDER" when corresponding with advertisers.

READ, PAUSE AND CONSIDER

The Anthony Steel Plate Furnace is a ventilating Heater, supplying warm, fresh air, promoting health and comfort.

PERFECT Circulation implies the exchange of cold foul air for heated fresh air, hence ventilation.

DON'T expect perfect circulation and ventilation through the medium of a Heater unless fresh air from outside is admitted to replace foul air removed.

The construction and sanitary application of the Anthony Steel Plate Furnace is fully described in our new 107-page book entitled, "Our Homes; How to Heat and Ventilate Them."

This book will be furnished free of charge upon application.
