

There are but few points of importance where mean solar time is used in the United States. It is used at Detroit, Michigan (population 200,000), and Savannah, Ga. (population 44,000). There are also a few points mostly in Ohio, Indiana, and Michigan. For further information, see 'Travellers' Official Guide of the Railways and Steam Navigation Lines in the United States, Canada, and Mexico,' from which the above tables were taken, 24, Park Place, New York.

URUGUAY—

	h.	m.	s.	
Monte Video	3	44	49.56 S.	This is local mean time, and is supposed to be used throughout the country. Railway time is about 5m. slower than this. O.D.

WINDWARD ISLANDS—

Grenada	4	6	59.40 S.	
St. Vincent	4	5	0 S.	This is about the time. It depends on a periodical telegram from Demerara, and on the time from ships of war when the clocks are set. O.D.

ZULULAND

2	0	0 F.	Every day, excepting Sundays, a telegraphic time signal is received from Durban. O.D.
