WHEAT ROSE ON **EXPORT DEMAND**

Lisbon Alone Took Quarter Million Bushels-Irregularity in Corn.

CHICAGO, Dec. 10,—Spirited buying for prominent speculators gave a lift today to wheat. The market closed firm, let to like the confinished irregular, let to like lower to a like, advance, and oats the same as last night to a shade decline. Provisions wound up with a rise of 71/2c to 30c.

Sales to exporters were responsible for much of the bullish sentiment regarding wheat. One house here disposed of a quarter-million bushels for Lisbon. It was said also that Kansas City was selling wheat back to the interior of Kansas for milling, and that Nebraska fermers estimated 35 per cent. of the crop in their state would be fed to live stock.

Favorable weather for the Argentine harvest was offset by continued advice that the yield there was short, poor in quality and of light weight. Furthermore, the chances of winter-killing by the recent freeze in the fall-sown fields south and west of Chicago were steadily kept in mind by traders. On the other hand, bearish gossip was current that

hand, bearish gossip was current that essiern roads in the United States would loan all the cars required this winter to move grain to Atlantic ports. Realizing sales on the swells acted as an additional eneck against a more substantial uptura. Corn was under heavy selling pressure most of the day, but in the last half-hour the market rallied, owing to signs that pit offerings were going into strong hands. Reports varied as to whether supplies from farmers showed any decided increase because of improved wear-

ther.

Commission house buying steadled oats, but shipments from Canada were said to be again a factor in the east, and there were continued liberal receipts in the were continued liberal receipts in the canadian Northwest.
Packers took a hand at buying provisions when the market gave way early in sympathy with a decline in the price of hogs. Shorts were forced to cover

such a squadron in less than 25 years, if reorganization of the admiralty were made, it would be comparatively easy to fit in other parts of the Empire, because each would have its own navy board and could nominate naval officers on the staff at the imperial admiralty.

Control the Money.

"Both we and the Dominions would have control of a greater part of the money we each provided for naval defence. We should all be represented in a body responsible for the strategical distribution of the fleet. In other words, five nations would all be in an exactly similar position. Such revolution at the admiralty is not likely to be welcomed here because it means putting into the melting pot an organization built up gradually and which to be welcomed here because it means putting into the melting pot an organization built up gradually and which is one of the most efficient departments of the state, but if this would settle the very difficult problem of co-operation in naval defence and give

day, prices being firm at the advance noted in the early part of the week, owing to the fact that the supply was smaller than expected and choice stock continues to be scarce. In fact, there were no choice animals on the market. The wether was more favorable, it being colder with a fair fall of snow, consequently the demand from local buyers was good and a fair amount of business was also done for shipment to the United States. Best steers sold at \$7.50, but the bulk of the trade was done in cattle, ranging from \$5 to \$7,
