Conference Will Deal With Prob-lem of International Credits.

Canadian Press Despatch.

Canadian Press Despatch.

WASHINGTON, Oct. 12.—Explaining the expected visit here of Sir George Paish, British financial expert, in an effort to arrange credits between the United States and England, President Wilson said today the government was seeking to keep commerce moving, tho as yet no general plans had been worked out.

The president said that as far as he knew men from other nations had not been invited to come to America for a conference on credit. Some nations, the president said, are not in a position to take part in such a movement, and the object of the Washington Government is to be practical and attend to that part of the world's commerce which can be kept moving.

LESSER OUTPUT IN U.S. OF PRECIOUS METALS

Canadian Press Despatch.

WASHINGTON, Oct. 12.—Gold production in the United States in 1913 amounted to 4,299,784 fine ounces, valued at \$88,884.400, according to statistics compiled by the geological survey and the mint bureau. The silver production amounted to 66,801,500 fine ounces, valued at \$40,348,100. The gold production was \$4,500,000 less than in 1912, and silver nearly 3,500,000 ounces less for the same period.

**BETTER POSITION** 

Each Week Shows Improvement in Financial Affairs-Serious Problems to Face.

cial situation, as it presents itself today, is given by Henry Clews & Co. of New York. "Each week marks further improvement in the financial situation," says their weekly letter. It says that the position of foreign exchange is daily growing more favorable. The milliondollar pool is given as an example of what can be done under proper manage-ment. While it is believed that the worst of the financial crists is past, yet the fact is stated that there are serious problems brought about by the war which

blems brought about by the war which have yet to be solved.

"The money market 's working into a better position," says the report. The observation is that good borrowers are having less trouble to secure funds, and rates are somewhat easier. The increase of crops in nearly all lines is alluded to. In regard to the federal reserve banks, it is stated that these will in all probability be ready to open about Nov. 1. This is a month earlier than was expected. This, they believe, will mark the date upon DULUTH, Oct. 12.—Wheat—No. 1 hard, \$1.10½; No. 1 northern, \$1.09½; No. 2 do., \$1.06½. Bran—\$19.25.

DULUTH-SUPERIOR EARNINGS.

Earnings of Duluth-Superior Traction Company for the first week of October were \$24,855.76, an increase of \$556.77.
Since Jan. 1 cearings were \$994,427.74, an increase of \$38,930.70.

It is added also that London is making stern efforts to bring about the opening of the exchanges there. "It is the loan situation and not the speculative position, which is the main cause of anxiety," they say. Further: "When the embargo upon credit disappears, and Great Britain is able to secure her raw materials, especially cotton, her international trade will quickly recover," an increase of \$38,930.70.

LONDON, Oct. 12.—Bar silver steady at 23%d per ounce. Short loans, 1¼ to 1% per cent. Discount rates, 3% to 3% per cent.

Thomas Adams, F.R.I., who was been appointed town planning adviser to the Canadian Commission of Con-servation, was the guest of honor at SHOW STRAIN OF WAR BERLIN, via London. Oct. 12.-The reekly statement of the Imperial Bank, weekly statement of the Imperial Bank of Germany shows the following changes: Bullion, bank notes and treasury notes increased 690,781,000 marks; gold increased 54,629,000 marks; Lombard demands increased 11,297,000 marks; discounts and transfers decreased 1,455,735,000 marks; bonds and stocks decreased 7.292,000 marks; notes in circulation, increased 222,014,000 marks; deposits decreased 435,289,000 marks.

built upon or not in town planning schemes. The towns in the Dominion are continually increasing in popula-tion, while the rural districts are remaining practically stationary. It is the vast increase in the towns that would require to be dealt with in town planning schemes. I anticipate difficulties, but it is my hope that I will find men in Canada willing to join together for the furtherance of town planning as has been done in England."
