

## Entertainment's Chief Charm

Jamestown

THERE is no greater help to the art of true entertainment than the appointments of your table.

When you come to silver, your search for exclusive design, true economy and genuine durability need take you no further than Holmes & Edwards silverware.

Exceptional beauty—rare distinctiveness of designs—has been wrought into the two superb patterns here shown.

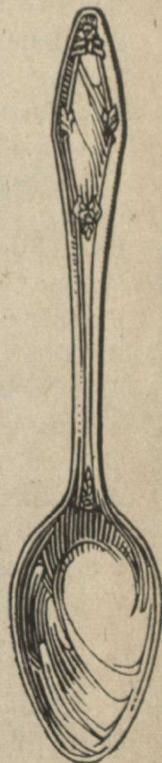

Master craftsmen give you Holmes & Edwards Silver in two forms—"SUPER-PLATE" with extra protection at all exposed places, and "SILVER-INLAID" with blocks of solid silver set in at rest points before plating.

These two exclusive processes of wear protection are applied only in the five staple pieces—those most frequently used. In addition, throughout the line, Holmes & Edwards offers you an exceptional quality of Plate.

Ask your jeweller to show you these two exquisite patterns and to give you a copy of our booklet "How Good Silverware is Protected Against Wear".
