## DIAGONAL TUBE SCHEME IS FAVORED BY MAYOR

His Worship is Dubious as to Advertising for Tenders—Theatricals Present Case.

Controller Hooker's tube scheme was productive of a pointed discussion at the board of control meeting yesterday morning. It was introduced by the report of the committee requesting a grant of \$500 to acquire additional information and \$400 to provide for the cost of advertising for tenders. Mayor Geary, who was present for the first time since his illness, could not see the need of expending the money until the tubes were wanted. He was of the opinion that a route from the centre of the city in a diagonal direction to the west might be found more suitable for the city's needs. He also was of the opinion that tenders could not be secured without something definite to the expenditure of the money if it would do any good.

Controller Church took the same view as the mayor. Controller Ward thought that, as it was the report of a special committee of the council, it should be sent in to that body, and the board agreed to this.

Coxwell Versus Ashdale. Action on the report of the civic works committee, favoring Coxwell over Ashdale-avenue as the point for the subway under the Grand Trunk tracks, was deferred to give the board an opportunity of seeing the two sites. Controller Hooker declared that he considered the Ashdale-avenue site the most suitable.

As a result of a communication from the chairman of the Public Library Board it was decided to request that body to appoint a committee to confer with the board regarding the terms for an increased grant.

The question of reopening the Sunnyside bridge matter was sent on to council without action. A letter was read from Controller Spence which placed him on record as in favor of the bridge.

The question of the sale of a 15-foot strip of land in West Toronto brought Al. Baird before the board in the interests of his constituents. The property had been purchased before annexation under the local improvement system, the people paying half the purchase price on the understanding that it was to be used as a part of an open square on Gilmore-avenue. It has been sold by the city, although the deed is not yet signed, and two shacks are in the course of construction thereon, to the detriment, it is claimed, of the surrounding property. The council will be afforded an opportunity of considering it on Monday.

Moving Picture Men Kick.

"When is a moving picture show a vaudeville performance?"

That was in substance the question put to the board by Dr. Hart and Dr. Hargrave, representing the Moving Picture Association of Ontario. They complained that the city architects and the license departments had imposed a hardship on the houses giving

their patrons anything but pictures. They held that everything in the way of a performance other than pictures constituted a vaudeville performance and placed the houses under the same restrictions as the large theatres where a license of \$500 per year. The moving picture license is \$50.

Dr. Hart offered no objections to the added license fee where singers were introduced, but he did object to the moving picture houses being asked by the city architect to conform to the business restrictions of regular theatres regarding fireproof drop curtains and cement stages. He pointed out that they had only one set of scenery in these houses and if that were fireproofed it should satisfy the department. He also argued that the picture shows presenting this class of vaudeville should have a new classification known as music-halls, and that places where church entertainments and concerts were held should conform to the same regulations.

The matter was referred to the two departments concerned for a report. "Never with my consent, I told you yesterday what I thought about turning bay water into the city mains," said Mayor Geary when City Engineer Rust hinted to the board that he would like to tap the lagoon in order to get a supply of water to fill up the reservoir more rapidly.

"You have already eight feet in the reservoir," continued the mayor, "and that is not bad for one night's pumping. You should be able to catch up with everything running smoothly until night. You are getting a sufficient supply from the intake now, are you not?"

Mr. Rust said that he was getting the full capacity of the pipe, but if he were to get the lagoon water turn-

## Suffered for Years From Constipation and Sick Headache.

Headache seems habitual with many people; indeed, some are seldom, if ever, free from it, suffering continually, and wondering why they can get no relief. The most frequent of all are bilious or sick headaches, and are caused by some derangement of the stomach or bowels, or both.

Burdock Blood Bitters regulates the digestive and biliary organs, removes acidity of the stomach, improves digestion, regulates the constipated bowels, and promotes a perfect circulation of pure blood to all portions of the body.

Mrs. C. Meadows, Clarkburg, Ont., writes: "For years I was troubled with sick headache and dizziness, and was constipated. I was advised to try Burdock Blood Bitters. I only took three bottles of the medicine, and now feel like a new person as I am completely cured. I can truthfully testify that B.B.B. is the best medicine I have ever used."

Burdock Blood Bitters, has, during the last 35 years, built up an unrivalled reputation as a cure for all troubles arising from a constipated condition of the bowels.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ed in for a short time it would enable him to fill the reservoir more quickly and thus afford a greater protection against fire.

The controllers agreed with the master that it would be unwise to let the bacteria-laden water in the mains, and it was decided that there would be no bay water used. "How long would it take to lay the proposed extension to the intake?" asked the mayor. "It would take about three days if the weather was suitable," replied the engineer.

## WILL WATCH LEGISLATION

Secretary of Manitoba Grain Growers to Go to Ottawa.

WINNIPEG, Feb. 17.—Rod McKenzie, secretary of the Manitoba Grain Growers' Association, has been appointed a special delegate to visit Ottawa, where he will spend some time watching legislation on behalf of the farming interests in the west.

Members of the grain exchange here believe that the new tariff arrangements will have an important effect upon the western grain trade and in order so that it may be conserved for Canada, amendments to the present Grain and Inspection Act are necessary. A committee has been appointed to study the situation and suggest changes in legislation.

## QUEBEC'S INTERESTS FIRST.

QUEBEC, Feb. 17.—Replying to a question put by Henri Bourassa in the house as to the attitude of the provincial government regarding the reciprocity negotiations, and whether the government would make any change in its decision as to the exportation of pulpwood, Premier Gouin stated that Quebec was waiting to see what might happen.

The desire of the government was to make Quebec the pivot of the pulp and paper industry of the world. If the choice lay between Quebec and Ottawa, the interests of Quebec would certainly receive first consideration.

A Precious Burden. A man, his wife and family are alone in a room. The flames are roaring around them. The smoke is rapidly suffocating them. The father seizes the Davy Automatic Fire Escape ladders from the window, lowers his wife and little ones to the ground and then descends himself. What more can you want? The "Davy" ensures perfect safety from fire. Gormally, Tilt & Co., 32 East Adelaide-st., Canadian Agents, Toronto.

Want Free Machinery. KINGSTON, Jamaica, Feb. 17.—The government has recommended to the local legislature that agricultural machinery and artisans' tools be placed on the free list. It is believed that this will be a great impetus to the importation of American goods.

## SAUNDERS GOES TO JAIL

Magistrate Inflicts Ten Days' Sentence on Gambling Resort Keeper.

"Jake" Saunders did not need a patrol to take him to the jail to serve his sentence of ten days' hard labor imposed on him yesterday morning by Magistrate Denison, but instead scooting off in his big new touring car. He was arrested on a charge of keeping a common gaming house, and, as he

is known all over the city as a sportsman with plenty of the necessary, the magistrate did not give him the option of paying a fine, knowing that he would gladly do so and escape punishment.

Three witnesses were called to prove that the stakes in the gaming house were high, and after a deal of unwilling talking, they admitted that they had to buy \$50 worth of chips on entering. T. C. Robinson wanted his client let off with a fine, promising to put up bonds that there should be no gaming, but the magistrate would hear none of it. "It would be just a farce to put a fine on him," said the cad; "he must do ten days in jail, with hard labor."

## CITY TO BUY BRIDGE.

KINGSTON, Feb. 17.—(Special.)—There is a movement for the city to purchase a Otaraqui bridge for \$14,850 and be in a position to eventually deal with the Dominion Government. At present the city holds \$20,000 stock in the bridge, the value of which is placed at \$40,000. There is an annual grant of \$1400 from the Dominion Government. If a new bridge is not erected for some years the tolls collected would more than keep the bridge in repair.

## Battleships for Russia.

ST. PETERSBURG, Feb. 17.—The government has asked the duma to vote \$50,000,000 for the construction of four battleships by 1915. The vessels are to be named Sebastopol, Petropavlovsk, Gangut and Potava.

# MEN, READ IT!

## READ WHAT MR. RALF

Dear Sir—I purchased a Belt from Dr. McLaughlin and I would not be without it for a trouble and nervousness, and my stomach.

MR. G. W. SMITH, N.Y. Dear Sir—I am perfectly satisfied and I would not be without it for a trouble and nervousness, and my stomach.

What would you give to have not sacrifice to feel as you did a energy, the same gladness, joy, strength you used to have? You know that you would like to be, being men out of wrecks every day ever were with
