LOTS OF HARD, LITTLE SOFT HOW COAL STRIKE HITS CITY

Conference of City Coal Dealers Will Be Held This Week to Talk Situation Over.

Judging by the opinion of the Toronto coal dealers, there is little likelihood that the prices of hard coal will be raised this year on account of the miners' strike just launched in the States.

A number of dealers were spoken to Saturday and all take an optimistic view of the situation, so far as coal for household use is concerned.

The supply of soft coal in Toronto which has not been augmented for the past ten days, will not equal a very prolonged demand, the most of the soft coal consumers have a large supply on hand, which they obtained at the old prices on the advice of their dealers.

If the strike does last for any length of time the price of soft coal will likely take an upward jump. The Toronto coal men will not be to blame for this, as they are really only middlemen, and the New York and Buffalo jobbers who have all laid in a large supply will be the real gainers, as very little coal will come from the affected districts. In the last week only a few straggling carloads have come into the city, and the Toronto dealers are in somewhat of a quandary for a few days till they become advised as to the probable development and effect of the strike.

In the meantime a conference of city dealers will likely be held this week, and a statement as to their intentions, whatever the development may be, is expected.

Inconsistency on the part of Chairman Carscallen and Messrs. Crawford and McKay was shown in the private bills committee on Thursday morning when considering the private bill of the Town of East Toronto. One of the clauses of the bill refers to the Balm Beach Park, empowering the town council to purchase a further addition to the park commissioners to enable them to tide over temporary financial difficulties. Another clause sought power to invest some \$17,000 in a mortgage given by the bank at 3 per cent, in their own debentures drawing 4 1/2 per cent, instead of drawing the condition of the park commission's finances, reference was made to a mortgage given by the bank on the park property for \$4500, on made, and both Mr. Carscallen and Mr. McKay expressed strong doubt as to the validity of this mortgage. A suggested amendment to the bill permitting the town to invest \$4500 in their sinking fund in purchasing this same mortgage, and both he and Mr. Carscallen used strong endeavor to make the amendment. When unable to accomplish this they struck out the whole clause.

STILL WAIT FOR PHILLIPS' CROWN AFTER SECRET FUNDS

Crown Attorney's Searching Questions Not Satisfactory—Big Amounts; No Details.

Joseph Phillips, president of the defunct York County Loan, spent Sunday "over the Don." On Saturday J. E. Jones, counsel for Phillips, was prepared to offer any amount for his freedom, but the magistrate refused to accept bail under any circumstances.

Phillips appeared in the dock with other prisoners, and, as it happened, stood between two men, one charged with drunkenness and the other with disorderly conduct, both notorious offenders. He was forced to wait for a seat, and was sitting there alone when his name was called. Then he was allowed to march out of the dock, under surveillance and seat himself beside his lawyer.

A doctor's certificate produced, stating that Miss Lillian Hudson was ill and unable to attend the session of the court, was declared unsatisfactory by Crown Attorney Curry.

"Perhaps there will be a more satisfactory one on hand before Monday," suggested Magistrate Denison.

The crown attorney's attention was confined to an endeavor to find out about the secret deposits in banks or in safe depositories belonging to Joseph Phillips, Miss Georgina Hudson, however, declared that she knew nothing about them, and was of the opinion that her sister, who occupied a joint position with her, knew nothing. The investigation will continue along this line daily, according to Mr. Curry, if he comes across satisfactory evidence.

A Bogus Loan. Stewart Linn produced the books of the Toronto Life and upon being shown a cheque for \$3000 signed by Phillips said it was interest on a loan.

"How could it be interest on a loan that did not exist?" asked the magistrate, and Linn could not explain.

"If this company had the report to the government the statement that this \$3000 was interest on a loan must have been bogus," continued Magistrate Denison. "In another instance the cheque on Dec. 31, 1904, for \$6502.36, was paid out by Burr and was indorsed by him right back to the York Loan."

Four cheques were drawn by Montreal were produced in court. They were for \$488, December, 1904; one for \$5000 dated March 1, 1905; one for \$2500, dated Dec. 13, 1904, and one for \$496.35, dated September, 1905.

Mr. Linn was shown a cheque for \$2000, he said was received by the company.

Linn ran over the books and finally announced that it had been given for the purchase of a house on Macdonell avenue for Phillips.

Questioned in regard to a \$4000 cheque he said he had not cashed it in his till. "It was drawn from No. 3 account and paid back into No. 2 account," was his testimony.

"It was set aside for Burr and for the purchase of C.P.R. stock," said Mr. Curry.

Can You Resist Disease Germs?

Yes, and become "Germ-proof" by Driving Out Blood Humors and Restoring the System.

Why are doctors and hospitals so busy in spring-time? Easily answered. People haven't much surplus vigor in the spring; it was all used up fighting off colds through the winter.

With thin blood and low vitality, the germs of disease become active and cause fevers and debility.

Your best protection is to get the abundant vigor that Ferrone so quickly supplies; it gives spring sickness that "tired feeling," restores nerve energy and instils vim and force into every ailing organ of the body.

No abler restorative is known than Ferrone; its influence is not temporary, but lasting, laying a sound foundation of health that lasts till old age.

Mr. Nazaire Begin of Watton, P.O. Que., who received enormous benefit from Ferrone, writes: "I cannot speak too highly in praise of Ferrone. If any one had told me that any remedy could build up my nervous system so well, I wouldn't have believed it."

"Before using Ferrone I was run down in nerve and vital energy, and in very weak health."

"I didn't get enough sleep at night and felt poorly in the day time."

"Ferrone has filled me up with energy and vim, increased my weight and made a new man of me."

Your health through the summer depends on clearing away all traces of spring sickness; the remedy is Ferrone. Sold by all dealers, 50c per bottle, or six boxes for \$2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

CHANGES IN MINES BILL.

Taxing of Mining Lands Will Be on Altered Scale.

The new mines bill will be before the house probably on Thursday. Hon. Mr. Cochrane formally introduced the measure on Friday, but it has not yet been finally agreed upon by the cabinet.

Since the publication of a summary of the bill by The World early in the session, there has been a good deal of criticism of that feature which calls for the payment of only 10 cents an acre a year on mining lands of every class. It may be that, instead, there will be a small imposition on three patented mining lands at present taxed by municipalities, and of 5 cents an acre, with a higher tax, perhaps of 8 cents, on those not now taxed by municipalities.

Encouragement for the raising of metal in the province will also be given.
